## ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

## WEST LINN-WILSONVILLE SCHOOL DISTRICT NO. 3JT $\underline{\text{CLACKAMAS COUNTY, OREGON}}$

INTRODUCTORY SECTION

### WEST LINN-WILSONVILLE SCHOOL DISTRICT 3JT

ADMINISTRATION BUILDING 22210 SW Stafford Rd. – Tualatin, Oregon 97062 Phone: 503-673-7000 or Fax: 503-673-7001

Citizens & Board of Directors West Linn-Wilsonville School District 3Jt 22210 SW Stafford Rd Tualatin, OR 97062

In accordance with the provisions of Oregon Revised Statutes Sections 297.405 through 297.555, known as Municipal Audit Law, submitted herewith is the Annual Comprehensive Financial Report (ACFR) of West Linn-Wilsonville School District 3Jt, Clackamas and Washington counties, Oregon for the year ended June 30, 2021.

This report was prepared by the Business Office of West Linn-Wilsonville School District 3Jt. The responsibility for the completeness, fairness, and accuracy of the data presented and all accompanying disclosures rest with the District. To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework. The framework's design endeavors to protect the government's assets from loss, theft, or misuse and compile sufficient reliable information to prepare the District's financial statements in conformity with generally accepted accounting principles (GAAP) in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has is designed to provide reasonable rather than an absolute assurance that the financial statements will be free from material misstatement. As management, we assert that this financial report is complete and reliable in all material respects to the best of our knowledge and belief.

#### INDEPENDENT AUDIT

The District's financial statements have been audited by Pauly, Rogers & Co, a firm of licensed, certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the District's financial statements was part of a broader, federally mandated "Single Audit" designed to meet federal grantor agencies' unique needs. The standards governing Single Audit engagements require the independent auditor to report not only the fair presentation of the financial statements but also on the audited government's internal control and compliance with legal requirements, emphasizing internal controls and legal requirements involving the administration of federal awards. These reports are presented in the Single Audit Section of this report.

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### PROFILE OF THE DISTRICT

The District is a municipal corporation governed by an elected five-member board. As required by generally accepted accounting principles (GAAP), these financial statements present the financial information of the West Linn-Wilsonville School District No. 3Jt.

Under Oregon State law, the District is responsible for educating the children of the District. The District discharges this responsibility by building, operating, and maintaining school facilities; developing and maintaining approved educational programs and courses of study, including vocational programs and programs for disabled students, in accordance with State standards; and carrying out programs for transportation and feeding of pupils in accordance with District, State, and Federal requirements.

The District is located seven miles south of the City of Portland, Oregon. Within the District's 42 square miles are the cities of West Linn and Wilsonville and several unincorporated towns and areas of Clackamas and Washington Counties. The District was initially formed in 1933 through the consolidation of three smaller districts. The District and surrounding communities have experienced steady growth over the past three decades. The estimated population of the District has grown from 16,876 in 1980 to 53,838 in 2021. The tax assessed property value located in the District has grown from just under \$285 million to over \$9.9 billion in the same period.

Interstate Highway 5, which runs through southwestern Clackamas County, has proven to be a significant economic stimulus. The area between Wilsonville and Lake Oswego has seen dramatically increased commercial and retail activity.

To the south, in the Wilsonville area, the proximity of I-5 has encouraged warehousing and distribution activities, which require space for expansion and easy transportation connections. Retail stores have become more prominent in the area, as well as vital housing developments. Easy access to the freeway system has benefited those areas along Interstate Highway 205, which bisects the County and the District. This bypass link of I-5 runs between Wilsonville in the south and Clark County, Washington in the north. I-205 also connects Clackamas County to Portland International

Airport. Interstate segments were completed through Clackamas County during the mid-1970s. At that time, significant retail and commercial developments occurred in the areas bordering the freeway. Significant smaller infill growth lends a positive impact as well.

#### ECONOMIC CONDITION AND OUTLOOK

In November 1996, the voters of the State of Oregon voted by referendum a property tax limitation measure known as "Measure 47." This measure, as amended by Measure 50 along with Measure 5, which was approved in November 1990, provides two property tax limitations in the Oregon Constitution. Measure 5 limits the property tax rate to \$5 per \$1,000 in real market value for schools; Measure 50 is a limitation based on the assessed value of each parcel of property. Measure 50 was initiated in 1997 by "cutting" the tax on each property to the lesser of the 1996 total property tax reduced by 10% or the 1995 total property tax for schools. Measure 50 also "caps" total operating taxes on each property to a 3% annual increase. Neither of these constitutional measures limits taxes for capital construction bonds.

Legislation passed, after Measure 50, allowing school districts to refer to voters a "local option" tax. This tax can be levied for up to five years for operation purposes. The tax cannot collect more than the \$5.00 per-thousands of real market value allowed under Measure 5 from any property within the school district. This local option tax was initially approved in 2000 and most recently renewed in 2019. The local option levy has funded classroom teachers. In the 2020-21 fiscal year, the local option levy funded approximately 80 teachers in the District.

In response to the rate limitation of Measure 5, the state legislature employs a funding formula that equalizes the annual revenues to each school district in the State based on a per-pupil allocation. Excluding local option taxes, individual school districts are only indirectly dependent upon local property taxes for operating purposes, as the State Formula allocates funds overall.

Clackamas County's unemployment rate is under the national average, with the most recent rate of 3.5 percent published in February of 2022. Oregon's current personal income-tax-reliant revenue base continues to have the stability and adequacy shortcomings it has experienced over many years. There is concern that the taxation base is not broad enough to raise the revenues needed for public education and other needed services that the State provides. The voters did not approve recent ballot measures that attempted to fix this situation. However, as the local economy responds to recovery and growth, improvements continue to be seen in funding for education needs.

#### SCHOOL BOARD GOALS

The School Board, for the 2020-21 school year, approved the following goals:

1. Grow student achievement through the use of high leverage instructional and engagement strategies to raise rigor, disrupt systems of racism and generate equitable outcomes for all students while eliminating opportunity and achievement gaps.

- 2. Effectively use systems of professional growth, assessment for learning, social-emotional learning, equitable and inclusive practices to build competence, confidence and self-efficacy for every student.
- 3. Operate in an accessible and transparent manner to encourage and generate community involvement as our parents, students and community partners are an integral and valued voice in our District.
- 4. Be responsive to community growth and student learning needs of the future by conducting long-range capital improvements and financial planning through processes and practices for long-term financial stability and sustainability.

#### **MAJOR PROGRAMS**

The vision and mission of the West Linn-Wilsonville School District is to constantly ask ourselves how we can build and sustain professional learning communities focused on improving conditions for teaching and learning in ways that foster the development and nurturance of each student's potential for life-long intellectual and cultural growth and that readies them for college and career success. The District measures its success by the level of student achievement, participation in extra and co-curricular activities, graduation rates, post-secondary success, and community support.

The vision that evolved from these meetings is embedded in the question: How do we create learning communities for the greatest thinkers and most thoughtful people...for the world? The six vision themes that emerged presented the community and schools with an inviting picture of possibility and launched the District on a challenging and rewarding journey. These themes create a framework within which to work as the District responds to a changing economic and academic landscape. These vision themes of Academic Excellence, Personalized Education, Community Partnerships, Educating the Whole Child, and Integrating Technologies in Daily Learning guide the work of school board members, teachers, site councils, administrators, children, school support staff and, to an increasing degree, community members in ways that are both global and specific.

The development of systems to support high-quality professional learning and in-service continue to be an emphasis in the District. We are committed to supporting all staff in improving skills and training to enhance our effectiveness in delivering powerful instruction and related support services to students and parents. Student enrollment projections show anticipated increases of more than 1,000 students in the next ten years. The general obligation bond passed by voters in November 2019 is expected to assist with new schools and learning space to balance current and future enrollment and provide students and staff with safe and efficient learning environments. The 2019 bond provides the district with \$206.8 million dollars for capital improvements projects in West Linn-Wilsonville schools including: 1) prioritize safety & security for all district schools (\$15.25M), 2) relieve crowded classrooms & plan for growth (\$127M), 3) expand opportunities for hands-on learning, CTE & Arts (\$25M), 4) Renovate & Repair Aging Schools (\$13.25M), and 5) Upgrade & Update Technology (\$18M).

Although operating costs continue to rise, with healthy economic recovery continuing in Oregon, our District is benefiting from state funding relative stability compared to recent years.

#### BUDGET PROCESS

The District's budget process starts with input and discussions between the school's principals and department heads and the business office. The Superintendent holds meetings with these leaders and community decision-makers to keep them informed of how the State's funding is shaping up as the budget comes together. The Budget Committee meets and weighs in on the proposals, also. Finally, the budget is pulled together and sent to the Board for final approval and adoption.

#### **AWARDS**

The West Linn-Wilsonville School District takes pride in promoting excellence in every aspect of education. It continues to hold the position as being one of the top rated school districts in the state for achieving high levels of student achievement in a wide range of program offerings. The District continues to achieve the highest graduation rate in the State for larger comparable districts.

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Linn-Wilsonville School District for its annual comprehensive financial report for the fiscal year ended June 30, 2020. This was the 26th consecutive year that the district has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

#### **ACKNOWLEDGEMENTS**

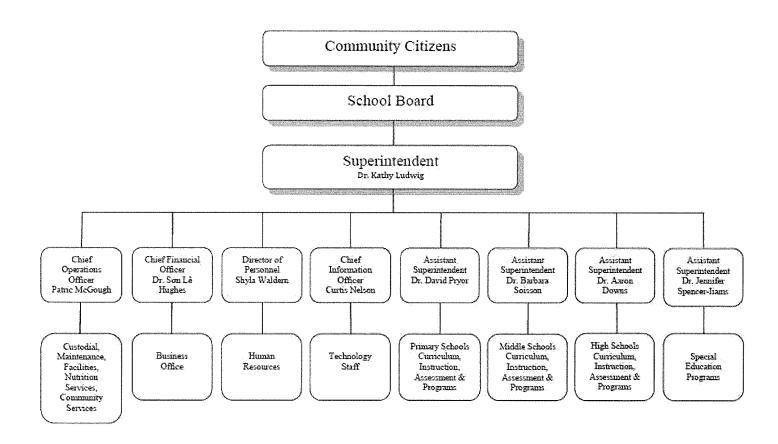

I wish to express my appreciation to the entire staff in the Business Office for their efforts and contributions to this annual financial report. I would also like to thank the Board of Directors for their continued support and dedication to the District's effective financial operation.

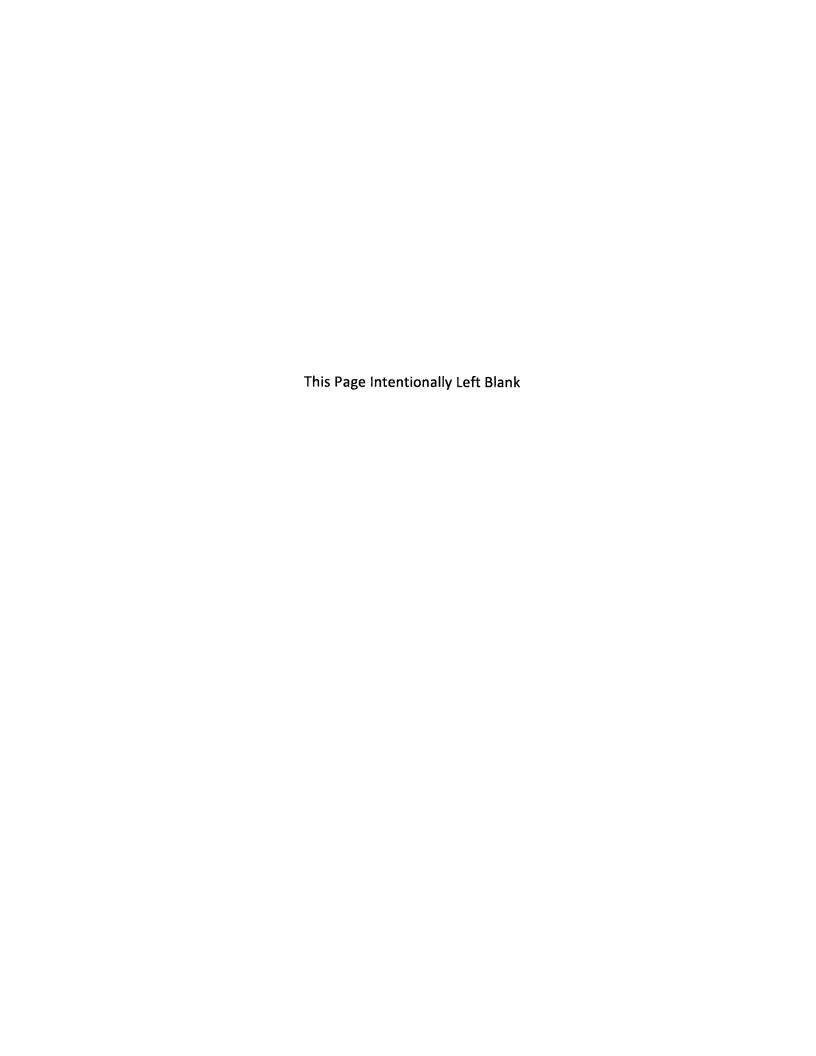

Respectfully submitted,

Son Lê Hughes, Ph.D. | Chief Financial Officer

Board of Directors West Linn – Wilsonville School District Clackamas County, Oregon

#### INDEPENDENT AUDITORS' REPORT

#### Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, each major fund and fiduciary fund of West Linn - Wilsonville School District (the District), as of and for the year ended June 30, 2021, and the related notes to the basic financial statements, which collectively comprise the basic financial statements as listed in the table of contents. The financial statements as of the year ended June 30, 3030 were audited by other accountants whose report dated December 21, 2020 did not disclose any material modifications.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the basic financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and fiduciary fund of West Linn - Wilsonville School District, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of changes in total OPEB liability and related ratios and employer contributions for health insurance, or stipends, or the schedules of net OPEB asset/liability and contributions for RHIA, or the schedules of net pension liability and contributions for PERS, or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

The introductory section, statistical section, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Reports on Other Legal and Regulatory Requirements

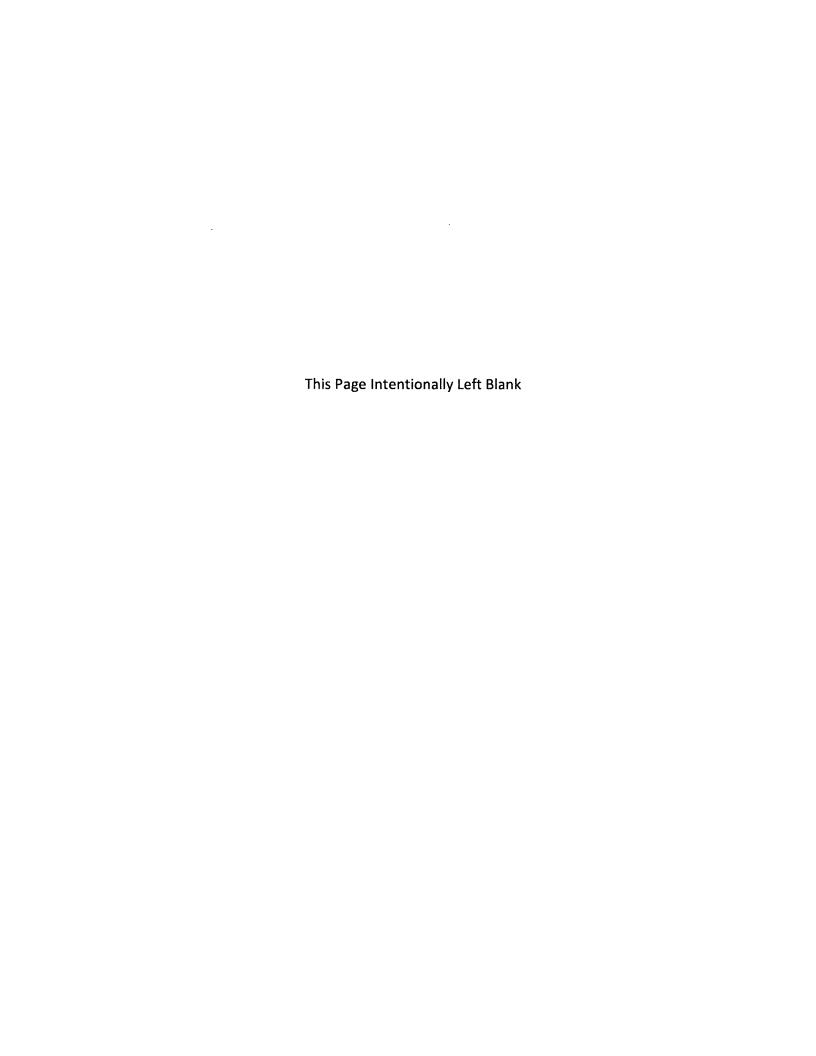

In accordance with *Government Auditing Standards*, we have also issued our reports dated June 9, 2022 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated June 9, 2022, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

#### INTRODUCTION

The following Management's Discussion and Analysis (MD&A) provides an overview of the financial position and activities of the West Linn-Wilsonville School District 3J for the fiscal year ended June 30, 2021.

#### **FINANCIAL HIGHLIGHTS**

- The liabilities and deferred inflows of resources exceed the assets and deferred outflows of resources of WLWV School District by \$28,491,823 at June 30, 2021.
- At June 30, 2021, the General Fund had an unassigned fund balance of \$23,989,819. This due to the one time support that the district received from the Oregon Department of Education (ODE) through the Elementary and Secondary School Emergency Relief (ESSER) Fund in the fiscal year 2020-21, and the strong support from the community through the property taxes and the local option taxes levy.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The MD&A is intended to foster a greater understanding of the West Linn –Wilsonville School District's financial activities. Since this presentation includes summarized formats, it should be read in conjunction with the financial statements, which have the following three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

#### **Government-Wide Financial Statements**

The Government-Wide Financial Statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. These statement include:

- The statement of net position: The statement of net position presents information on all of the assets and liabilities of the District at year end. Net position is what remains after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.
- The statement of activities: The statement of activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

• Governmental activities: Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes and general obligation bonds, Oregon's State School Fund and other intergovernmental revenues.

**Fund financial statements.** The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Linn-Wilsonville School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds**. The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide

financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government wide Statements of Net Position and Activities.

The District maintains 4 individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Debt Service, and Capital Projects Funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided as Supplemental Information.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as the government-wide financial statements, only in more detail.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Statement of Net Position**: The term "Net Position" refers to the difference between (a) combined assets and deferred outflows of resources and (b) combined liabilities and deferred inflows of resources, and is an indicator of the West Linn –Wilsonville School District's current financial condition. Changes in net position that occur over time indicate improvement or decline in this condition. Total Assets and deferred outflows increased by \$178,960, and total liabilities and deferred inflows increased \$19,336,486 during fiscal year 2021 compared to fiscal year 2020. The following summarizes the West Linn –Wilsonville School District' assets and deferred outflows of resources, liabilities and deferred inflows of resources, and net position:

#### **Condensed Statement of Net Position**

|                                      | June 30, 2021  | June 30, 2020  | Increase (Decrease) |
|--------------------------------------|----------------|----------------|---------------------|
| Total Assets & Deferred Outflows     | \$ 534,751,659 | \$ 522,899,753 | 11,851,906          |
| Total Liabilities & Deferred Inflows | 563,243,482    | 538,401,061    | 24,842,421          |
| Total Net Position                   | (28,491,823)   | (15,501,308)   | (12,990,515)        |

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities exceeded assets by \$28.4 million at June 30, 2021.

Capital assets, which consist of the District's land, buildings, building improvements, vehicles, and equipment, represent about 57 percent of total assets. The remaining assets consist mainly of investments and cash, bond proceeds, grants, and property taxes receivable.

The District's largest liability is for the repayment of general obligation bonds. Current liabilities, representing about 4 percent of the District's total liabilities, consist almost entirely of payables on accounts, payroll withholdings, construction retainage payable, accrued interest payable and the current portion of long-term debt.

**Deferred inflows and outflows of resources**. Deferred outflows of resources increased by \$18.5 million and deferred inflows of resources decrease by \$1.8 million when compare to prior year.

The revenues and expenses shown below explain changes in net position for the fiscal years ended June 30, 2021 and 2020.

| Change in Net Position for the Year Ended – Governmental Activities |                 |         |  |
|---|-----------------|---------|--|
| Change in Net Position  |                 |         |  |
| Revenue   | June 30, 2021   |         |  |
| Local Sources   | 86,262,008      | 50.80%  |  |
| Intermediate Sources  | 2,982,739       | 1.76%   |  |
| State Sources   | 70,612,739      | 41.58%  |  |
| Federal Sources   | 9,955,326       | 5.86%   |  |
| Total Revenue   | 169,878,459     | 100.00% |  |
|   |                 |         |  |
| Instruction   | 80,370,759      | 45.32%  |  |
| Support services  | 39,049,346      | 22.02%  |  |
| Community services  | 1,997,710       | 1.13%   |  |
| Facilities services   | 25,345,928      | 14.29%  |  |
| Debt Service  | 30,583,467      | 17.24%  |  |
| Total Expenses  | 177,347,210     | 100.00% |  |
|   |                 |         |  |
| Change in net position  | (13,550,028)    |         |  |
| Net position-Beginning  | (15,501,308)    |         |  |
| Prior Period Adjustment   | 559,513         |         |  |
| Net position –Ending June 30, 2021                                  | \$ (28,491,823) |         |  |

#### **GOVERNMENTAL ACTIVITIES**

A comparative analysis discussing and analyzing significant differences from the prior year to the current year is provided on the following page. During fiscal 2020-21, the District's net position decreased by \$12.9 million. This year showed an increase in funding from local property taxes increased by \$5.3 million and local option taxes increased by \$230,447 over what was received during the 2019-20 year. Expenses for the year decreased in the area of instruction, support and facilities (expenditure shifted to one-time support from the ESSER and other grants).

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resource's available for spending at the end of a fiscal year.

At June 30, 2021 the District's governmental funds reported combined ending fund balances of \$173.3 million, a decrease of \$7.5 million when compared with 2019-20. This decrease is primary due to increase in facilities acquisition.

General Fund: The General Fund is the main operating fund of the District. As of June 30, 2021, unassigned fund balance was \$23.9 million. This due to the one time support that the district received from the Oregon Department of Education (ODE) through the Elementary and Secondary School Emergency Relief (ESSER) Fund in the fiscal year 2020-21, the strong support from the community through the property taxes and the local option taxes levy.

The Year to Date Expenditures is less compared to the budget. This is due to the support that the district received from the ESSER Funds. In April 2021, the Oregon Department of Education (ODE) released the Elementary and Secondary School Emergency Relief (ESSER) Fund to address the ongoing impact of the COVID-19 pandemic. The WLWV School District received three (3) rounds of ESSER Funds in the total amount of \$6.2M and this support has helped reduce our operating cost in the General Fund.

<u>Special Revenue Fund</u>: The Special Revenue Fund has a total fund balance of \$6.7 million. This fund accounts for revenues and expenditures for grants that are restricted for specific educational projects. Principal revenue sources are federal, state, and intermediate grants, and a reclassification from Study Body Agency Fund to Special Revenue Fund.

<u>Debt Service Fund</u>: The Debt Service Fund has a total fund balance of \$5.3 million, all of which is restricted for the payment of debt service.

<u>Capital Projects Fund:</u> The Capital Projects Fund has a total fund balance of \$137.3 million, all of which is restricted for the payment of facilities acquisition and construction.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

Resources supporting District General Fund operations primarily reflect local and state revenues, with additional income representing federal, county and other sources. Under Oregon's current funding method, the largest segment of revenue funding continues to be determined by the State School Fund formula. Utilizing this method, the majority of funding provided by the State to the District is based on the District's average daily membership of students —a system of counting student attendance for the year.

Economic stability and growth continue to shore up the overall economy in Oregon and the Nation as reflected in the progress the District is making in achieving a much more predictable and stable funding environment. This is allowing the District's continued commitment to investing its resources directly into the classroom by supporting full-day kindergarten, pre-school expanding to more building locations, emphasis on a rigorous program of staff training, and by promoting quality of educational excellence whenever and wherever possible. Additionally, financial stability has improved as the District has added to its ending fund balance reserve. The results of these and other efforts are evident in the high level of successful graduation rates in the district.

The District is moving forward with planning for continued community growth, and has completed all of its major current construction projects and most of its smaller projects. The District continues to focus on making additional improvements for safety, adding facilities upgrades where needed. Planning continues as the District positions its strategy to meet the growing needs of the communities of West Linn and Wilsonville going into the school year 2022-23.

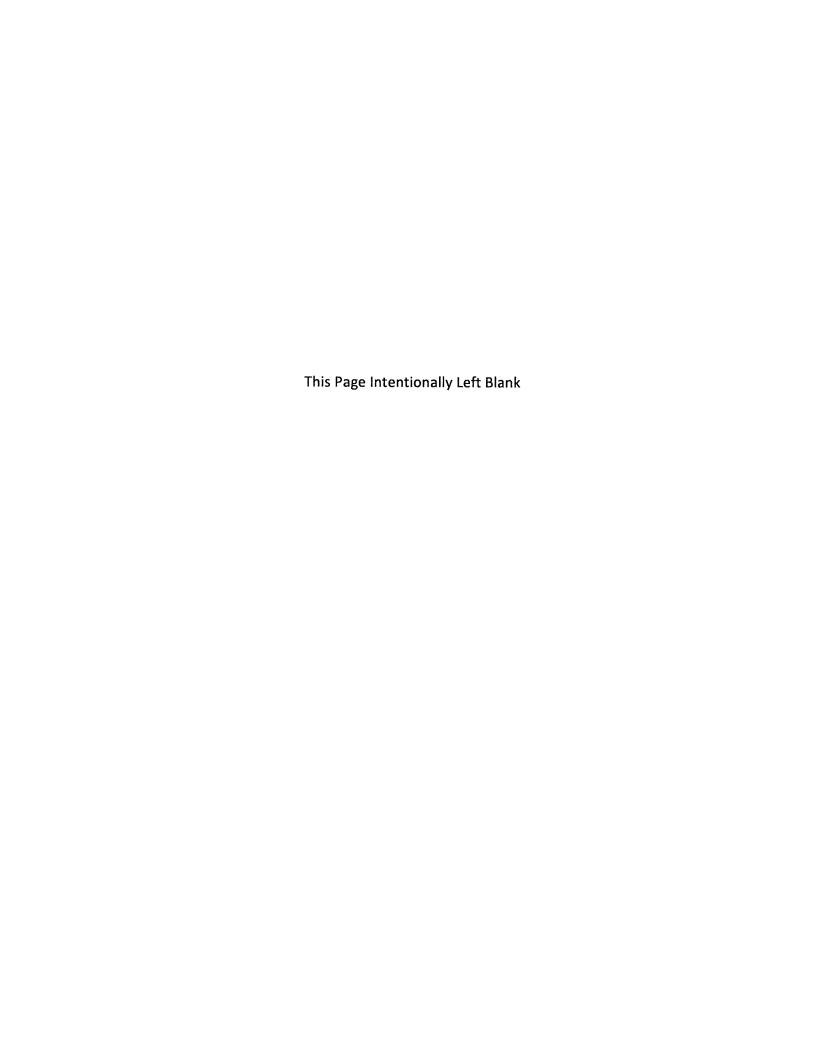

2021-2022 District Goals - the Board have established District Goals to focus on:

- 1. Grow student achievement through the use of high leverage instructional and engagement strategies to raise rigor, disrupt systems of racism and generate equitable outcomes for all students while eliminating opportunity and achievement gaps.
- 2. Effectively use systems of professional growth, assessment for learning, social-emotional learning, equitable and inclusive practices to build competence, confidence and self-efficacy for every student.
- 3. Operate in an accessible and transparent manner to encourage and generate community involvement as our parents, students and community partners are an integral and valued voice in our District.
- 4. Be responsive to community growth and student learning needs of the future by conducting long-range capital improvements and financial planning through processes and practices for long-term financial stability and sustainability.

The District's Budget Committee and School Board will consider all of these factors when preparing the District Budget for the 2021-22 fiscal year.

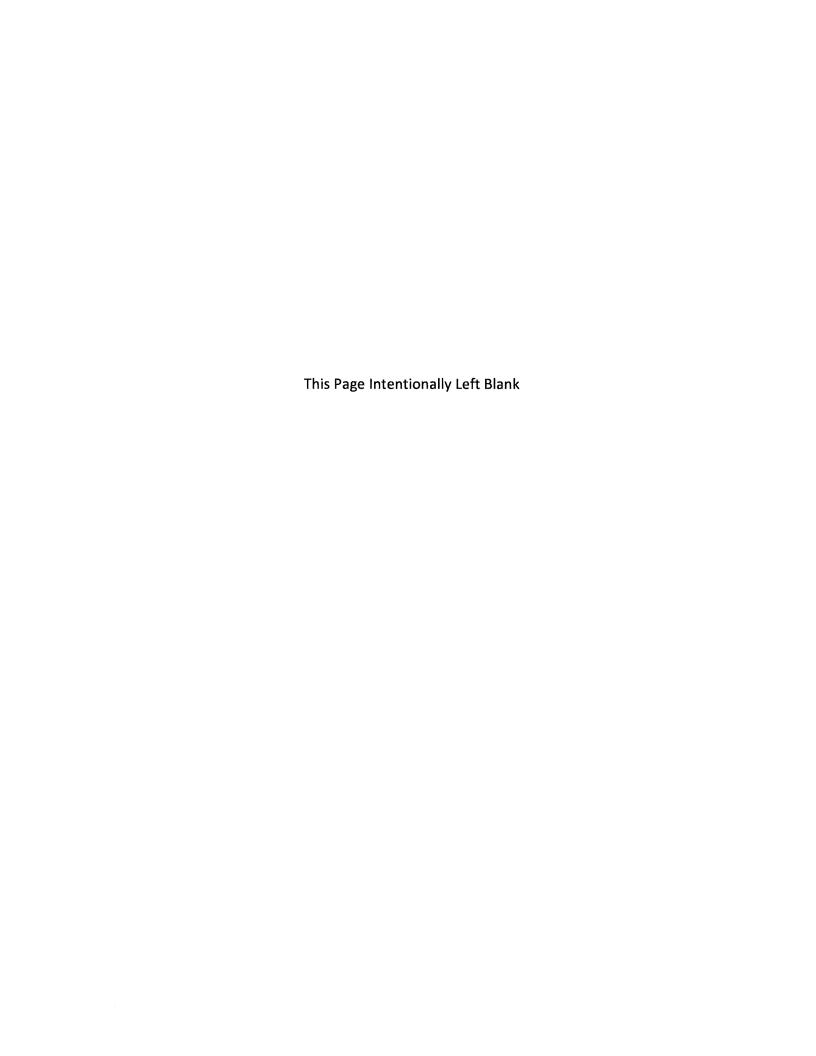

#### **REQUESTS FOR INFORMATION**

Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Chief Finance Officer at 22210 SW Stafford Road, Tualatin, Oregon 97062. An electronic copy of this and other prior year Annual Comprehensive Financial Reports (ACFR) are available on the district's website at: https://www.wlwv.k12.or.us

NOTES TO THE BASIC FINANCIAL STATEMENTS

#### NOTES TO BASIC FINANCIAL STATEMENTS

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. REPORTING ENTITY

West Linn - Wilsonville School District (the District) is a municipal corporation governed by an elected Board of Directors. Administration officials are approved by the Board. Daily functions are under the supervision of the Superintendent-Clerk. As required by accounting principles generally accepted in the United States of America, all activities have been included in these basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts, which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, in conformity with GASB 61, none of them are considered component units or included in these basic financial statements.

### B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

## **GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)**

The Statement of Net Position and Statement of Activities display information about the District as a whole. The Statement of Net Position, the Statement of Activities and Fiduciary Fund were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program Revenues included in the Statement of Activities derive directly from the program itself or from parties outside taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

### **FUND FINANCIAL STATEMENTS**

Accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

## NOTES TO BASIC FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **GOVERNMENTAL FUND TYPES**

Governmental funds are used to account for general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recorded when the liability is incurred, except for non-matured interest on general long-term debt which is recognized when due, interfund transactions and certain compensated absences, pension costs, OPEB cost, and claims and judgments which are not recognized as expenditures because they will be liquidated with future expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The following major governmental funds are reported:

### **GENERAL FUND**

This fund accounts for the financial operations not accounted for in any other fund. Principal sources of revenue are property taxes and distributions from the State of Oregon. Expenditures in the fund are made for instructional purposes and related support services.

### SPECIAL REVENUE FUND

This fund accounts for the revenue and expenditures restricted for specific educational projects or programs. Principal revenues sources are federal grants and other local sources.

### **DEBT SERVICE FUND**

Bond principal and interest payments are accounted for in the Debt Service Fund. The main source of revenue is local property taxes.

## **CAPITAL PROJECTS FUND**

This fund accounts for activities related to the acquisition, construction, equipping and furnishing of new schools and other facilities. Principal revenue sources are proceeds from general obligation bond issues and related interest earned on proceeds not yet expended.

Additionally, the District reports the following fund type:

## FIDUCIARY FUND

The private-purpose trust scholarship fund is used to account for scholarship resources held by the District in a fiduciary capacity. Disbursements from this fund are made in accordance with the trust and donor agreements.

### NOTES TO BASIC FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **USE OF ESTIMATES**

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

### CASH AND CASH EQUIVALENTS

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

### **PROPERTY TAXES**

Uncollected real and personal property taxes are reflected on the statement of net position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

#### **GRANTS**

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability in the balance sheet and statement of net position.

## **SUPPLY INVENTORIES**

School operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Special Revenue Fund are included in the inventories at USDA wholesale value. Inventory is accounted for based on the consumption method in the government wide financial statements and on the purchase method in the fund statements, and therefore expensed. Under the consumption method inventory is recorded when purchased and expenditures/expenses are recorded when inventory items are used. Donated commodities consumed during the year are reported as revenues and expenditures.

### **CAPITAL ASSETS**

Capital assets, which include land, buildings, equipment and construction in progress, are reported in the government wide financial statements. Capital assets are defined as assets with an initial, individual cost of

#### NOTES TO BASIC FINANCIAL STATEMENTS

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

more than \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost.

Donated Capital assets are recorded at their estimated fair market value on the date donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements 10 to 50 years Equipment 5 to 20 years

## **COMPENSATED ABSENCES**

It is policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service. All vacation pay is accrued in the government wide financial statements.

### LONG-TERM OBLIGATIONS

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **NET POSITION**

Net position comprises the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position are classified in the following three categories:

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned

## NOTES TO BASIC FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## **DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At June 30, 2021, there were deferred outflows representing PERS pension, OPEB-RHIA, OPEB-Health Insurance, and OPEB-Stipend related deferrals reported in the Statement of Net Position.

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet for property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. At June 30, 2021 there were also deferred inflows reported in the Statement of Net Position representing PERS pension, OPEB-RHIA, OPEB-Health Insurance, and OPEB-Stipend related deferrals.

## **FUND BALANCE**

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions, is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories.
- Restricted represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- <u>Assigned</u> represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body.
- <u>Unassigned</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

### NOTES TO BASIC FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

There are no committed or assigned fund balances at June 30, 2021.

## **RETIREMENT PLANS**

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District provides a single-employer retiree benefit plan that provides access to postemployment health, dental, and vision benefits to eligible employees and their spouses. Benefits and eligibility for members are established through various collective bargaining agreements, and in accordance with ORS 243.303.

## FAIR VALUE INPUTS AND METHODOLOGIES AND HIERARCHY

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

<u>Level 1</u> – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

<u>Level 2</u> – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market–corroborated inputs)

<u>Level 3</u> – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

## **BUDGETARY INFORMATION**

A budget is prepared and legally adopted for each fund in accordance with Oregon Local Budget Law. The budget is prepared using the modified accrual basis of accounting.

The budgeting process begins by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original and final budget amounts. Appropriations lapse at the end of each fiscal year. Expenditures of the various funds were within authorized appropriations.

### 3. BUDGET/GAAP REPORTING DIFFERENCES

The budgetary basis of accounting differs from generally accepted accounting principles. The budgetary statements provided as part of supplementary information elsewhere in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America with the exceptions that capital outlay expenditures are expensed when purchased and depreciation and amortization are not calculated, inventories of supplies are budgeted as expenditures when purchased, tax revenue is shown as receipts when collected instead of when levied, pension and OPEB costs are not recorded as expenses until paid, and debt issuance costs, post-employment obligations and compensated absences are expensed as paid instead of when incurred.

#### 4. CASH AND INVESTMENTS

Cash management policies are governed by state statutes. Statutes authorize the investment in bankers acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and Local Government Investment Pools.

## NOTES TO BASIC FINANCIAL STATEMENTS

## 4. CASH AND INVESTMENTS (CONTINUED)

The District maintains a pool of cash and investments that are available for use by all funds. Each fund's portion of this pool is displayed on the financial statements as cash and investments. Interest earned on pooled cash and investments is allocated to participating funds based upon their combined cash and investment balances. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized.

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The audited financial reports of the Oregon Short Term Fund can be found here:

http://www.oregon.gov/treasury/Divisions/Investment/Pages/Oregon-Short-Term-Fund-(OSTF).aspx

If the link has expired please contact the Oregon Short Term Fund directly.

Cash and Investments at June 30, 2021 (recorded at fair value) consisted of:

| Deposits with Financial In<br>Demand Deposits<br>Investments |                | Reported as: Governmental Activities | \$ 182,900,689 |  |  |  |
|--|----------------|--------------------------------------|----------------|--|--|--|
| nivestments  | 165,814,162    | Fiduciary Funds                      | 264,017        |  |  |  |
|  | \$ 183,164,706 |                                      | \$ 183,164,706 |  |  |  |

## NOTES TO BASIC FINANCIAL STATEMENTS

## 4. CASH AND INVESTMENTS (CONTINUED)

At year-end, the investment balances were as follows:

|                                  |               | Investment Maturities (in months) |               |       |  |  |  |  |  |
|----------------------------------|---------------|-----------------------------------|---------------|-------|--|--|--|--|--|
| Investment Type                  | Fair Value    | Less than 3                       | 3-18          | 18-59 |  |  |  |  |  |
| US Government Securities         | 100,625,054   | \$30,031,650                      | \$ 70,593,404 | \$ -  |  |  |  |  |  |
| Corporate Securities             | 5,120,200     | •                                 | 5,120,200     | · _   |  |  |  |  |  |
| Municipal Securities             | 9,078,810     | •                                 | 9,078,810     | _     |  |  |  |  |  |
| Commercial Paper                 | 9,991,121     | _                                 | 9,991,121     | _     |  |  |  |  |  |
| Local Government Investment Pool | 40,998,977    | 40,998,977                        | -             | -     |  |  |  |  |  |
| Total                            | \$165,814,162 | \$71,030,627                      | \$ 94,783,535 | \$ -  |  |  |  |  |  |

### **DEPOSITS**

Deposits with financial institutions are comprised of bank demand deposits and certificates of deposit. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The total bank balance per the bank statements as of June 30, 2021 was \$17,375,434, \$297,324 of which was covered by federal depository insurance and the remainder was collateralized by the Oregon Public Funds Collateralization Program (PFCP).

### CREDIT RISK – DEPOSITS

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2021, none of the bank balances were exposed to custodial credit risk.

## Interest Rate Risk - Investments

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

### Credit Risk - Investments

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The state investment pool is not rated.

## Concentration of Credit Risk

At June 30, 2021, 25% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

### 5. ACCOUNTS / GRANTS RECEIVABLE

Special revenue fund grants receivable are comprised of claims for reimbursement of costs under various federal and state grant programs. Property taxes are levied and become a lien on all taxable property as of July 1. Taxes unpaid and outstanding on May 16 are considered delinquent. No allowance for uncollectible accounts has been recorded because all receivables are considered to be collectible.

## NOTES TO BASIC FINANCIAL STATEMENTS

## 6. CAPITAL ASSETS

The changes in capital assets for the fiscal year ended June 30, 2021 are as follows:

|  |    | Governmental<br>Capital Assets |               |                 |            | Governmental<br>Capital Assets |

#### NOTES TO BASIC FINANCIAL STATEMENTS

### 7. DEFINED BENEFIT PENSION PLAN

<u>Plan Description</u> – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238)**. The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
  - i. Pension Benefits. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.
    - A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.
  - ii. **Death Benefits**. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
    - member was employed by PERS employer at the time of death,
    - member died within 120 days after termination of PERS covered employment,
    - member died as a result of injury sustained while employed in a PERS-covered job, or
    - member was on an official leave of absence from a PERS-covered job at the time of death.
  - iii. **Disability Benefits**. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
  - iv. Benefit Changes After Retirement. Members may choose to continue participation in their variable account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

### NOTES TO BASIC FINANCIAL STATEMENTS

## 7. DEFINED BENEFIT PENSION PLAN – (CONTINUED)

- b. **OPSRP Pension Program (OPSRP DB)**. The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
  - i. **Pension Benefits**. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

- ii. **Death Benefits**. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.
- iii. **Disability Benefits**. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Contributions – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Effective January 1, 2020, Senate Bill 1049 requires employees to pay contributions on re-employed PERS retirees' salaries as if they were an active member, excluding IAP (6%) contributions. Employer contributions for the year ended June 30, 2021 were \$16,791,474, excluding amounts to fund employer specific liabilities. In addition, approximately \$3,657,358 in employee contributions were paid or picked up by the District in 2020-2021.

<u>Pension Asset or Liability</u> – At June 30, 2021, the District reported a net pension liability of \$128,825,143 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement date of June 30, 2020 and 2019, the District's proportion was .590 percent and .552 percent, respectively. Pension expense for the year ended June 30, 2021 was \$13,972,487.

## NOTES TO BASIC FINANCIAL STATEMENTS

### 7. DEFINED BENEFIT PENSION PLAN – (CONTINUED)

The rates in effect for the year ended June 30, 2021 were:

- (1) Tier 1/Tier 2 6.11%
- (2) PERS UAL 16.00%

|   |    | Deferred     | Deferred         |
|---|----|--------------|------------------|
|   |    | Outflow      | Inflow           |
|   |    | of Resources | <br>of Resources |
| Difference between expected and actual experience                                       | \$ | 5,669,865    | \$<br>-          |
| Changes in assumptions  |    | 6,913,638    | 242,240          |
| Net difference between projected and actual   |    |              |                  |
| earnings on pension plan investments  |    | 15,148,163   | -                |
| Net changes in proportionate share  |    | 7,332,332    | 499,775          |
| Differences between District contributions  |    |              |                  |
| and proportionate share of contributions  |    |              | <br>3,337,849    |
| Subtotal - Amortized Deferrals (below) District contributions subsequent to measurement |    | 35,063,998   | 4,079,864        |
| date  | -  | 16,791,474   | <br>-            |
| Net deferred outflow (inflow) of resources  | \$ | 51,855,472   | \$<br>4,079,864  |

The amount of contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2022.

Subtotal amounts related to pension as deferred outflows of resources, \$35,063,998, and deferred inflows of resources, (\$4,079,864), net to \$30,984,134 and will be recognized in pension expense as follows:

| Year ending June 30, | Amount        |  |  |
|----------------------|---------------|--|--|
| 2022                 | 7,118,229     |  |  |
| 2023                 | 9,323,074     |  |  |
| 2024                 | 8,256,875     |  |  |
| 2025                 | 5,967,488     |  |  |
| 2026                 | 318,468       |  |  |
| Thereafter           | _             |  |  |
| Total                | \$ 30,984,134 |  |  |

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS systemwide GASB 68 reporting summary dated March 12, 2021. Oregon PERS produces an independently audited CAFR which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf

### NOTES TO BASIC FINANCIAL STATEMENTS

### 7. DEFINED BENEFIT PENSION PLAN – (CONTINUED)

<u>Actuarial Valuations</u> – The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

## **Actuarial Methods and Assumptions:**

| Valuation date            | December 31, 2018   |
|---------------------------|---|
| Experience Study Report   | 2018, Published July 24, 2019   |
| Actuarial cost method     | Entry Age Normal  |
| Amortization method       | Level percentage of payroll   |
| Asset valuation method    | Market value of assets  |
| Inflation rate            | 2.50 percent  |
| Investment rate of return | 7.20 percent  |
| Discount rate             | 7.20 percent  |
| Projected salary increase | 3.50 percent  |
| Cost of Living Adjustment | Blend of 2% COLA and graded COLA (1.25%/0.15%) in accordance with <i>Moro</i> decision, blend based on service  |
|                           | Healthy retirees and beneficiaries:   |
| Mortality                 | Pub-2010 Healthy Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Active members: Pub-2010 Employee, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. Disabled retirees: Pub-2010 Disabled Retiree, sex distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation. |

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Source: June 30, 2020 PERS CAFR; p. 102)

## **Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

|                       | Targe     | Compound    |

### NOTES TO BASIC FINANCIAL STATEMENTS

### 7. DEFINED BENEFIT PENSION PLAN – (CONTINUED)

Discount Rate – The discount rate used to measure the total pension liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 percent for both years for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – the following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (6.20 percent) or one percent higher (8.20 percent) than

|                                   | 1%             | Discount       | 1%            |
|-----------------------------------|----------------|----------------|---------------|
|                                   | Decrease       | Rate           | Increase      |
|                                   | 6.20%          | 7.20%          | 8.20%         |
| District's proportionate share of |                |                |               |
| the net pension liability (asset) | \$ 191,294,698 | \$ 128,825,143 | \$ 76,441,526 |
| the current rate.                 |                |                |               |

### Changes Subsequent to the Measurement Date

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available. There are no changes subsequent to the June 30, 2021 Measurement Date that meet this requirement.

### OPSRP Individual Account Program (OPSRP IAP)

#### Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

### NOTES TO BASIC FINANCIAL STATEMENTS

### 7. DEFINED BENEFIT PENSION PLAN – (CONTINUED)

## Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

## Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

#### Contributions:

Employees of the District pay six (6) percent of their covered payroll. Effective July 1, 2020, currently employed Tier 1/Tier 2 and OPSERP members earning \$2,500 or more per month will have a portion of their 6 percent monthly IAP contributions redirected to an Employee Pension Stability Account. The Employee Pension Stability Account will be used to pay part of the member's future benefit. Of the 6 percent monthly IAP contribution, Tier 1/Tier 2 will have 2.5 percent redirected to the Employee Pension Stability Account and OPSERP will have 0.75 percent redirected to the Employee Pension Stability Account, with the remaining going to the member's existing IAP account. Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full 6 percent contribution to the IAP. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2021.

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO Box 23700 Tigard, OR 97281-3700.

http://www.oregon.gov/pers/EMP/Pages/GASB.aspx

## 8. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA)

#### **Plan Description:**

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

### NOTES TO BASIC FINANCIAL STATEMENTS

### 8. OTHER POST-EMPLOYMENT BENEFIT PLAN – RHIA (CONTINUED)

## **Funding Policy:**

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.06% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2021. Consistent with GASB Statement 75, the OPERS Board of Trustees sets the employer contribution rates as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. The basis for the employer's portion is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the plan with the total actual contributions made in the fiscal year of all employers. The District's contributions to RHIA are included in PERS contributions for all reporting years and equaled the required contributions each year.

At June 30, 2021, the District reported a net OPEB liability/(asset) of (\$1,106,735) for its proportionate share of the net OPEB liability/(asset). The OPEB liability/(asset) was measured as of June 30, 2020, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2018. Consistent with GASB Statement No. 75, paragraph 59(a), the District's proportion of the net OPEB liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement dates of June 30, 2020 and 2019, the District's proportion was .543 and .528 percent respectively. OPEB revenue for the year ended June 30, 2021 was \$15,829.

## Components of OPEB Expense/(Income):

| Employer's proportionate share of collective system OPEB Expense/(Income)   | \$ (178,007) |
|---|--------------|
| <ul> <li>Net amortization of employer-specific deferred amounts from:</li> <li>Changes in proportionate share (per paragraph 64 of GASB 75)</li> <li>Differences between employer contributions and employer's proportionate share of system contributions (per paragraph 65 of GASB 75)</li> </ul> | (10,736)     |
| Employer's Total OPEB Expense/(Income)  | \$(188,743)  |

#### NOTES TO BASIC FINANCIAL STATEMENTS

## 8. OTHER POST-EMPLOYMENT BENEFIT PLAN – RHIA (CONTINUED)

## **Components of Deferred Outflows/Inflows of Resources:**

| f Recources  |  |
|--------------|--|
| of Resources |  |
| 113,140      |  |
| 58,828       |  |
|              |  |
| -            |  |
| 22,599       |  |
|              |  |
| -            |  |
| 194,567      |  |
| -            |  |
| 194,567      |  |
|              |  |

The amount of contributions subsequent to the measurement date will be included as a reduction of the net OPEB liability/(asset) in the fiscal year ended June 30, 2022.

Subtotal amounts related to OPEB as deferred outflows of resources, \$123,457, and deferred inflows of resources, (\$194,567), net to (\$71,110) and will be recognized in OPEB expense as follows:

| Year ending June 30, | Amount      |
|----------------------|-------------|
| 2022                 | \$(124,502) |
| 2023                 | (30,928)    |
| 2024                 | 45,497      |
| 2025                 | 38,823      |
| 2026                 | _           |
| Thereafter           |             |
| Total                | \$ (71,110) |

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS Retirement Health Insurance Account Cost-Sharing Multiple-Employer Other Postemployment Benefit (OPEB) Plan Schedules of Employer Allocations and OPEB Amounts by Employer report, as of and for the Year Ended June 30, 2020. That independently audited report was dated March 12, 2021 and can be found at:

https://www.oregon.gov/pers/EMP/Documents/GASB/2020/GASB 75 FYE 6.30.2020.pdf

|                           | Scale, with job category adjustments and set-backs as described in the  |  |
|                           | valuation. Disabled retirees: Pub-2010 Disabled Retiree, sex distinct,  |  |
|                           | generational with Unisex, Social Security Data Scale, with job category |  |
| Mortality                 | adjustments and set-backs as described in the valuation.                |  |

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

#### **Discount Rate:**

The discount rate used to measure the total OPEB liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 and 7.20 percent, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

### NOTES TO BASIC FINANCIAL STATEMENTS

## 8. OTHER POST-EMPLOYMENT BENEFIT PLAN – RHIA (CONTINUED)

### **Long-Term Expected Rate of Return:**

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

|                                   | Target     | Compound Annual    |
|-----------------------------------|------------|--------------------|
| Asset Class                       | Allocation | (Geometric) Return |
| Core Fixed Income                 | 9.60%      | 4.07%              |

### **Changes Subsequent to the Measurement Date**

There are no changes subsequent to the June 30, 2020 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

### 9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) – HEALTH BENEFITS

The District operates a single-employer retiree benefit plan that provides access to post-employment health benefits to eligible employees and their spouses. Benefits and eligibility for members are established through the collective bargaining agreements.

The District's post-retirement health insurance program was established in accordance with ORS 243.303. ORS stipulates that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims costs, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree health insurance premiums, represents the District's implicit employer contribution. The plan is currently unfunded in accordance with GASB Statement No. 75.

At June 30, 2021, the following employees were covered by the benefit terms:

| Active Employees   | 915 |
|--------------------|-----|
| Eligible Employees | 66  |
| Total Participants | 981 |

## NOTES TO BASIC FINANCIAL STATEMENTS

## 9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) – HEALTH BENEFITS (CONTINUED)

The District's total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

| Total                | \$4        | 1,156,079 |

Actuarial calculations of the OPEB plan reflect a long-term perspective and actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future.

#### NOTES TO BASIC FINANCIAL STATEMENTS

## 10. OTHER POST-EMPLOYMENT BENEFIT PLANS – (STIPENDS)

<u>Plan Description</u> - A single employer early retirement incentive plan exists for certified employees and administrators hired before November 30, 2001. The retirement incentive is offered as a form of deferred compensation for work performed during the years of active employment. To qualify, an employee must be a certified staff member or administrator eligible to retire with benefits under the rules of the Public Employees Retirement System and applicable Oregon law. In addition, the electing employee must have 10-15 years of service with the District immediately prior to retirement. This plan is funded on a pay-as-you-go basis.

<u>Summary of significant accounting polices</u> –The plan is accounted for in General Fund. The District's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

<u>Funding Policy</u> - The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. There is no obligation on the part of the District to fund these benefits.

<u>Total Pension Liability (Stipends)</u> - The District's total pension liability and total other post-employment benefits were measured as of June 30, 2021 and determined by an actuarial valuation as of June 30, 2021.

Actuarial Methods and Assumptions - The District engaged an actuary to perform a valuation as of June 30, 2021 using the Entry age normal, level percent of salary Actuarial Cost Method. The asset valuation method used was market value and the amortization method used was 30 year, open level %.

The total pension liability in the June 30, 2021 actuarial valuation was calculated based on the discount rate and actuarial assumptions below, and was then projected forward/backward to the measurement date. There are no assets accumulated in a trust that meets the criteria in GASB 73 paragraph 4.

| Discount Rate     | 2.16%                                 |
|-------------------|---------------------------------------|
| Valuation Date    | June 30, 2021                         |
|                   |                                       |
| Measurement Date  | June 30, 2021                         |
| Reporting Date    | June 30, 2021                         |
| Inflation Rate    | 2.50%                                 |
| Salary Increases  | 3.50%                                 |
|                   | Based on Oregon PERS valuation        |
| Healthy Mortality | assimptions as of December 31, 2019   |
| Actuarial Cost    |                                       |
| Method            | Entry Age Normal Level Percent of Pay |

Mortality rates were based on the RP=2000 Combined Mortality Table for males or females, as appropriate, set back 24 months, and were calculated by adjusting the rates by 60% for male participants and 55% for female participants. Turnover rates were based on percentages development for the valuation of benefits under Oregon PERS and vary by years of service.

### NOTES TO BASIC FINANCIAL STATEMENTS

## 10. OTHER POST-EMPLOYMENT BENEFIT PLANS – (STIPENDS) (CONTINUED)

Disability rates were assumed to be immaterial for purposes of the OPEB Actuarial Valuation.

Retirement rates were calculated based on age, tier/OPSRP and years of service. Members who can become eligible for District-paid stipend were assumed not to terminate employment prior to retirement.

100% of active members eligible for stipend benefits were assumed to elect coverage upon retirement.

The discount rate used to measure the total other post-employment benefit liabilities was 2.16%, based on the expected long-term future annual investment returns for Oregon's Local Government Investment Pool and comparable investments.

Program membership consisted of the following as of the Actuarial Measurement date of June 30, 2021:

| Active Employees   | 915 |
|--------------------|-----|
| Eligible Employees | 66  |
| Total Participants | 981 |

## Sensitivity of the Total Pension Liability to changes in the discount and trend rates

The following presents the Total Pension Liability of the plan, calculated using the discount rate as of the measurement date, as well as what the Plan's Total Pension Liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

|   | 1%        | Current       | 1%           |
|---|-----------|---------------|--------------|
|   | Decrease  | Discount Rate | Increase     |
| Total Pension Liability, as of June 30, 2021 \$ | 2,625,179 | \$ 2,521,347  | \$ 2,418,165 |

## OPEB Expense and Deferred Outflows and Inflows of Resources

|  | Deferred Inflow of Resources |         | Deferred Outflow of Resources |                    |
|--|------------------------------|---------|-------------------------------|--------------------|
| Differences between expected and actual experience<br>Changes of assumptions or inputs | \$                           | 237,508 | \$                            | 696,200<br>322,543 |
| Total as of June 30, 2021  | \$                           | 237,508 | \$                            | 1,018,743          |

#### NOTES TO BASIC FINANCIAL STATEMENTS

## 10. OTHER POST-EMPLOYMENT BENEFIT PLANS – (STIPENDS) (CONTINUED)

Subtotal amounts related to OPEB deferred outflows of resources, \$1,018,743, and deferred inflows of resources, (\$237,508), net to \$781,235 and will be recognized in OPEB expense as follows:

| Year ending June 30, | Amount |         |
|----------------------|--------|---------|
| 2022                 | \$     | 133,669 |
| 2023                 |        | 133,669 |
| 2024                 |        | 133,669 |
| 2025                 |        | 133,669 |
| 2026                 |        | 89,172  |
| Thereafter           |        | 157,387 |
| Total                | \$     | 781,235 |

### 11. PROPERTY TAX LIMITATIONS

The voters of the State of Oregon imposed a constitutional limit on property taxes for schools and non-school government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The voters further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction was accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

## 12. LONG-TERM OBLIGATIONS

In May of 2003, the District issued \$74,997,238 general obligation bonds to finance capital constructions and improvements. Interest rates ranges from 2.0% to 4.78%, payable annually in June. The bonds mature June 15, 2023. There are no significant default, termination, or acceleration clauses for this bond obligation requiring disclosure under GASB 88.

In March of 2015 the District issued \$161,390,000 in general obligation and refunding bonds with interest rates between 2% and 5%. The proceeds were used to refund \$81,395,000 of outstanding Series 2009 general obligation bonds which had interest rates ranging from 2.5% to 5%. Of the \$189,333,774 net proceeds (including a \$27,943,774 premium) \$94,617,780 were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on refundable bonds. The District refunded the Series 2009 general obligation bonds to reduce its total debt service payments over 19 years by \$10,435,273, resulting in an economic gain of \$4,939,752. In the event of default, the trustee may exercise any remedy available at law or in equity, however, the bond payments will not be subject to acceleration.

#### NOTES TO BASIC FINANCIAL STATEMENTS

### 12. LONG-TERM OBLIGATIONS (CONTINUED)

In August of 2019, the District issued \$4,502,366 general obligation bonds to finance capital constructions and improvements. These bonds were approved by voters in 2015. Interest rates ranges from 2.0% to 4.78%, payable annually in June. The bonds mature June 15, 2024. In the event of default, the trustee may exercise any remedy available at law or in equity, however, the bond payments will not be subject to acceleration.

The District issued series 2020A deferred interest bonds for \$103,756,716 in general obligation bonds to finance capital construction and improvements. Interest rates range from 2.37% to 2.95% deferred interest is compounded and paid at maturity beginning June 2035. The bonds mature June 15, 2050. In the event of default, the trustee may exercise any remedy available at law or in equity, however, the bond payments will not be subject to acceleration.

In February 2020, the District issued Series 2017B Bonds for \$44,120,000 (plus \$11,148,059 premiums) in general obligation bonds to finance capital construction and improvements. Interest rates of 5.0%, payable semiannually in June and December, beginning December 2020. The bonds mature on December 15, 2034 with principal payments semi-annually December 15 and June 15. In the event of default, the trustee may exercise any remedy available at law or in equity, however, the bond payments will not be subject to acceleration.

In February 2020, the District issued Series 2020C Bonds for \$76,285,000 in general obligation bonds for the purpose of refunding portion of its general obligation bonds issued in 2015. Interest rates range from 1.567% to 2.474%, payable semiannually in June and December. The bonds mature on June 15, 2033. A total of \$75,871,773 was raised to buy back bonds issued in 2015. The total principal of 2015 bonds defeased was \$63,555,000. The difference of \$413,227 was paid for cost of issuance of the bonds. Although the stated balance amount of the bonded debt is now higher, the District will save a significant amount of money over the life of the new bonds due to the reduction in interest payments. The unamortized balance of the deferred loss as of June 30, 2021 if \$13,237,370.

Pension Obligation Bond – On March 1, 2014, the District issued \$42,180,000 of limited tax pension obligation bonds to finance its portion of the unfunded actuarial liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the future required contribution rate.

### NOTES TO BASIC FINANCIAL STATEMENTS

### 12. LONG-TERM OBLIGATIONS (CONTINUED)

The following changes occurred in the long-term obligations for the year ended June 30, 2021: All long-term obligations are payable from the General and Debt Service funds.

|                                | 345,798,288      | 169,827,741 |
|                                |                  |             |

#### NOTES TO BASIC FINANCIAL STATEMENTS

### 13. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three fiscal years.

#### 14. CONTINGENT LIABILITIES

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the management expects such amounts, if any, to be immaterial.

The COVID-19 outbreak in the United States has caused substantial disruption to business and local governments due to mandated and voluntary suspension of operations and stay at home orders. There is considerable uncertainty around the duration of the outbreak and the long-term impact to the overall economy. The ultimate impact on the District's finances is not determinable.

#### 15. INTERFUND TRANSFERS AND DUE TO/ DUE FROM

Operating and internal transfers are comprised of the following activity:

| Fund                  | Tra  | Transfers Out Transfers |     |           | Due From     |     | Due To    |
|-----------------------|------|-------------------------|-----|-----------|--------------|-----|-----------|
| General Fund          | \$   | 20,335                  | \$  | 1,500,000 | \$ 6,741,979 | \$  | -         |
| Special Revenue Funds |      | 2,005,121               |     | 20,335    | 1,038,918    |     | 9,082,916 |
| Debt Service Fund     |      | -                       |     | -         | 1,333,180    |     | -         |
| Capital Projects Fund |      |                         |     | 505,121   | -            |     | 31,161    |
| Total Funds           | _\$_ | 2,025,456               | _\$ | 2,025,456 | \$ 9,114,077 | _\$ | 9,114,077 |

The internal transfers are budgeted and recorded to show legal and operational commitments between funds such as cost sharing. The interfund balances are recorded to show legal and operational commitments between funds.

### 16. TAX ABATEMENTS

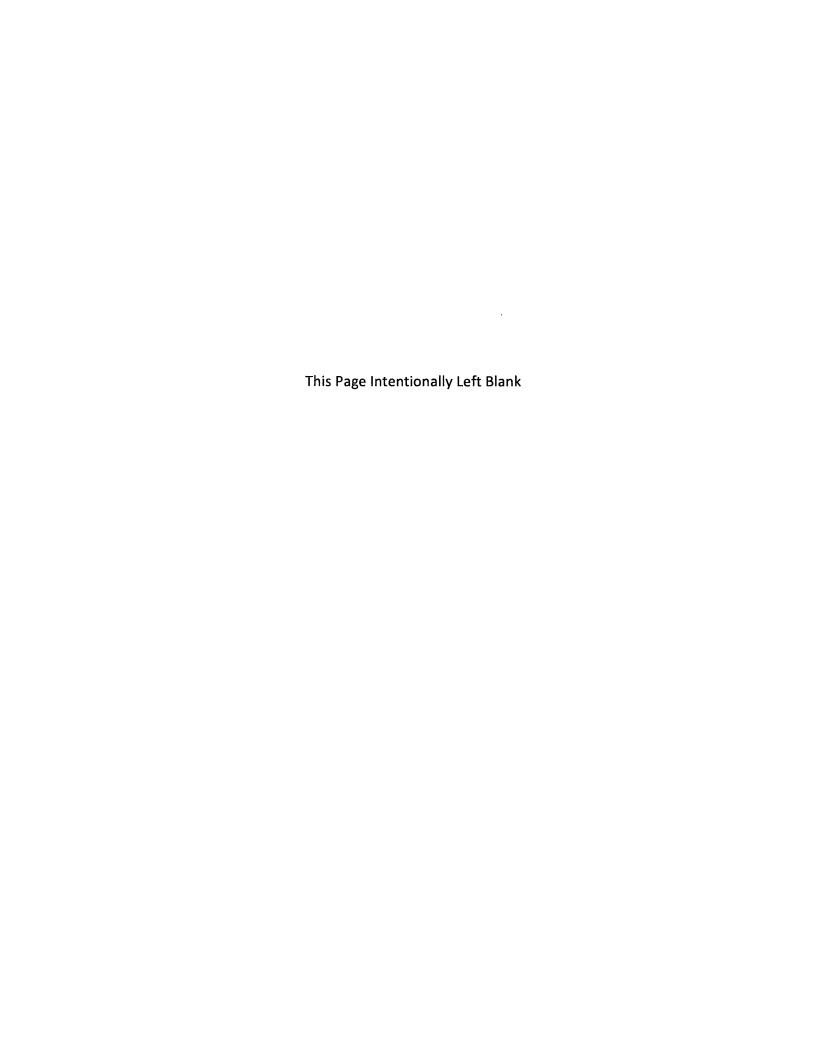

As of June 30, 2021, the District potentially had tax abatements through various state allowed programs that impacted levied taxes. Based on the information available from the county as of the date of issuance of these basic financial statements, there were abatements of \$324,871 disclosed by the county for the year ended June 30, 2021 for any program covered under GASB 77.

### NOTES TO BASIC FINANCIAL STATEMENTS

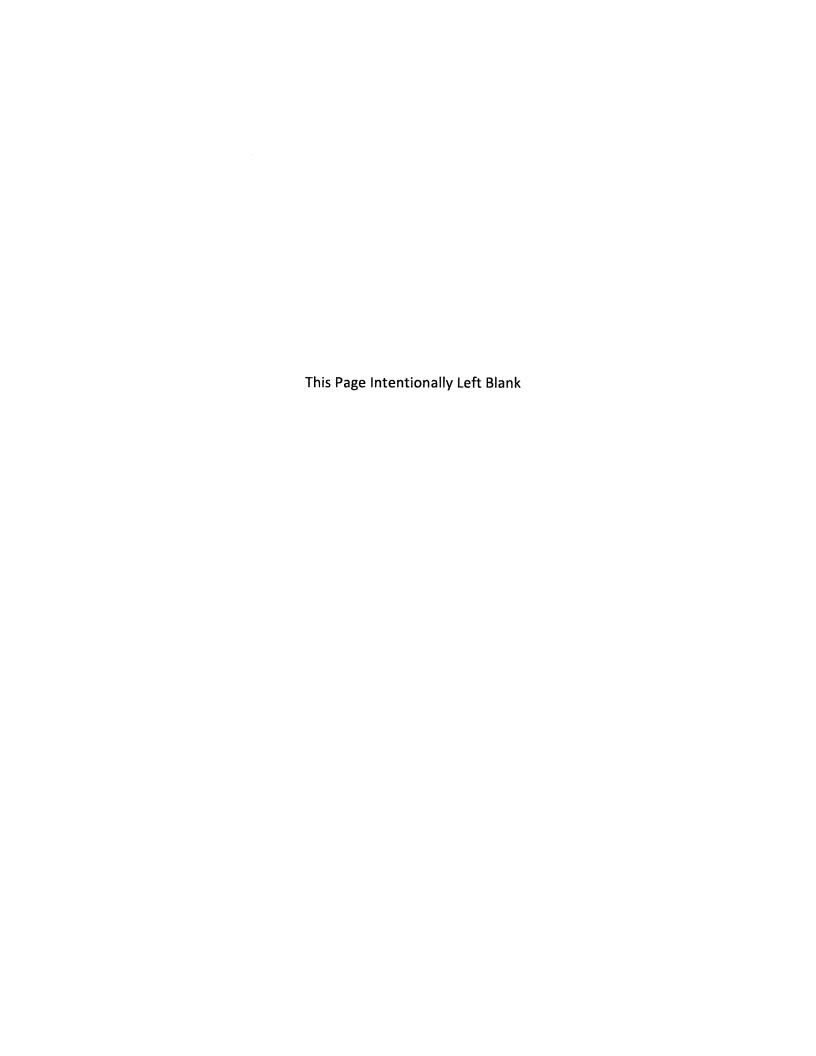

### 17. PRIOR PERIOD ADJUSTMENT

Under the modified accrual basis of accounting, the District recognizes revenue considered collectible within 60 days after year end, as described in Note 1. Annually, the District includes property tax revenue for the July and August after year end in the current period's revenue. For the prior year ended June 30, 2020, the District did not include July and August 2020 property tax revenues in the revenues of the General and Debt Service Funds. The correction of this resulted in a prior period adjustment to the beginning fund balance of the General Fund for \$356,718 and Debt Service Fund for \$202,795, as reported in the Statement of Revenue, Expenditures, and Changes in Fund Balances – Governmental Funds on page 8.

| Net Position - Beginning as previously reported          | \$ (15,501,308) |
|--|-----------------|
| Change in June 30, 2020 General Fund ending balance      | 356,718         |
| Change in June 30, 2020 Debt Service Fund ending balance | 202,795         |
| Net Position - Beginning as restated                     | \$ (14,941,795) |

The above table presents the most recent actuarial valuations for the District's post-retirement health insurance and it provides information that approximates the funding progress of the plan.

In implementing GASB Statement No. 75, the following changes since the prior valuation were implemented; (i) the actuarial cost method was changed from Projected Unit Credit to Entry Age Normal, (ii) the interest rate for discounting future liabilities was lowered to match municipal bond rates, (iii) premium increase rates were modified to reflect anticipated experience, (iv) the percentage of future retirees covering a spouse on the plan was decreased to reflect the anticipated experience, (v) demographic assumptions were revised to match (as closely as possible) those developed in the most recent experience study for Oregon PERS, and (vi) an implicit rate subsidy is now being valued for participants in the health plans. In prior valuations, the District's participating in the health plans determined to be a community rated arrangement.

There are no assets accumulated in a trust that meets the criteria of GASB codification paragraph 22.101 or paragraph 52.101 to pay related benefits for the OPEB plan.

The above table presents the most recent actuarial valuations for the District's post-retirement health insurance and it provides information that approximates the funding progress of the plan.

In implementing GASB Statement No. 75, the following changes since the prior valuation were implemented; (i) the actuarial cost method was changed from Projected Unit Credit to Entry Age Normal, (ii) the interest rate for discounting future liabilities was lowered to match municipal bond rates, (iii) premium increase rates were modified to reflect anticipated experience, (iv) the percentage of future retirees covering a spouse on the plan was decreased to reflect the anticipated experience, (v) demographic assumptions were revised to match (as closely as possible) those developed in the most recent experience study for Oregon PERS, and (vi) an implicit rate subsidy is now being valued for participants in the health plans. In prior valuations, the District's participating in the health plans determined to be a community rated arrangement.

There are no assets accumulated in a trust that meets the criteria of GASB codification paragraph 22.101 or paragraph 52.101 to pay related benefits for the OPEB plan.

<sup>1.</sup> Permanent tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanet rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the November and May election every year. Rates for debt service are based on each year's requirements.

<sup>2.</sup> Local Option taxes are assessed at \$1.50 per thousand AV.

#### Note:

Net taxes levied are combined for Clackamas and Washington counties. Responsibility for the collection of all property taxes rests within the County's Department of Assessment and Taxation. Current taxes are assessed as of July, become due as of November 15 and become delinquent as of May 15. Assessed taxes become a lien upon real property in the fourth year of delinquency. Proceeds of tax sales are applied to delinquent taxes, interest and other costs attributable to the property sold.

ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market values of all taxable properties within the District as follows:

28.32%

37.31%

22.23%

22.06%

24.32%

28.61%

25.51%

28.66%

30.13%

30.06%

percentage

4.95% 3.00%

<sup>B</sup> For each grade from ninth to twelfth for which the District operates schools, seventy-five one-hundredths of one percent (.0075) of the real market value. Allowable Percentage of Real Market Value:

 $^{\rm A}$  Kindergarten through eighth grade, 9  $\, {\rm x}$  .0055 <sup>B</sup> Ninth through twelfth, 4 x .0075 Allowable Percentage Market value per Clackamas and Washington County Assessors Off

A For each grade from kindergarten to eighth for which the District operates schools, fifty-five on-hundredths of one percent (.0055) of the real market value.

INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

# **PAULY, ROGERS, AND CO., P.C.** 12700 SW 72<sup>nd</sup> Ave. Tigard, OR 97223 (503) 620-2632 (503) 684-7523 FAX www.paulyrogersandcocpas.com

June 9, 2022

## Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of the West Linn - Wilsonville School District as of and for the year ended June 30, 2021, and have issued our report thereon dated June 9, 2022. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

#### Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.
- Programs funded from outside sources.

In connection with our testing nothing came to our attention that caused us to believe the West Linn - Wilsonville School District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations:

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Roy R. Rogers, CPA

To the Board of Directors West Linn - Wilsonville School District No. 3JT Clackamas County, Oregon

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund, and the remaining fund information of West Linn - Wilsonville School District No. 3JT as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated June 9, 2022.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

## Report on Compliance for Each Major Federal Program

We have audited West Linn - Wilsonville School District No. 3JT's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2021. The major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

## Opinion on Each Major Federal Program

In our opinion, West Linn - Wilsonville School District No. 3JT, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

### Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## WEST LINN - WILSONVILLE SCHOOL DISTRICT NO. 3JT CLACKAMAS COUNTY, OREGON

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended June 30, 2021

## SECTION II – FINANCIAL STATEMENT FINDINGS

None Reported

## SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONS COSTS:

None Reported

### **SECTION IV-SUMMARY OF PRIOR AUDIT FINDINGS:**

## FINDING 2020-01 Significant Deficiency in Internal Control over Major Program

**Criteria:** The District is required to maintain semi-annual certifications of employees whose salary is supported by one Federal program to document time and effort requirements for the program.

## Views of responsible officials and planned corrective actions:

The District is aware of these requirements and is working to ensure program coordinators and the accounting staff are completing the semi-annual certifications in a timely manner for all the District's programs with this requirement.

**Status:** The required semi-annual certification for the employees whose salary is supported by one Federal program was performed during the fiscal year 2020-21. Certifications requirements have been met.

## NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

### 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes federal grant activity under programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the District.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The District has elected not to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance, due to the fact that they already have a negotiated indirect cost rate with Oregon Department of Education, and thus are not allowed to use the de minimis rate.
