

WEST LINN-WILSONVILLE SCHOOL DISTRICT

**DEPARTMENT OF OPERATIONS** 

2755 SW Borland Rd, Tualatin, OR 97062 503.673.7995

# **District Safety Committee Minutes** Wednesday, April 17, 2024; 7:00 AM, WLWVSD via Zoom

#### A. ATTENDEES:

| Name                   | Location/Title                    | <b>Present</b> | <mark>Absent</mark> |
|------------------------|-----------------------------------|----------------|---------------------|
| Jeff Chambers          | Facilities Manager                | X              |                     |
| Enrique Guillen        | Custodial Supervisor              | X              |                     |
| Officer Jabral Johnson | West Linn HS, SRO                 |                | X                   |
| Officer Zach Keirsey   | Wilsonville HS, SRO               |                | X                   |
| Pat McGough            | Chief Operating Officer           | X              |                     |
| Steve Matthias         | Maintenance Supervisor            | X              |                     |
| Leon Mongeau           | OSEA Representative               | X              |                     |
| Jeremy Nichols         | Safety & Security<br>Supervisor   | X              |                     |
| Allyson Pierce         | OSEA Representative               | X              |                     |
| Karen Pyeatt           | District Nurse                    | X              |                     |
| Mindy Schmitz          | Community Services<br>Coordinator | X              |                     |
| Kayla Kniola           | WWEA Representative               | X              |                     |
| Shyla Waldern          | Director of Human<br>Resources    | X              |                     |
| Staci Ball             | WWEA Representative               | X              |                     |

#### **B. MINUTES REVIEW:**

The minutes from all meetings are available on the website: <u>http://www.wlwv.k12.or.us/Page/16137</u>

## C. EXISTING ACTION ITEMS:

| Description  | Responsible<br>Party         | Status<br>(due by) |
|--|------------------------------|--------------------|
| Safety, Security, and Technology Upgrades<br>6.21.2023   | •                            |                    |
| <ul> <li>District will be doing a full audit of the FOB shelter lock batteries to ensure they will be ready for the new school year.</li> <li>Shelter lock has been discontinued. The district bid Key Scan to replace lock sets at WLHS. Due to the bid the district received we are putting the project on hold. Likely that WLHS will not be updated this summer. District working on a resolution for this.</li> <li>Trillium Creek primary will be updated with the shelter lock system.</li> </ul> | Pat McGough<br>Jeff Chambers | Ongoing            |

|               |  | [ |   |
|---------------|--|---|---|
| •             | Trillium Creek is moving along with their security upgrades.   |   |   |
|               | Including curtains, new entry and lock system.   |   |   |
| 9.20.202      |  |   |   |
| •             | Trillium Creeks new system is functional and working. The system   |   |   |
| 10 10 0       | has been tested but FOBs have not been issued yet.   |   |   |
| 10.18.2       |  |   |   |
| •             | District staff attended a training for the new FOB system and are<br>continuing to learn to use the system. The system is active and staff |   |   |
|               | is working with the principal on handing out FOBS when ready.  |   |   |
| •             | West Linn High School is the last school that still needs a shelter  |   |   |
| •             | lock system. The district will be going out for bid this fall and  |   |   |
|               | construction will be performed next summer.  |   |   |
| •             | District has decided to hire 2 more School Safety & Engagement   |   |   |
|               | Specialists, one more for each high school.  |   |   |
| 11.28.2       | · ·  |   |   |
| •             | Trillium Creek completed their FOB training yesterday, staff are   |   |   |
|               | ready to use their FOBs and the new door hardware system.  |   |   |
| •             | The 2 new Safety & Engagement Specialists have been hired. Now   |   |   |
|               | West Linn High School and Wilsonville High School both have 2  |   |   |
| 10.000        | Safety & Engagement Specialists on campus full-time.   |   |   |
| 12.20.2       |  |   |   |
| •             | Operations and IT are still meeting weekly. Isaac Force will start   |   |   |
|               | leading these meetings. Maintenance staff are continuing the installation of monitors at the Administration building as well as            |   |   |
|               | testing of the alarm systems.  |   |   |
| 1.24.20       | • •  |   |   |
| •             | We're making preparations for the key scan system to be installed at   |   |   |
|               | WLHS this summer.  |   |   |
| 2.21.202      |  |   |   |
| •             | This is the last key scan system to be installed and parts have been   |   |   |
|               | ordered for installation at WLHS. The resolution has been passed   |   |   |
|               | and approved by the Board.   |   |   |
| 3.20.202      |  |   |   |
| •             | The speakers for the secure entry call boxes are not working well.   |   |   |
|               | The solution will be new call boxes installed for better   |   |   |
|               | communication. With the new call boxes there will be a button to   |   |   |
|               | push and the person outside will be able to communicate easily to office staff inside the building.  |   |   |
| •             | New key boxes will be installed at each school site. This will be for  |   |   |
| •             | staff to check out a key to access exterior doors. At the end of the   |   |   |
|               | day the process will be to return the checked-out key to the key box.  |   |   |
|               | This system has been in use at the District Operations Center (DOC)  |   |   |
|               | and has worked well for maintenance staff. Jeff will work with   |   |   |
|               | SRO's to get law enforcement a code to be able to access keys from   |   |   |
|               | key boxes.   |   |   |
| 4.17.202      |  |   |   |
| •             | Key boxes have been installed at Wilsonville High School and   |   |   |
|               | Boones Ferry Primary School. With this new system in place we are  |   |   |
|               | getting keys back. The focus will be to start working on primary   |   |   |
|               | schools without perimeter fencing. Next on the schedule will be  |   |   |
| 5.15.202      | Cedaroak Park, Sunset and Lowrie.<br>24  |   |   |

| Drills<br>6.21,2023  |                |         |
|--|----------------|---------|
| • All drills have been complete for the year! All schools met the requirements regarding drills for the year.  |                |         |
| <ul><li>7.19.2023</li><li>No drills during the summer.</li></ul>   |                |         |
| <b>9.20.2023</b>   |                |         |
| <ul> <li>All principals have been notified of the drill requirements for the drills they need to complete throughout the year.</li> <li>All schools have completed their September fire drills.</li> </ul>   |                |         |
| 10.18.2023   |                |         |
| <ul> <li>Had a secure event at Bolton and West Linn High School which provided great feedback. WLHS will be performing a lockdown drill on next Friday that will be different from the usual drills they have been running (maybe during passing time).</li> <li>The Great Shakeout is tomorrow 10/19. We have 7 schools participating and performing earthquake drills for the shakeout. The district also sent out language to schools on processes for earthquake</li> </ul>  |                |         |
| drills.  |                |         |
| 11.28.2023   |                |         |
| <ul> <li>Drills are going well, ensuring that all schools have completed a lockdown, secure and earthquake drill before Winter Break.</li> <li>Lowrie incident: The 11/15/23 Safety Committee was cancelled due to an incident at Lowrie Primary School. There was an active manhunt in the neighborhood around Lowrie Primary School which caused schools to be delayed for two hours. From this event there was feedback from staff that the district could improve the communication regarding these events. Director of Communications is actively working on a new process for communications for staff in regards to these type of incidents.</li> </ul> |                |         |
| 12.20.2023   | Jeremy Nichols | Ongoing |
| <ul> <li>Schools did a great job finishing drills for the month of December.<br/>Jeremy will connect with new staff members who have questions in<br/>regards to drill protocol.</li> <li>Jeremy will also work with schools who need extra training on<br/>testing FOBs.</li> </ul>   | Jeff Chambers  |         |
| 1.24.2024  |                |         |
| • Schools working to get January fire drills completed. We continue to see improvements in drills and are working closely with principals to make any adjustments that might be needed.  |                |         |
| • Zach reported when a fire drill is scheduled right before lunch or at<br>the end of day dismissal there are students who are leaving campus<br>during the drill. This is causing a safety concern at Wilsonville HS.<br>We will look into finding a way to communicate to students the<br>importance around this topic and provide reasons why students<br>should be present during a fire drill. There was a suggestion made to<br>educate by showing a video on this topic on the TV's located<br>throughout the high schools.   |                |         |
| <b>2.21.2024</b>   |                |         |
| <ul> <li>Pat will engage with the Director of Communications on building a video around the importance of being present for drills and find a way to communicate this message to high school students.</li> <li>The Operations team continues to go to lockdown drills and holds debriefings afterwards. The team is continually reviewing systems involved in drills.</li> </ul>  |                |         |
| 3.20.2024  |                |         |
| • We continue to make improvements for drills. There is still an ongoing concern of staff and students not being able to hear intercom messages clearly during drills. We're working on a solution with the IT department to set up audio files to the intercom to repeat  |                |         |

|          | the message while also having an option for the principal or admin.     |                |         |
|----------|---|----------------|---------|
|          | assistant to make an announcement if needed.                            |                |         |
| •        | During a recent lockdown drill at a primary school it was reported      |                |         |
|          | that childcare staff members didn't participate in the drill. What is   |                |         |
|          | protocol for childcare group inside the buildings during a lockdown     |                |         |
|          | drill? Mindy has reached out to childcare providers to make sure        |                |         |
|          | they are aware of Standard Response Protocols.                          |                |         |
| 4.17.20  |   |                |         |
| •        | Childcare groups are now aware of the protocols during drills and       |                |         |
| •        | will be participating if they are in a building during a drill time.    |                |         |
|          |   |                |         |
| •        | The audio files are still going through an update and changes are       |                |         |
| 5 1 5 20 | being made to some of the reminders.                                    |                |         |
| 5.15.20  | 24  |                |         |
| •        |   |                |         |
|          | nmental Testing   |                |         |
| 6.21.20  | 23  |                |         |
| •        | Have tested 6 schools for lead and water in regards to the HASS         |                |         |
|          | plan. 5 of the 6 schools are 100% clear and one school remaining,       |                |         |
|          | Stafford, one fixture had to replaced and retested.                     |                |         |
| •        | Lowrie radon temporary mitigation efforts during the Spring were        |                |         |
|          | effective. Working through the summer with partners to achieve a        |                |         |
|          | more permanent solution. Will be using continuous radon monitors        |                |         |
|          | throughout the summer to see what adjustments occur.                    |                |         |
| 7.19.20  | •   |                |         |
| •        | Continuing with radon monitoring at Lowrie PS. Maintenance team         |                |         |
| · ·      | will be meeting on $7/27$ to discuss how things are going for the       |                |         |
|          | summer testing.   |                |         |
| •        | Have completed all testing at six schools for lead/water testing and    |                |         |
| •        |   |                |         |
| 9.20.20  | all schools have passed their testing.                                  |                |         |
|          |   |                |         |
| •        | Radon monitoring at Lowrie is ongoing. All of the changes from the      |                |         |
|          | Spring are still in effect. The testing period is coming up in October. |                |         |
|          | Lowrie's entire building will be tested for radon starting on October   |                |         |
|          | 9 <sup>th</sup> .   |                |         |
| •        | Lead testing will be continuing this fall. Jeremy to update as we start |                |         |
|          | testing specific sites.   |                |         |
| 10.18.2  |   |                |         |
| •        | Lowrie has passed their radon testing.                                  | Jeremy Nichols | Ongoing |
| 11.28.2  | 023   |                |         |
|          |   |                |         |
| •        | There will be upcoming radon & lead testing performed in some of        |                |         |
|          | our buildings. Updated will be provided as the tests are completed.     |                |         |
| 12.20.2  | 023   |                |         |
| •        | Radon tests are complete at Athey Creek and Riverside HS and the        |                |         |
|          | results came back below the action threshold.                           |                |         |
| •        | Testing at WHS is scheduled for January 8th. Results will be            |                |         |
|          | available for the next Safety Meeting.                                  |                |         |
| 1.24.20  |   |                |         |
| •        | Wilsonville HS testing is complete and results came back under the      |                |         |
|          | threshold. There were questions about the canisters placed              |                |         |
|          | throughout the school and because of this, we will be more              |                |         |
|          | transparent in communication with schools before testing occurs.        |                |         |
| _        | Lead and water are next in the process of environmental testing.        |                |         |
| 2.21.20  |   |                |         |
|          |   |                |         |
| •        | The environmental technician is working on finishing labels for the     |                |         |
|          | upcoming lead and water testing. The state has changed the              |                |         |
|          | formatting guidelines.  |                |         |
| •        | Radon testing at Lowrie was complete in December and the                |                |         |
|          | continuous radon monitors in place are reporting numbers under the      |                |         |
|          | threshold.  |                |         |
| 3.20.20  | 24  |                |         |
|          |   |                |         |

| · · · · · · · · · · · · · · · · · · ·  |               |         |
|--|---------------|---------|
| • Lead and water testing will start in April.  |               |         |
| <ul> <li>4.17.2024</li> <li>We're in a holding pattern for the lead and water testing. Containers</li> </ul>                               |               |         |
| • We're in a holding pattern for the lead and water testing. Containers have arrived and there will be an update once the number come in.  |               |         |
| Faucets need to be off for 12 hours, so typically we look to perform   |               |         |
| tests around no school days.   |               |         |
| 5.15.2024  |               |         |
| •  |               |         |
| Incident Reports   |               |         |
| 10.18.2023   |               |         |
| • The District Safety Committee will now be investigating all incident   |               |         |
| reports for district staff. Shyla did send a message to staff reminding  |               |         |
| to fill out the reports for any incidents. Since the message she had   |               |         |
| received two reports, one for a staff slipping on water and one from a   |               |         |
| teacher tripping over student backpacks. For these incidents she will  |               |         |
| send the committee an email. For other incidents the committee will  |               |         |
| discuss in our monthly meetings.<br>11.28.2023   |               |         |
| <ul> <li>Human Resources is working on a process for sending incident</li> </ul>   |               |         |
| reports to the Safety Committee. Will have an update on the process  |               |         |
| for the December 20 <sup>th</sup> meeting.   |               |         |
| 12.20.2023   |               |         |
| • The Safety Committee reviewed the process for employee incident  |               |         |
| reports.   |               |         |
| 1.24.2024  |               |         |
| • There were two certified and 6 classified incidents reviewed. The  |               |         |
| root cause was identified and recommendations were made for each   |               |         |
| incident.<br>2.21.2024   | Shyla Waldern | Ongoing |
| <ul> <li>We continue to see the outdated form being used to report incidents.</li> </ul>   | Pat McGough   |         |
| • We continue to see the outdated form being used to report incidents.<br>HR will again send out the new form to schools and communicate   |               |         |
| where it's found on the WLWV website. There were six incident  |               |         |
| reports reviewed and three of those were for slips or falls. Part of the   |               |         |
| quarterly safety inspections is to make sure there are mats placed at  |               |         |
| each door of the buildings. Our custodial team has the supplies  |               |         |
| needed to quickly mop of spills that have happened inside.   |               |         |
| 3.20.2024  |               |         |
| • Five incident reports were reviewed. We determined the root cause  |               |         |
| and action taken for each incident. Continually checking that each   |               |         |
| work space is safe and fixing any broken equipment promptly was  |               |         |
| discussed by the committee as a resolution.<br>4.17.2024   |               |         |
| <ul> <li>The team reviewed three incident reports and the contributing factors</li> </ul>  |               |         |
| • The team reviewed three incident reports and the contributing factors of two of the three were identified as employee choices. The third |               |         |
| was identified as a machinery defect. Jeff will work with  |               |         |
| maintenance staff to get the machinery fixed.  |               |         |

| Safe and Welcoming Schools   |                               |
|--|-------------------------------|
| 1.24.2024  |                               |
| <ul> <li>With the update of the Long Range Facilities Plan, one of the priorities is Safe and Welcoming Schools. The District Safety Committee will be the primary Focus group to provide input for a Task Force. Focus groups gather information to present to the Task Force and will make recommendations to the Long Range Planning Committee. The Safe and Welcoming Schools Task Force will need one member of the District Safety Committee to be a part of their Task Force. There is a Focus Group meeting scheduled for Feb. 7<sup>th</sup>.</li> <li>2.21.2024</li> </ul> |                               |
| Leon Mongeau was selected as the Safety Committee member to  |                               |
| participate in the Focus group. There is a Task Force meeting on March 13 <sup>th</sup> and the SROs will also be a part of this team. After meeting, the group will make a recommendation to the Long Range Planning Committee.   | Pat McGough                   |
| 3.20.2024  |                               |
| • The Task Force meeting took place on March 13 <sup>th</sup> . Feedback was well represented. The final report is being formulated and the team will make a recommendation to the LRPC.   |                               |
| 4.17.2024  |                               |
| • The Long Range Planning Committee has a meeting tonight (4/17/24) and will be discussing the Long Range Facilities Plan update. The Bond team has met with all of the primary principals and meetings have been planned to meet with middle and high principals  |                               |
| principals. 5.15.2024  |                               |
| •  |                               |
| School Safety Concerns   |                               |
| <ul> <li>Social media threat made against two middle schools in the district.<br/>Staff is concerned and students feel unsafe at school. How does the<br/>district deal with these concerns? This topic will be discussed at<br/>DSLT.</li> </ul>  |                               |
| 2.21.2024  |                               |
| <ul> <li>The DSLT is using this topic for table top exercises in Leadership meetings and PTA Focus groups in an effort to practice and how to respond to this type of situation. The District does its best to communicate factual information in a timely manner.</li> <li>There have been two instances of an unidentified person walking through the Tripp parking lot at West Linn High School. This was</li> </ul>  |                               |
| reported to Officer Johnson and the School Safety and Engagement<br>Specialist, but no one was found. Allyson asked if there are cameras<br>in this parking lot. The Tripp lot does not have cameras. The DSLT<br>will discuss this topic at their next meeting.   | Pat Mcgough<br>Jeremy Nichols |

| <ul> <li>The Tripp lot concern will be on the agenda for the next DSLT meeting.</li> <li>During the inerterm extract full in the forested area of Trilling Couple.</li> </ul>  |                               |
| • During the ice storm a tree fell in the forested area of Trillium Creek<br>Primary School. What can be done to keep this a safe educational<br>space for learning? The tress in the forest area of Trillium Creek  |                               |
| were accessed and are as safe as can be. Discretion is advised when<br>allowing students to access this area during recess on windy days.<br>The area is currently closed, but the soil will also continue to dry<br>out.  |                               |
| • Arborists are seeing an increase in concern for trees due to environmental changes. Close attention is being brought to any  |                               |
| changes found in trees across the district.<br>4.17.2024   |                               |
| <ul> <li>The Tripp lot concern is one of the topics on the agenda for the next<br/>DSLT meeting.</li> </ul>  |                               |

| •         | We are seeing an increase in damaged trees across the District. The |  |
|-----------|---|--|
|           | weather conditions are tough on trees nowadays and District wide    |  |
|           | we're seeing the effects of damage. Moving forward we'll deal with  |  |
|           | tree problems as they arise.  |  |
| 5.15.2024 |   |  |
| •         |   |  |

## NEW SAFETY COMMITTEE ISSUES/DISCUSSION:

- 1. There are issues with raised concrete around the District. This is due to trees becoming too big and the tree wells being smaller than usual.
- 2. What can be done to improve protocol for medical emergencies in buildings?

## NEXT MEETING: May 15, 2024 – via Zoom at 7:00AM

*Minutes* were prepared by Mindy Schmitz (<u>schmitzm@wlwv.k12.or.us</u>). Please submit in writing any corrections to West Linn-Wilsonville District Safety Committee prior to the next meeting date; otherwise the minutes will stand as reported.
