ORS 294.336-406

I. Superintendent's Budget Message

Dear West Linn-Wilsonville School District Budget Committee Members, Staff, and Patrons:

In accordance with ORS 294.391, I am submitting to you the West Linn-Wilsonville School District proposed 2014-2015 budget.

Investing in a Vision

Tonight I have the pleasure of presenting my 4th budget message as Superintendent of the West Linn-Wilsonville School District. I want to take this moment to acknowledge the tremendous work that has been done over the past four years and thank everyone involved for what has been accomplished despite challenging and occasionally volatile financial times.

The development of this budget, presented to you for your consideration, has provided an opportunity for us to reflect and renew our commitment to investing in “bringing to life” our compelling vision of developing a thoughtful, inquiry-oriented, learning community where the children in West Linn-Wilsonville Schools learn to believe in themselves. We believe this budget supports strategies that are aligned to our vision, values, and Board goals as well as to Oregon’s aspirational 40-40-20 goals. Ultimately, we believe this proposal supports an investment in opportunity for each child, every child to produce the miraculous in their classrooms while finding their path to personal greatness.

I bring this message to you with pride and with optimism that we can close the gap between our ability to sustain high levels of excellence and the resources available with which to do so. We will do this despite the fact that, while economic forecasts have improved, legislators have fallen short in our interest in providing adequate and stable funding for schools. We are confident that our culture of growth mindset and belief in what we can accomplish by working together, will lead to outstanding results as we fulfill our commitment to making the best investments possible with the resources available in creating the educational opportunities our students deserve.

We would not be in this position without the leadership of our Board and the support of our school community. I want to thank our cities, our families, our teachers and principals, our partners and the staff throughout the district who have stepped up over and over again in support of our schools and our children. We are grateful and humbled by the community's generosity in their approval of the renewal of our local option and capital construction bond levies this fall. I am extremely proud of the work we have done together over the past four years with this support.

West Linn-Wilsonville: Investments in Excellence, Access, and Opportunity

We have consistently invested in and sustained support for a rich and diverse range of opportunities for students. Our strong performances are buoyed by a theory of action based on the notion that these investment strategies work together toward the achievement of our goals and vision. The interdependence of these strategies, the range of diversity they offer, and the quality with which they are implemented create an equity of access and opportunity that is the hallmark of our district. We believe we are investing in the ability to deliver on the promise that we make to every student: that regardless of who they are or where they live they will meet and exceed academic standards and will be fully prepared for college, career and participation as an active member of our community and for the world. Our key investment strategies include:

- Developing excellence in teaching through **high quality professional development**.
- **Strategic staffing** aimed at **decreasing class size** and providing effective **classroom support systems**.
- Providing **quality curriculum, curriculum development**, and supporting materials.
- Supporting **full day Kindergarten** and Pre-K Programs.
- Providing all students access to a **full school year and full academic schedules**.
- Developing expertise in providing **instructional support for students with diverse learning needs**.
- Developing and sustaining strategies that **increase time for learning**.
- Developing K-12 **measures of progress** that inform student, classroom, school, and district actions.
- Supporting K-12 **access to rigorous coursework** including AP and college level courses in high school.
- Providing **enriched and comprehensive programming** for the performing and visual arts, world and dual language, and for athletics, activities and wellness.
- Developing **STEM Programs** and experiences in research, mathematics, science, technology and engineering.
- Developing and integrating robust systems for the use of **instructional technology**.
- Responsible **stewardship of our facilities and grounds**.

Our Investment Highlights for 2015-2016 Include:

- Sustaining recent investments in staff and classroom support.
- Providing strategic professional development, curriculum development, and mentoring for all levels of school staff.
- Continued support of a full academic school year, full academic schedules for all students, and targeted support for extended learning time.
- Sustaining and extending our strategies of instructional support for students for whom we have identified opportunity gaps.

Our Investment Challenges for 2015-2016

- The ability to hire additional staff to support increasing enrollment and learning needs, particularly at the secondary level.
- The ability to maintain the level of professional development, support, and mentoring we provided in 2014-2015.
- The ability to provide additional targeted support staff for classrooms, schools, and expanding programs.
- The ability to expand time for specialists.
- The ability to increase instructional time, days, after school, and summer school programs.
- The ability to maintain contingency or reserve to deal with changing financial conditions.

A Process for Engagement

Throughout 2014-2015 we have engaged in high levels of teaching, learning, and increasing opportunity and access for students while staying within the parameters of our budget. We have been able to add staff in a way that has decreased class size and that is sustainable. This has not been easy. Our efforts were supported by increased state revenues in the 2013-15 biennium, stabilization and increase of our local option revenue, increases in enrollment, positive adjustments to the state funding formula and a positive redistribution of ESD resources. We have remained disciplined in our focus on sustaining high-leverage investment strategies and we feel it is important to continue to do so.

In developing the budget proposed for 2015-16 we began with evaluation, analysis, and monitoring of our current budget. Preparation began in December when potential investment scenarios were discussed by staff, new budget committee members were selected, and the projections for the state school fund allocation began to emerge. Initial thinking was that, given the additional funding needed for full-day kindergarten, the state funding allocation for K-12 would be between \$7.5 and \$7.8 billion dollars. \$7.5 billion was considered the allocation needed to maintain our current level of service. Shortly before spring break it became clear that legislators were interested in moving and approving a \$7.235 billion dollar K-12 budget.

Despite a high level of advocacy for at least \$7.5 billion a budget of \$7.255 was approved. Given this change, information and input gathered during the winter and shared with district staff, with school staff, parents, partners, community members, budget committee members, and with the Board had to be modified. Spring brought revised information and processing sessions with staff, Key Communicator groups, and community members in efforts to share new information, gather feedback, help review

needs, anticipate questions, and reaffirm investment strategies. Effective class size and support services, support for improving instruction, support for the implementation of new standards and assessments, maintaining enriched curriculum program offerings, providing fair wages and benefits for personnel, and maintaining the investments in our safe, efficient, and well cared for facilities and grounds emerged as priorities.

Our Achievement Advisory Committee has added to our process as well. Achievement Compacts are designed to align district learning targets and strategies to state learning outcomes for college and career readiness. The Board-appointed Achievement Compact Advisory Committee collaborates over the course of the year to review results and to develop and communicate achievement targets and strategies. This proposed budget serves to invest in strategies and work plans aimed at achieving those targets. We are a district that has always believed in preparing students to the highest levels of learning possible and we have created multiple pathways for all students to develop the knowledge, skills, and dispositions to prepare them...for the world.

Strategic Thinking for 2015-2016 and Beyond

For 2015-2016 we are submitting a balanced general fund budget proposal of \$88,897,844. We are moving into the first year of a two-year state budget cycle. Our budget is based on a state funding level equivalent to \$7.255 billion though, as mentioned, we anticipated that a \$7.5 billion level of funding would be necessary to maintain and improve on our current level of service. Staff continue to work thoughtfully and tirelessly to generate staffing and program plans for all schools that that can be accomplished with the resources available. We have also considered the future beyond 2015-2016 and how our bond, local option revenue, and evolving legislation may effect our investment decisions.

In developing a balanced budget for the 2015-2016 school year we have made the following assumptions.

Revenue Assumptions:

- State revenue will be based on a \$7.255 billion state school fund allocation.
- We will not collect tuition for full-day kindergarten.
- The 2015-2016 budget reflects less dependence on one-time funding sources than in the past.
- The state will distribute 50% of the biennial allocation in 2015-2016, but we will budget 49% in 2015-2016 and 51% in 2016-17 to account for cost of living increases.
- Revisions and refinement to State School Fund allocations have resulted in increased ADM for WLWV and revisions in per pupil allocation.
- We will receive approximately \$1,000,000 more in local option revenue next

year than in the current year.

- Local option revenue will continue to increase through the 2015-2017 biennium.
- Our student enrollment is projected to increase by approximately 50 students.
- The 2014-15 redistribution of Regional ESD funds and services will continue to enhance general fund revenue availability.
- We will invest approximately \$2.2 million of our 2014-15 ending fund balance.
- Eligible costs for deferred maintenance, safety improvements, repairs, and technology will be assumed by the 2014 bond.

Expense Assumptions:

- Wage and benefit costs will increase in each year of the biennium by an amount that is currently unknown given that the District will negotiate contracts with licensed and classified staff this spring.
- The District will assume funding for full-day kindergarten.
- Strategic investment will be necessary for teacher support, professional development, and curriculum development and materials as we continue the transition to revised standards and assessments.
- Costs will increase for utilities, materials, supplies, and purchased services.
- Reserve amounts will decrease as necessary given the future uncertainty of the state school fund and the commitment to sustaining investments in quality staffing.
- No adjustment will be made to this proposal based on the recent PERS ruling.

Staffing and Program Assumptions

- We will offer a full academic year and access to full academic schedules.
- We will support full-day kindergarten.
- We will sustain our current level of programming and provide some support for increases in student participation in enrichment and co-curricular activities.
- We will sustain 50 FTE added during the past two years and assign them strategically this spring.
- We will add an additional 13 FTE to support increased enrollment at the secondary level.
- We will plan strategically to support quality professional development, curriculum development and support, as well as for the coaching and mentoring of teachers and leaders.
- We will plan strategic support for targeted student services.
- We will increase support and partnerships for STEM programming, dual credit, and access to careers in the fields of technology and engineering.
- We will increase staff support and professional development for the integration of technology in classrooms.

Impact of \$7.5 Billion State Funding Allocation

While legislators have moved forward with a SSF of \$7.255 billion for K-12 education there has been consideration of allocating additional funds based on the May Economic Forecast. Staff has considered the budget and investment implications of additional funding. Staffing and classroom support at the secondary level, additional counseling services, primary PE and Wellness program staff, primary library/instructional coordinator staff, extended learning time, strategies to support equitable outcomes for diverse learners, additional support for STEM, additional support for professional development and curriculum development, and additional support for building maintenance and operations have been identified as key investments should further resources become available.

In Closing

As always, we are optimistic about what we can and will accomplish with the investments proposed here. We are very grateful to our state legislators for the support for schools evidenced in the current biennium and we look forward to a time of even greater investment in the children in our schools. We look forward to working with the legislature to establish adequate funding for education as a priority so our schools can take advantage of the great potential they hold for closing the opportunity gaps that still exist between what every student deserves and what they have, regardless of the district, school, or classroom they attend.

In West Linn-Wilsonville we will work together to increase our efficiency and effectiveness. We will look for opportunities to leverage our resources as we work together to achieve our goals. Our sincerest thanks goes to everyone who has participated in this budget development process whether visibly or invisibly behind the scenes. Your collaboration, your feedback, your advocacy, and your ongoing support is very much appreciated AND it lays the foundation for providing school experiences that cause children to believe in themselves and for a school community to produce the miraculous.

Respectfully submitted,

William B. Rhoades
Superintendent

2015-2016 Budget Assumptions

Revenues and Expenditures

- The budget is built on a State School Funding allocation of \$7.255 billion allocation.
- District will support full-day kindergarten programs with State School Funds.
- Budget assumes the District will invest 49% of its biennial allocation in 2105-2016 and 51% in 2016-2017 despite the state's 50-50 distribution.
- Budget assumes a \$908,000 increase in local option taxes from 14-15 actuals
- Budget assumes an increased enrollment of 50 students.
- Budget, in some cases, reflects increases that were created during the 2014-15 year, but after the budget was approved and adopted (primarily the hiring of additional staff in the fall).
- Budget reflects decreases in allocations for professional development, mentoring, and curriculum development.
- Building supplies, utilities, and purchased services are increased by varying amounts due to estimated cost increases.
- Budget assumes increases in personnel costs and the addition of 13 teachers and staff to accommodate increased enrollment estimates and to help achieve Board goals.
- Budget assumes the additional assistance of a \$300,000 transfer to the Food Service Fund to eliminate deficits from prior years.

Impact on Current Service Levels

- Supports maintenance of a full academic school year and full academic schedules for each student.
- Sustains FTE added during the 13-14 and 14-15 school years and additional staff added in 15-16 in response to increased enrollment at the secondary level.
- Sustains increased classroom and evaluation system support for students with diverse learning needs.
- Provides strategic resources for professional development, mentoring, curriculum development and professional dues and memberships to promote professional growth and learning for instructional staff.
- The budget assumes additional charter school funding and technology support.
- Supports anticipated enrollment increases at West Linn and Wilsonville High Schools.

Impact of \$7.5 Billion State Funding Allocation

While legislators have moved forward with a SSF of \$7.255 billion for K-12 education there has been consideration of allocating additional funds based on the May Economic Forecast. Staff has considered the budget and investment implications of additional funding. Staffing and classroom support at the secondary level, additional counseling services, primary PE and Wellness programs, primary library/instructional coordinator staff, extended learning time, strategies to support equitable outcomes for diverse

learners, additional support for STEM, additional support for professional development and curriculum development, and additional support for building maintenance and operations have been identified as key investments should the resources become available.

Value Added and Future Oriented Aspect of this Budget

- Supports thoughtful deployment of technology and innovative instructional applications.
- Sustains support for world and dual language programming in grades K-12.
- Supports additional Advanced Placement course enrollment and offerings.
- Reflects continued redistribution and investment of CESD resources and services to allow more direct management of evaluations and technology services plus additional flexible funding.
- Supports the availability of all day kindergarten for all children in every school.
- Supports preschool at several strategic locations.
- Support for libraries as an integral part of instruction.
- University partners advance virtual learning and dual-credit opportunities

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING FROM LAST YEAR**

Budgeted revenue and spending patterns are consistent this year with previous years. State revenues show improvement as the economy shows signs of recovery. Local option revenues are up. More spending is going for staff and for increased operating costs such as utilities and repairs. The addition of revenue from the funding of the 2014 Bond is also reflected in this years Capital Projects budget.
