

## WEST LINN - WILSONVILLE SCHOOL DISTRICT

### Water Quality Information

August 19, 2016

Dear Athey Creek Families,

This letter is being sent to update you about the water quality testing results that were shared on August 4, 2016. The initial results from July testing at Athey Creek Middle School showed that out of 114 test locations, 2 indicated elevated levels of lead that exceeded the action level of 20 parts per billion. This included a lab sink in a science classroom and a sink faucet in a restroom.

Immediate remediation steps were taken include turning water off at these locations, replacing subject fixtures, and retesting. After remediation, water was retested on August 9. All fixtures tested below the action level of 20 ppb. These results have cleared all fixtures at Athey Creek Middle School for elevated levels of lead or copper.

More information about District water quality testing is available at <http://www.wlwg.k12.or.us/Page/10603> .
