

WEST LINN - WILSONVILLE SCHOOL DISTRICT

Water Quality Information

October 17, 2016

Dear District Operations Center Staff,

As you know, the West Linn-Wilsonville School District is testing the water in all schools and facilities. As each site's lab results are made available to the District, they are being shared with families and staff.

The results from October 4 water testing at the District Operations Center show that out 7 test locations, none indicated elevated levels of lead that exceed the action level of 20 parts per billion or elevated levels of copper that exceed the action level of 1,350 parts per billion.

More information about District water quality testing is available at <http://www.wlwg.k12.or.us/Page/10603> .
