In West Linn-Wilsonville, we are deeply committed to answering this question: how do we create learning communities for the greatest thinkers and most thoughtful people...for the world? We are guided by the following vision themes: personal and academic excellence, a personalized education to improve each student's performance, establishing community partnerships, creating circles of support for each student, educating the whole person, and integrating technology into daily learning.

The Special Education Department of West Linn-Wilsonville Schools provides an additional circle of support for students who qualify for these services. We are committed to improving our instructional practices to engage all students in their learning, to creating more inclusive cultures in every school, and increasing each student's voice in their individualized educational program. We believe in the power of collaboration between families and educators to benefit children, and work to find ways to maximize this collaboration. We value the connection that each child has to their home school and community, and work to bring the resources to the child. We invest in the concept of a growth mindset for all children and adults, and know that with high expectations and appropriate supports, we can help each child achieve their challenging goals and aspirations. Participating in co-curricular activities is a high leverage way for students to learn about themselves and others and to find their greatness in music, sports, science, drama, art, or any interest that engages them. Every child has access to the general education curriculum and our work is to help them continuously improve in their depth of thinking and in their belief in themselves as learners.

We set the bar high for our students and for ourselves, and will continue working to help each child, every child, achieve the promise of a world class education.

2012-2013
Special Education Report

April 2014

Dear Parents and Community Members,

The Oregon Department of Education is proud to issue the eighth annual special education report. Reported indicators and targets correspond to the information in the State Performance Plan (SPP) for Special Education that is required by the United States Department of Education. As Oregon schools and districts continue to face many challenges, educators remain committed to providing the highest quality education for Oregon students. This report is not meant to tell you everything about your district, but it offers a starting point for discussions about where improvement might be needed and for celebrating successes in education for Oregon's children.

Rob Saxton, Deputy Superintendent of Public Instruction

Department of Education Notes

- ¹ Data displayed reflect participation in regular statewide assessment (Oregon's general assessment) with one or more approved accommodations. For more information, see Oregon's approved accommodations at <http://www.ode.state.or.us/teachlearn/testing/admin/alt/ea/accommodations-manual-for-2012-2013.pdf>.
- ² Results from the alternate statewide assessment measured against alternate achievement standards (Oregon's Extended Assessment) are not comparable to results from the regular statewide assessment (Oregon's general assessment).
- ³ All assessments are included in the 95% target above.
- ⁴ The state target is based on an annual percentage increase in the number of districts that met the criteria.
- ⁵ The state target is based on an annual percentage reduction in the number of districts identified with a significant discrepancy. A "No" for the district is preferred.
- ⁶ All parents are not surveyed. A sampling of parents complete the Oregon Parent Survey.
- ¹³ Data displayed are Parent Survey data collected in 2011-2012 from a sampling of parents in your district.
