B. MINUTES REVIEW:

The minutes from all meetings are available on the website: <u>http://www.wlwv.k12.or.us/Page/16137</u>

C. EXISTING ACTION ITEMS:

Description	Responsible Party	Status (due by)
Safety, Security, and Technology Upgrades		
6.21.2023		
• District will be doing a full audit of the FOB shelter lock batteries to ensure they will be ready for the new school year.		
• Shelter lock has been discontinued. The district bid Key Scan to replace lock sets at WLHS. Due to the bid the district received we are putting the project on hold. Likely that WLHS will not be updated this summer. District working on a resolution for this.		
• Trillium Creek primary will be updated with the shelter lock system.		
7.19.2023		
• Trillium Creek is moving along with their security upgrades. Including curtains, new entry and lock system.		
9.20.2023		
• Trillium Creeks new system is functional and working. The system has been tested but FOBs have not been issued yet.		
10.18.2023		
• District staff attended a training for the new FOB system and are continuing to learn to use the system. The system is active and staff is working with the principal on handing out FOBS when ready.		
• West Linn High School is the last school that still needs a shelter lock system. The district will be going out for bid this fall and construction will be		
performed next summer.		
• District has decided to hire 2 more School Safety & Engagement Specialists,		
one more for each high school.		
11.28.2023	D	
• Trillium Creek completed their FOB training yesterday, staff are ready to use their FOBs and the new door hardware system.	Pat McGough	
• The 2 new Safety & Engagement Specialists have been hired. Now West Linn High School and Wilsonville High School both have 2 Safety & Engagement	Jeff Chambers	Ongoing
Specialists on campus full-time.		
12.20.2023		
• Operations and IT are still meeting weekly. Isaac Force will start leading these meetings. Maintenance staff are continuing the installation of monitors at the Administration building as well as testing of the alarm systems.		
1.24.2024		
• We're making preparations for the key scan system to be installed at WLHS this summer.		
2.21.2024		
• This is the last key scan system to be installed and parts have been ordered for installation at WLHS. The resolution has been passed and approved by the Board.		
3.20.2024		
• The speakers for the secure entry call boxes are not working well. The solution will be new call boxes installed for better communication. With the new call boxes there will be a button to push and the person outside will be able to communicate easily to office staff inside the building.		
 New key boxes will be installed at each school site. This will be for staff to check out a key to access exterior doors. At the end of the day the process will 		
be to return the checked-out key to the key box. This system has been in use at the District Operations Center (DOC) and has worked well for maintenance staff. Jeff will work with SRO's to get law enforcement a code to be able to		
access keys from key boxes.		
4.17.2024		
• Key boxes have been installed at Wilsonville High School and Boones Ferry Primary School. With this new system in place we are getting keys back. The		

 Next on the schedule will be Cedroxok Park, Sunset and Lowrie. 5.15.2024 We are in the final stages of installing key boxes at the primary schools and have received positive feedback from principals. We'll finish the process at the middle schools in the containg weeks. Williamete Primary will be reviewed for technology and security upgrades this summer and WLHS will be the last site to have the key scan system installed. This is on schedule to be completed over the summer. 6.12.2024 Schools and the conting weeks. Williamete Primary schools met the requirements regarding drills for the year. 7.19.2023 All drills have been complete for the year! All schools met the requirements regarding drills for the year. 7.19.2023 All principals have been notified of the drill requirements for the drills they need to complete throughout the year. 7.19.2023 All principals have been notified of the drill requirements for the drills they need to complete throughout the year. All schools have completed their September fire drills. 10.18.2023 Had a scure event at Bolton and West Linn High School which provided great feedback.  incident at Lowrie Primary School. There was an active manhunt in the neighborhood around Lowrie Primary School which caused schools to be delayed for two hours. From this event there was feedback from staff that the district could improve the communication regarding these events. Director of Communications is actively working on a new process for communications for staff in regards to these type of incidents. 12.20.2023 Schools did a great job finishing drills for the month of December. Jeremy will connect with new staff members who have questions in regards to drill protocol. Jeremy will also work with schools who need extra training on testing FOBs. 12.42.024 Schools working to get January fire drills completed. We continue to see improvements in drills and are working closely with principals to make any adjustments that might be needed. Zach reported when a fire drill is scheduled right before lunch or at the end of day dismissal there are students who are leaving campus during the drill. This is causing a safety concern at Wilsonville HS. We will look into finding a way to communicate to students the importance around this topic on the TV's located throughout the high schools. 221.2024 Pat will engage with the Director of Communications on building a video around the importance of being present for drills and find a way to communicate this message to high school students. The Operations team continues to go to lockdown drills and holds debriefings 	• Lowrie incident: The 11/15/23 Safety Committee was cancelled due to an

District Safety Committee Meeting

3.20.2024		
 We continue to make improvements for drills. There is still an ongoing concern of staff and students not being able to hear intercom messages clearly during drills. We're working on a solution with the IT department to set up audio files to the intercom to repeat the message while also having an option for the principal or admin. assistant to make an announcement if needed. During a recent lockdown drill at a primary school it was reported that childcare staff members didn't participate in the drill. What is protocol for childcare group inside the buildings during a lockdown drill? Mindy has reached out to childcare providers to make sure they are aware of Standard Response Protocols. 4.17.2024 Childcare groups are now aware of the protocols during drills and will be participating if they are in a building during a drill time. The audio files are still going through an update and changes are being made to some of the reminders. 		
• Drills have gone well this year and principals have done a great job adhering to drill standards. The IT department has finished the updates to the audio files and the updated messaging has been tailored to the specific drill that is being performed.		
6.12.2024		
• Environmental Testing		+
6.21.2023		
• Have tested 6 schools for lead and water in regards to the HASS plan. 5 of the 6 schools are 100% clear and one school remaining, Stafford, one fixture had to replaced and retested.		
• Lowrie radon temporary mitigation efforts during the Spring were effective. Working through the summer with partners to achieve a more permanent solution. Will be using continuous radon monitors throughout the summer to		
see what adjustments occur. 7.19.2023		
 Continuing with radon monitoring at Lowrie PS. Maintenance team will be meeting on 7/27 to discuss how things are going for the summer testing. Have completed all testing at six schools for lead/water testing and all schools have passed their testing. 		
9.20.2023		
• Radon monitoring at Lowrie is ongoing. All of the changes from the Spring are still in effect. The testing period is coming up in October. Lowrie's entire building will be tested for radon starting on October 9 th .		
 Lead testing will be continuing this fall. Jeremy to update as we start testing specific sites. 10.18.2023 	Jeremy Nichols	Ongoing
 Lowrie has passed their radon testing. 11.28.2023 		
 There will be upcoming radon & lead testing performed in some of our buildings. Updated will be provided as the tests are completed. 12.20.2023 		
 Radon tests are complete at Athey Creek and Riverside HS and the results came back below the action threshold. 		
 Testing at WHS is scheduled for January 8th. Results will be available for the next Safety Meeting. 		
1.24.2024		
• Wilsonville HS testing is complete and results came back under the threshold. There were questions about the canisters placed throughout the school and because of this, we will be more transparent in communication with schools before testing occurs.		
 Lead and water are next in the process of environmental testing. 2.21.2024 		
<i>4.41.404</i> 7		

District Safety Committee Meeting

• The environmental technician is working on finishing labels for the upcoming lead and water testing. The state has changed the formatting guidelines.		
• Radon testing at Lowrie was complete in December and the continuous radon monitors in place are reporting numbers under the threshold.		
3.20.2024		
• Lead and water testing will start in April.		
4.17.2024		
• We're in a holding pattern for the lead and water testing. Containers have arrived and there will be an update once the number come in. Faucets need to be off for 12 hours, so typically we look to perform tests around no school days.		
5.15.2024		
 Lead and water testing are complete at IWMS and ACMS. We are now waiting for testing results to come back. Wilsonville High School will be the next school to test and will be done by the end of the school year. 6.12.2024 		
•		
Incident Reports		
10.18.2023		
• The District Safety Committee will now be investigating all incident reports for district staff. Shyla did send a message to staff reminding to fill out the reports for any incidents. Since the message she had received two reports, one for a staff slipping on water and one from a teacher tripping over student backpacks. For these incidents she will send the committee an email. For other incidents the committee will discuss in our monthly meetings.		
11.28.2023		
 Human Resources is working on a process for sending incident reports to the Safety Committee. Will have an update on the process for the December 20th meeting. 		
12.20.2023		
• The Safety Committee reviewed the process for employee incident reports. 1.24.2024		
• There were two certified and 6 classified incidents reviewed. The root cause was identified and recommendations were made for each incident.		
 2.21.2024 We continue to see the outdated form being used to report incidents. HR will 		
again send out the new form to schools and communicate where it's found on the WLWV website. There were six incident reports reviewed and three of	Shyla Waldern Pat	Ongoing
those were for slips or falls. Part of the quarterly safety inspections is to make sure there are mats placed at each door of the buildings. Our custodial team	McGough	
has the supplies needed to quickly mop of spills that have happened inside. 3.20.2024		
 Five incident reports were reviewed. We determined the root cause and action taken for each incident. Continually checking that each work space is safe and fixing any broken equipment promptly was discussed by the committee as a resolution. 		
4.17.2024		
• The team reviewed three incident reports and the contributing factors of two of the three were identified as employee choices. The third was identified as a machinery defect. Jeff will work with maintenance staff to get the machinery fixed.		
5.15.2024		
• The committee reviewed six incident reports and the team reviewed the best course of action for each circumstance. We found one report to be unrelated to employee safety.		
6.12.2024		
•		
	L	

 With the update of the Long Range Facilities Plan, one of the priorities is Safe and Welcoming Schools. The District Safety Committee will be the primary Focus group to provide input for a Task Force. Focus groups gather information to present to the Task Force and will make recommendations to the Long Range Planning Committee. The Safe and Welcoming Schools Task 		
 Force will need one member of the District Safety Committee to be a part of their Task Force. There is a Focus Group meeting scheduled for Feb. 7th. 2.21.2024 Leon Mongeau was selected as the Safety Committee member to participate in the Focus group. There is a Task Force meeting on March 13th and the SROs will also be a part of this team. After meeting, the group will make a recommendation to the Long Range Planning Committee. 3.20.2024 The Task Force meeting took place on March 13th. Feedback was well represented. The final report is being formulated and the team will make a recommendation to the LRPC. 4.17.2024 The Long Range Planning Committee has a meeting tonight (4/17/24) and will be discussing the Long Range Facilities Plan update. The Bond team has met with all of the primary principals and meetings have been planned to meet with middle and high principals. 5.15.2024 The LRPC is still conducting Task Force meetings and has met with all, but one of the primary principals and all of the middle school principals. The team will be meeting with high school principals next. 	Pat McGough	Ongoing
6.12.2024 •		
 Social media threat made against two middle schools in the district. Staff is concerned and students feel unsafe at school. How does the district deal with these concerns? This topic will be discussed at DSLT. 2.21.2024 The DSLT is using this topic for table top exercises in Leadership meetings and PTA Focus groups in an effort to practice and how to respond to this type of situation. The District does its best to communicate factual information in a timely manner. There have been two instances of an unidentified person walking through the Tripp parking lot at West Linn High School. This was reported to Officer Johnson and the School Safety and Engagement Specialist, but no one was found. Allyson asked if there are cameras in this parking lot. The Tripp lot does not have cameras. The DSLT will discuss this topic at their next meeting. 3.20.2024 The Tripp lot concern will be on the agenda for the next DSLT meeting. During the ice storm a tree fell in the forested area of Trillium Creek Primary School. What can be done to keep this a safe educational space for learning? The tress in the forest area of Trillium Creek were accessed and are as safe as can be. Discretion is advised when allowing students to access this area during recess on windy days. The area is currently closed, but the soil will also continue to dry out. Arborists are seeing an increase in concern for trees due to environmental changes. Close attention is being brought to any changes found in trees across the district. 4.17.2024 The Tripp lot concern is one of the topics on the agenda for the next DSLT meeting. We are seeing an increase in damaged trees across the District. The weather 	Pat Mcgough Jeremy Nichols Steve Matthias	Ongoing

District Safety Committee Meeting

• The	re are issues with raised concrete around the District. This is due to trees
bec	oming too big and the tree wells being smaller than usual.
Son	ne trees may need to come out for safety reasons. The maintenance team
will	be keeping a close watch on the raised concrete around the District.
• Wh	at can be done to improve protocol for medical emergencies in buildings?
Pat	will bring this topic forward to the Student Services team.
5.15.2024	
mai	continue to keep an eye on the health of the trees around the District. The ntenance team has been working on tree limb cleanup at Oppenlander.
	security cameras be added to the Tripp lot at WLHS? There's always
	uests for extra cameras to be added to school sites, but we've got limits to
	budget for this. When adding a security camera to a site, we meet with the
	cipal and consider where the camera could serve the best value. The life
Cyc.	le of a camera is approximately seven years.
6.12.2024	
•	

NEW SAFETY COMMITTEE ISSUES/DISCUSSION:

1.

2.

NEXT MEETING: June 12, 2024 – via Zoom at 7:00AM

Minutes were prepared by Mindy Schmitz (<u>schmitzm@wlwv.k12.or.us</u>). Please submit in writing any corrections to West Linn-Wilsonville District Safety Committee prior to the next meeting date; otherwise the minutes will stand as reported.
