

## What is Safe Routes to School?

A successful Safe Routes to School Program is a partnership between city and county agencies, schools, community organizations, and neighborhoods that work together to create opportunities to make walking and biking to school and throughout the community fun, easy, safe and healthy for all students and their families. Schools and communities have the best chance of success when they combine expertise, resources and program elements that consider the "5 E's of Safe Routes to School": Encouragement, Education, Enforcement, Engineering and Evaluation.
