

Dear 8th graders,

I just wanted to give you a quick note about next year.

Please remember that all those students in High School Spanish 1 and Middle School Spanish 8th grade right now at Wood, Rosemont, and Meridian have had their year cut short - just like you've had wellness shortened :(

So what does this mean? This means any disadvantage you were feeling about ending Spanish in January is a lot lower now - because you were able to finish 8th grade learning!

This means if you were still planning on going to Spanish 2 - please still plan on that. You will be just fine! If you were borderline should I go to Spanish 1 or 2, maybe consider going to Spanish 2 now - since it certainly won't be as hard as maybe it was in previous years. This break might actually be a good thing for you.

For those of you who are going to Spanish 2: please make sure you're enrolled in the google classroom for practice. **The code is: nyubpiy** All the notes are there but I've also added links for practice and will continue to add more links as I get time to do so. I hope to make this page a wealth of practice for you. And I do have some time on my hands now :)

I hope you're all doing well. Be safe and be nice to your parents!

Mr. Percival
