

Water Cycle Supporting Documents Grading

Name: _____ Date: _____ Period: _____

Items and order of notebook:

1. Title Page
2. Water Cycle - Initial Model
3. Heating of the Atmosphere
4. Exploring the Water Cycle
5. Soil Percolation Lab

Score	Requirements Needed
5 - Accomplished	Includes all items in correct order. All assignments are accurately and precisely completed. Craftsmanship is “accomplished” – legible and clear writing, drawings are well done. Detail is shown on all assignments. Water Cycle – Initial Model shows the progression of learning.
4 - Sufficient	Includes at least 4 of the 5 items in correct order. All assignments except for “Heating of the Atmosphere” are accurately and precisely complete. “Heating of the Atmosphere” is complete for items 12, 13, 14, 17 and 18. Craftsmanship is “sufficient” – legible and clear writing, drawings are well done. Detail is shown on most assignments and there is evidence that the Water Cycle – Initial Model has been updated for at least two of supporting assignments.
3/2/1/0 - Not Yet Meets	Less than 4 items are included in correct order. More than 2 assignments are not accurately or precisely completed. Craftsmanship is “developing or inadequate” – writing may be unreadable or messy. Drawings are messy. Detail is not shown on many assignments and the Water Cycle – Initial Model has not been updated.
