**POLICY IMPLEMENTATION**

The purpose of policies developed by the board and the administrative regulations developed to implement policy is to increase the probability of an effective and efficient school system. It is, therefore, assumed that all school employees and students will carry them out. So that all are treated equally and fairly, suggestions for changes, deletions, additions, or revisions to existing policies and regulations are welcomed by the Board from students, employees, and parents.

Those in subordinate positions are responsible for informing subordinates of existing policies and regulations and for seeing that they are implemented in the spirit intended. Continued disregard for Board policy and the administrative regulations set forth may be interpreted as willful neglect of duty and may constitute grounds for dismissal. A formal grievance may be instituted by any employee who feels he/she is subject to arbitrary and/or capricious regulations.
