Draft done in June 2018. District Safety Leadership Team spent time with S-EOP. Edits were made on reunification process and specific evacuation sites for individual S-EOP’s. Tim Woodley and Hannah Chow are meeting with principals and staff to review S-EOP’s. Emergency Safety Guide based off of CCC template was reviewed during S-EOP meetings. Andrew Kilstrom is printing ESG for each staff member. 2,000 will be printed and distributed in October 2018. Building engineers will be instructed to post ESG in every classroom. ESG book will become part of annual “Safe Schools” online training for Districtwide staff. Some ESG will be printed in Spanish. During S-EOP meetings evacuation sites are determined by current evacuation fire drill sites with a secondary site at alternate location. Hannah Chow will edit and hand deliver S-EOP’s after meeting and email Kathy Ludwig’s District safety PowerPoint presentation to review with school staff. Admin building is working on go-kits for each school and a District go-kit. Admin and school nurses will work on how meds will be removed during emergency evacuation. Designated staff member will be assigned to student roster in Schoolmaster for evacuation and reunification purposes. Curtis Nelson is working with schools on District radios to be used during drills and emergency evacuation. Admin IT can help with student records from District radios. S-EOP will not be in electronic form. One copy will be left at school office. Hannah Chow will update annually. Tim, Kathy, Curt, and Andrew will give presentation at Clackamas County Safe School Summit on 9/20/18.</li> <li>• First Responders Breakfast on 10/3/18. Workshop on large event safety management. Safety guides along with floorplans will be delivered to the DOC and then delivered to custodians and staff at each school. Safety guide will be added to annual trainings online for each employee. Substitutes will be trained on safety as well. Kathe Monroe is wondering about paper versions of safety guides for new hire training in HR department. Kathe Monroe shares difficulty with new hires on annual trainings. Mark Law will follow up with building engineers on safety guide distribution. One D-EOP will be held at DOC and one at admin building. Kathy Ludwig and Ginger Fitch will sign the D-EOP’s and Hannah Chow will add signed copes to S-EOP individual books.</li> </ul>

It was recommended that legal be talked with. Legal looked through it, and connected with district leadership members. He cited a bunch of ORS citations that actually provide a path for the district to respond to everything without the exclusion packet entirely. Neither legal nor the superintendent's office feels that we should sign up for this.</li> <li>Legal gave Pat some feedback about a new ORS that allows us to be able to take some action (such as move a car that obstructs operation). Receive pricing to review and learn from them. They could be the vendor for security and monitoring. Received quote for Art Tech.</li> <li>Sonitrol has a feature that is based around building security, and maybe we don't have a service like this but we thought we did. It's based around the number of individual IDs the district has over time (not one year, it's per employee that's ever worked for the district). We have over 10,000 now as opposed to 9,999 which is a big difference as far as amount of numbers go.</li> <li>When we made the conversion from six units to seven units, we learned we lost some combinations due to us not reusing number combinations (Sunset, Meridian, Bolton). Not resolved yet.</li> </ul> <p><b>4.18.18:</b></p> <ul style="list-style-type: none"> <li>April 9<sup>th</sup> they went into West Linn High School and videos at Wilsonville High School were upgraded.
