

A periodic surveillance must be conducted of each school building that contains ACBM or is assumed to contain ACBM at least once every 6 months. Visually inspect all areas that are identified in your AHERA Management Plan to observe current conditions. Note both damage and change in condition by circling the appropriate category below using the comment section for details. Date and sign this surveillance then submit a copy of the record to the Designate Person for inclusion in the AHERA Management Plan.

DO NOT TOUCH ASBESTOS - CONTAINING MATERIAL WITHOUT PROPER TRAINING

West Linn High School (WLHS)

Material	Location	Quantity	Damaged	Changed
Cement Asbestos Board	Chalkboards presumed throughout (none observed during inspection but may be obscured by cork boards or white boards)		Yes <input checked="" type="radio"/> No	Yes <input checked="" type="radio"/> No
Asbestos Pipe Insulation	Gym building, lower level (inaccessible areas)		Yes <input checked="" type="radio"/> No	Yes <input checked="" type="radio"/> No
Hard Fittings/Fiberglass	Gym building, lower level (inaccessible areas)		Yes <input checked="" type="radio"/> No	Yes <input checked="" type="radio"/> No
Fire Door	Throughout		Yes <input checked="" type="radio"/> No	Yes <input checked="" type="radio"/> No
Window Glazing Compound	Throughout gym lower level on exterior windows		Yes <input checked="" type="radio"/> No	Yes <input checked="" type="radio"/> No

Comments: Walked through gym with custodian. Most asbestos containing materials have been removed from the school. There is localized damage to a hard fitting/pipe in gym caused by corrosion.
