

A periodic surveillance must be conducted of each school building that contains ACBM or is assumed to contain ACBM at least once every 6 months. Visually inspect all areas that are identified in your AHERA Management Plan to observe current conditions. Note both damage and change in condition by circling the appropriate category below using the comment section for details. Date and sign this surveillance then submit a copy of the record to the Designate Person for inclusion in the AHERA Management Plan.

DO NOT TOUCH ASBESTOS - CONTAINING MATERIAL WITHOUT PROPER TRAINING

Wood Middle School (WMS)				
Material	Location	Quantity	Damaged	Changed
Cement Asbestos Board	Chalkboards presumed throughout (none observed during inspection but may be obscured by cork boards or white boards)		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Transite Pipe	Exterior siding		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Window Glazing Compound	Exterior windows throughout		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
HVAC Sealant	Mezzanine level mech. and attic storage rooms	3000 sf	Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Asbestos Insulated Wiring	Potentially throughout (not observed during inspection but possibly in inaccessible areas)		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Sheet Floor Covering	Small areas located throughout the building		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Fire Door	Throughout		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Gypsum Wallboard	Throughout (material tested negative for asbestos in the staff lounge)		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Covebase/Mastic	Throughout (some areas tested negative for asbestos but not enough samples to make a determination)		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>
Vinyl Floor Tile	Various areas remain throughout building		Yes <input type="radio"/> No <input checked="" type="radio"/>	Yes <input type="radio"/> No <input checked="" type="radio"/>

Comments: Walked site with custodian. HVAC sealant has been taped over, tape is falling off but sealant remains undamaged; localized damage to gyp in cafe storage room, F hall, and room F113; localized tile damage in A100; localized sheet floor peeling in bathroom near room 168.
