**STUDENT SUSPENSION**

The principal of a building, or his designee, may deny a student the privilege to attend school and school activities on a temporary basis. Suspension shall not exceed five (5) consecutive days. The student will have an opportunity to appear at an informal hearing before the principal and, if requested, the superintendent to explain his/her actions. This hearing may take place immediately.

The Board encourages the use of parent-teacher-student conferences, counseling services, and the services of social and psychological agencies for students experiencing difficulties. Alternate classes, in-school suspension, and the use of crisis teams and work programs should be explored.

It is the Board's desire that the administration continue to work with the student and parents to find alternative means to assist the child in receiving an education.
