	will assist us in prioritizing issues. Michael presented a summary report of the site assessments to the administrative team.		
15-11.1	8. Lamps and portable heaters at school. Cindy read an email received asking if the District has any policy or protocol on lamps at school, since they noted that they see them left on overnight and wondered about the safety of it. Pat shared that we do not have a policy or protocol, but we do discourage bringing lamps. Desk lamps are okay, but do need to be shut off at the end of each day. Paula asked about portable heaters. Pat shared that we discourage portable heaters and would rather a work order was created if someone is uncomfortable. Maintenance would investigate and try to make changes to create a more comfortable environment. We do not actively manage lamps and portable heaters. Pat and Cindy will create two safety moments. One on lamps and one on portable heaters.	Pat/Cindy	12-16-15

NEW SAFETY COMMITTEE ISSUES:

1. Bat Phones – The IT Department installed a red phone at each site that is not connected to regular phone lines. This is a phone that could work in an emergency situation where regular phone lines are down. This phone will capture the fax line and allow use. They are red and stand out. Curt calls them “Bat phones.”
2. Tim and Jennifer Spencer-Iams participated in a task force on safety. About 40 people representing school districts attended. It was the Clackamas County Sheriff’s school safety task force. The topic was threat of harm and assessments for students that need them. There will be another meeting in January.

NEXT MEETING: February 17, 2016 – DOC Conference Room, 7:30 AM
