December 23, 2015

Citizens & Board of Directors  
West Linn-Wilsonville School District 3Jt  
22210 SW Stafford Rd  
Tualatin, OR 97062

In accordance with the provisions of Oregon Revised Statutes Sections 297.405 through 297.555, known as Municipal Audit Law, submitted herewith is the Comprehensive Annual Financial Report (CAFR) of West Linn-Wilsonville School District 3Jt, Clackamas and Washington counties, Oregon for the year ended June 30, 2015.

This report was prepared by the Business Office of West Linn-Wilsonville School District 3Jt. The responsibility for the completeness, fairness, and accuracy of the data presented and all accompanying disclosures rests with the District. To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Pauly, Rogers and Co., P.C. a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal control and compliance with legal requirements, with special emphasis on internal controls and

legal requirements involving the administration of federal awards. These reports are presented in the Single Audit Section of this report.

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

## **THE DISTRICT**

The District is a municipal corporation governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present financial information of the West Linn-Wilsonville School District No. 3Jt.

Under Oregon State law the District is responsible for educating the children of the District. The District discharges this responsibility by building, operating, and maintaining school facilities; developing and maintaining approved educational programs and courses of study, including vocational programs and programs for handicapped students, in accordance with State standards; and carrying out programs for transportation and feeding of pupils in accordance with District, State, and Federal requirements.

The District is located seven miles south of the City of Portland, Oregon. Within the District's 42 square miles are the cities of West Linn and Wilsonville, as well as several unincorporated towns and areas of Clackamas and Washington Counties. The District was originally formed in 1933 through the consolidation of three smaller districts.

The District and surrounding communities have experienced steady growth over the past three decades. The estimated population of the District has grown from 16,876 in 1980 to 48,315 in 2015. District student membership as of June 30, 2015 was 8,905, which compares to 3,277 in fiscal year 1980. The real market value of property located in the district has grown from just under \$285 million to "nearly 9.4" billion in the same period. However, recent economic declines have brought the values down to a low of less than 7.0 billion in 2013. Recovery and growth continue to bring values back up, with total market valuation in 2015 now exceeding 8.1 billion.

The early economy of this area grew as a result of fertile agricultural and timberlands and its access to the Willamette and Columbia rivers. The area then began developing as a suburb of Portland, but over the past two decades has developed its own economic base which includes high technology firms and retail trade and distribution. Despite its rapid development, however, the County still contains prime agricultural land and a strong agricultural economy.

Interstate Highway 5, which runs through southwestern Clackamas County, has proven to be a major economic stimulus. The area between Wilsonville and Lake Oswego has seen greatly increased commercial and retail activity.

To the south, in the Wilsonville area, the close proximity of I-5 has encouraged warehousing and distribution activities, which require area for expansion and easy transportation connections. Retail stores have become more prominent in the area.

Easy access to the freeway system has also benefited those areas along Interstate Highway 205, which bisects the County and the District. This bypass link of I-5 runs between Wilsonville in the south and Clark County, Washington in the north. I-205 also connects Clackamas County to Portland International Airport. Most of the segments through Clackamas County were completed during the mid-1970s. At that time major retail and commercial developments occurred in the areas bordering the freeway. Significant smaller infill growth lends a positive impact as well.

## **ECONOMIC CONDITION**

In November, 1996, the voters of the State of Oregon voted by referendum a property tax limitation measure known as "Measure 47." This measure as amended by Measure 50 along with Measure 5, which was approved in November 1990, provides two property tax limitations in the Oregon Constitution. Measure 5 limits the property tax rate to \$5 per \$1,000 in real market value for schools; Measure 50 is a limitation that is based on the assessed value of each parcel of property. Measure 50 was initiated in 1997 by "cutting" the tax on each property to the lesser of the 1996 total property tax reduced by 10% or the 1995 total property tax for schools. Measure 50 also "caps" total operating taxes on each property to a 3% annual increase. Neither of these constitutional measures limits taxes for capital construction bonds.

Legislation passed, subsequent to Measure 50, allowing school districts to refer to voters a "local option" tax. This tax can be levied for up to five years for operation purposes. The tax cannot collect more than the \$5.00 per thousand of real market value allowed under measure 5 from any property in the school district. On May 16, 2000, district voters approved a Local Option Tax Levy at the rate of \$1.50 per thousand assessed value. Voters passed identical levies in 2004, 2008 and 2014 authorizing additional five year local option tax levies at \$1.50 per thousand assessed value that will extend through the 2019-20 fiscal year. The average "Local Option" taxpayer burden during 2014-15 was approximately \$.65 per thousand of assessed value. Revenues from this tax fall when there is a decrease in real market value. However, with recent economic recoveries, Local Option Tax collections are no longer in decline, showing a significant increase from a low of \$2,817,057 in 2012-13 to \$3,996,628 in 2014-15.

In response to the rate limitation of Measure 5, the state legislature employs a funding formula which equalizes the annual revenues to each school district in the State based on a per-pupil allocation. Excluding local option taxes, individual school districts are only indirectly dependent upon local property taxes for operating purposes.

Clackamas County unemployment rate is under the national average with the most recent rate of 4.8 percent published in December 2015.

Oregon's current personal income-tax-reliant revenue base continues to have the stability and adequacy shortcomings it has experienced in previous years. There is concern that the taxation base is not broad enough to raise the revenues needed for public education and other needed services the state must provide. However, as the local economy responds to recovery and growth, improvements are being seen.

## BUDGET PROCESS

The District's budget process starts with input and discussions between the school's principals and department heads and the business office. The Superintendent holds meetings with these leaders and with community decision makers to keep them informed of how the State's funding is shaping up as the budget comes together. The Budget Committee meets and weighs in on the proposals, also. Finally the budget is pulled together and sent to the Board for final approval and adoption.

## MAJOR PROGRAMS

The vision and **mission** of the West Linn-Wilsonville School District is to constantly ask ourselves how we can build and sustain professional learning communities focused on improving conditions for teaching and learning in ways that foster the development and nurturance of each student's potential for life-long intellectual and cultural growth and that readies them for college and career success. The district measures its success by the level of student achievement, participation in extra and co-curricular activities, graduation rates, post-secondary success, and community support.

In its quest for continuous improvement, the school district held two **Futures Conferences** in 1994. These events, preceded by a year of planning, were a part of our strategic planning to move West Linn-Wilsonville Schools into the 21<sup>st</sup> century. Participants sought common ground through dialogue and painted broad strokes of consensus about the goals and values they would ask the school district to live into in the future. One hundred fifty students, teachers, administrators, parents, and members from all sectors of the community spent two-and-a-half rigorous days at each conference. District goals are reviewed, revised as necessary, and adopted annually in response to changes in the community, in the economy, and in response to student needs.

The **vision that evolved** from these meetings is embedded in the question: *How do we create learning communities for the greatest thinkers and most thoughtful people...for the world?* The six vision themes that emerged presented the community and schools with an inviting picture of possibility and launched the district on a challenging and rewarding journey. These themes create a framework within which to work as the district responds to a changing economic and academic landscape. These vision themes of *Personal and Academic Excellence, Personalized Education, Circle of Support, Community Partnerships, Educating the Whole Child, and Integrating Technologies in Daily Learning* guide the work of school board members, teachers, site councils, administrators, children, school support staff and, to an increasing degree, community members in ways that are both global and specific.

The development of systems to support high quality professional learning and in-service continue to be an emphasis in the district. We are committed to supporting all staff in improving the skills and training necessary to improve our effectiveness in delivering powerful instruction and related support services to students and parents.

The general obligation bond passed by voters November 2, 2014 and sold in March, 2015 is just getting started, which will include the opening of a new middle school, the replacement of Sunset Primary School and will include substantial upgrades in many of the schools in the district. A major emphasis will go into expanding our district security and our technology, realizing that these areas are key to student safety and to preparing our students for a successful future.

The school board has continued to use the services of the long range planning committee which has been in existence since the early 1990's. Long range planning for facilities and associated financial capacity is captured in a long range plan that is updated on a continual basis. Predetermined trigger points are used to activate the plan to seek additional educational capacity.

With promising economic recovery taking place in Oregon, our district is benefiting from relative stability of state funding as compared to recent years.

### **Awards**

The West Linn-Wilsonville School District takes pride in promoting excellence in every aspect of education. It continues to hold the position as being one of the top rated school districts in the state for achieving high levels of student achievement in a wide range of program offerings. The District continues to achieve the highest graduation rate in the State for larger comparable districts.

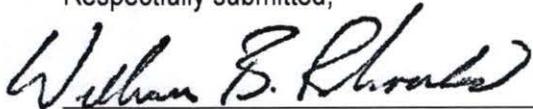

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Linn-Wilsonville School District for its comprehensive annual financial report for the fiscal year ended June 30, 2014. This was the 22nd consecutive year that the district has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **ACKNOWLEDGMENTS**

We wish to express our appreciation to the staff of the Business Office and members of other District departments who assisted in the preparation of this Comprehensive Annual Financial Report. We also wish to extend our appreciation to the members of the Board of Education, administrators, employees, and citizens of the district whose continued cooperation, support, and assistance have contributed greatly to the financial stability of the West Linn-Wilsonville School District.

Respectfully submitted,

William Rhoades, Superintendent

## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
West Linn-Wilsonville School District 3JT  
Clackamas County, Oregon

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Linn-Wilsonville School District 3JT, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Emphasis of Matter

West Linn-Wilsonville School District adopted the provisions of GASB Statement No. 68, Accounting and Reporting for Pensions, as well as the provisions of GASB Statement No. 71, Pensions Transition for Contributions Made Subsequent to the Measurement Date, for the year ended June 30, 2015. Our opinion is not modified with respect to this matter.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of West Linn-Wilsonville School District 3JT, as of June 30, 2015, and the respective changes in financial position and budgetary comparisons for the general fund and major special revenue fund, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the Schedule of Funding Progress and Employer Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the Management Discussion and Analysis and Schedule of Findings and Questioned Costs because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary and other information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements

The supplementary information, as listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents and the schedule of federal awards, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory, statistical sections and the other information, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### Reports on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our reports dated December 22, 2015 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of those reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. Those reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 22, 2015, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Matthew Graves, CPA  
PAULY, ROGERS AND CO., P.C.

**WEST LINN-WILSONVILLE SCHOOL DISTRICT 3JT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2015**

As management of West Linn-Wilsonville School District 3JT (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2015.

**FINANCIAL HIGHLIGHTS**

- In the government-wide statements, the assets of the District exceeded its liabilities at June 30, 2015 by \$34,097,511.
- The District's governmental funds report combined ending fund balance of \$105,372,418.
- The District's net position increased by \$13,793,541.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

*The Statement of Net Position.* The *statement of net position* presents information on all of the assets and liabilities of the District at year end. Net position is what remains after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

*The Statement of Activities.* The *statement of activities* presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

- *Governmental activities.* Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

**Fund financial statements.** The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Linn-Wilsonville School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** The *governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains 4 individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Debt Service, and Capital Projects Funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided as Supplemental Information.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as the government-wide financial statements, only in more detail.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's progress in funding its obligation to provide pension benefits to its employees

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

A comparative analysis discussing and analyzing significant differences is provided below.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$34,097,511 at June 30, 2015.

Capital assets, which consist of the District's land, buildings, building improvements, vehicles, and equipment, represent about 62.3 percent of total assets. The remaining assets consist mainly of investments and cash, bond proceeds, grants, and property taxes receivable.

The District's largest liability is for the repayment of general obligation bonds. Current liabilities, representing about 4.1 percent of the District's total liabilities, consist almost entirely of payables on accounts, payroll withholdings, accrued interest payable and the current portion of long-term debt.

Net position of the District were comprised of the following:

	<u>June 30, 2015</u>	<u>June 30, 2014</u>	<u>Change</u>

**Governmental activities.** A comparative analysis discussing and analyzing significant differences from the prior year to the current year is provided on the following page. During fiscal 2014-15, the District's net position increased by \$13,793,541. This year showed a sizeable increase in funding from State sources of over \$2.5 million, thanks to the State's improved economic conditions, favorable legislative prioritization, and increased student counts -which directly drive the funding formula. Additionally, receipts from local option taxes increased by over \$1 million. Expenses for the year increased in the area of instruction as the District placed as much of its resources as possible into its classrooms. However, due to the implementation of GASB Statements 68 and 71, beginning net position was restated as of July 1, 2014 to account for the net pension liability and pension related deferred inflows and outflows as of the beginning of the year based on the actuarial data provided by OPERS and Milliman for the prior measurement date. Because the prior measurement valuation only provides data for restatement of the beginning of the current fiscal year (2014-15), and no prior measurement data was provided by the actuaries related to the fiscal year ended June 30, 2013, there is no way to restate the prior year (2013-14) data for the purposes of the comparison in the MD&A. Therefore, the 2013-14 information has been presented in the same manner as it was in last year's report. Pension expense was allocated to the functions in 2014-15, which created significant unusual variances. Therefore, data will be provided in the MD&A in future years that will be more consistent and meaningful for comparative purposes. During the year, over \$97.5 million was used to pay bonded debt down -mostly a result of the refunding of the 2004 bond. Also, over \$5.3 million in capital assets were added as a result of the District's bond program completing and placing additional projects in service this year. However, the offset from current year depreciation on total assets was greater than that addition, so that total net position decreased by just over \$550,000.

The Changes in Net position for the District were as follows:

	June 30, 2015	June 30, 2014	Change
<b>REVENUES</b>			
Program Revenues			
Charges for Services	\$ 3,250,887	\$ 3,938,788	\$ (687,901)

## FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resource's available for spending at the end of a fiscal year.

At June 30, 2015 the District's governmental funds reported combined ending fund balances of \$105,372,418, an increase of \$91,073,561 when compared with the prior year. This increase was primarily due to bond sales for future construction projects, where expenditures will be recorded in the year they are expended, and the associated bond revenue was recorded in the current 2014-15 year, when the bonds were sold –creating a larger asset in this year.

*General Fund.* The General Fund is the chief operating fund of the District. As of June 30, 2015, unassigned fund balance was \$5,161,253 and the non-spendable balance was \$149,028 for a total ending fund balance of \$5,310,281. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. This year's fund balance represents about 6.5 percent of total General Fund expenditures. The fund balance increased by \$863,451 during the current fiscal year. This increase was attributable mostly to increased State funding and increased student count as stated above.

*Debt Service Fund.* As of June 30, 2015 the ending fund balance was \$1,668,258, an increase of \$466,963 when compared to the prior year. This increase is due to a slight adjustment of the tax collection rate and due to assessed valuations increasing at a slightly higher rate than anticipated.

*Capital Projects Fund.* The Capital Projects Fund has a total fund balance of \$98,010,357, which is designated for the newly voted capital needs specified in the general obligation bond approved on November 4, 2014, which will be spent out over the next few years. The two major projects from that bond consisted of a replacement primary school Sunset Primary School as well as a new middle school that will be built on the Advance Road property. These two schools are still in the planning stages and will be opened in the fall of 2017

## GENERAL FUND BUDGETARY HIGHLIGHTS

The 2014-15 Budget anticipated some significant revenue increases from the previous year due to continued state economic growth and the subsequent higher projected funding levels. The Budget anticipated a slight increase in receipts from the Local Option Tax which was being held back by complexities with valuation and compression. However, it came in at more than a \$1 million stronger than what was budgeted for the year. In addition, nearly \$1 million of support came from a reconfiguration of services and funds administered by Clackamas Education Service District. Revenue increases from State funding of almost \$7.5 million were anticipated above the previous year's budget. Actual receipts came in almost \$1.5 million less than that projection for a total of \$44,009,918. However, that reduction was more than offset by a significant increase in property tax receipts. Property taxes were budgeted to come in at \$26.3 million. Actual receipts were \$29.4 million. The overall net projected ending fun balance increased by \$3,790,643 over what was budgeted for 2014-15.

On the expenditure side, wage increases were budgeted based on the second year of contracts negotiated for the biennium starting in 2013-14. These costs, plus significant staffing level additions necessitated by a growing student count amounted to approximately \$3.3 million in 2014-15 budget increases over the previous budget. Health insurance premiums and PERS costs were budgeted to increase an additional \$1.8 million in the 2014-15 year came in very close to budget. Purchased services for staff training and for repairs, supplies and contingency for unanticipated repairs were all budgeted higher than the previous year. These increases and other miscellaneous budgeted expenses increased operating cost estimates for the year by \$7.5 million over the previous year's budget. Although the budget anticipated the use of cash reserves to complete the year, increases in revenue mentioned above, and savings from not tapping into the contingency reserve helped the District's inflows to exceed its expenditures by \$863,451 for the year.

#### **CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital assets.** The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment. As of June 30, 2015, the District had invested \$216,012,650 in capital assets, net of depreciation.

Additional information on the District's capital assets can be found on page 28 in the notes to the financial statements.

**Long-term debt.** As of June 30, 2015, the District had total debt outstanding of \$281,171,064. Please refer to the notes to page 29 in the financial statements for more information.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

Resources supporting District General Fund operations primarily reflect local and state revenues, with additional income representing federal, county and other sources. The largest segment is determined by the State School Fund formula. The majority of funding provided by the State to the District is based on the District's average daily membership of students.

The economic stability and growth that is so welcome in Oregon and the Nation is reflected in the progress the District is making in achieving a much more predictable and stable funding environment. Progress in funding is evident as it is helping to support the District's commitment to investing its resources directly into the classroom by supporting a calendar without cuts in educational days, full-day kindergarten, emphasis on a rigorous program of staff training, and by promoting quality of educational excellence whenever and wherever possible.

With the 2014-15 year being the last year of the biennium, the 2015-16 year's budget was a challenge to work through. The budget was based on a K-12 state funding level of \$7.255 billion, which was an increase over the prior budget. Even with that, changes in statute and priority considerations dominated the budget process. Because the State was experiencing even, steady economic growth, the Legislators were finally able to increase funding for education in an attempt to help restore some of the important educational elements that were decreased in earlier recent years. Consequently, this new budget allowed for stable funding and staffing that could help avoid class size increases. With increased funding now in place, the District is moving forward with renewed focus to further develop its educational excellence.

With a growing community, the District is moving forward with growth, and has passed bonds in November of 2014 to make additional improvements for safety, do facilities upgrades and build a new middle school as well as replace Sunset Primary School, our oldest primary school. In addition to that, the local option levy was passed for an additional five years. All this makes for a very favorable environment for success of the District's educational programs as we move into the future.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Finance Officer at 22210 SW Stafford Road, Tualatin, Oregon 97062.

WEST LINN-WILSONVILLE SCHOOL DISTRICT NO. 3JT  
 CLACKAMAS COUNTY, OREGON

RECONCILIATION OF GOVERNMENTAL FUNDS  
 BALANCE SHEET TO STATEMENT OF NET POSITION  
 JUNE 30, 2015

<b>TOTAL FUND BALANCES</b>		\$ 105,372,418
Capital assets are not financial resources and therefore are not reported in the governmental funds:		
Cost	\$ 284,139,454	
Accumulated depreciation	<u>(68,126,804)</u>	216,012,650
A portion of the District's property taxes are collected after year-end but are not available soon enough to pay for the current years' operations, and therefore are not reported as revenue in the governmental funds.		
		2,870,768
The Net Pension Asset (Liability) is the difference between the total pension liability and the assets set aside to pay benefits earned to past and current employees and beneficiaries.		
		11,505,742
Net OPEB Asset		
		379,569
When a government refunded existing debt the difference between the reacquisition price and the carrying amount of the refunded debt results in a loss on refunding. The loss does not represent an asset as there is no resource the entity can use in the future. In addition, the loss does not represent a liability as there is no future obligation of resources. Because this loss is the result of a use of resources in the current period which benefits future periods through adjustments to interest rates or prepayment terms the loss should be classified as a deferred outflow of resources, rather than as a contra-liability as it has been shown.		
		331,404
Deferred Inflows and Outflows of resources related to the pension plan include differences between expected and actual experience, changes of assumptions, differences between projects and actual earning, and contributions subsequent to the measurement date.		
		(13,912,280)
Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest in long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. These liabilities consist of:		
Accrued Compensated Absences	(159,111)	
Net Other Post Employment Benefits	(5,049,297)	
Bonds payable	(278,420,515)	
Premium on Bonds Payable	(2,750,549)	
Accrued Interest Payable	<u>(2,083,288)</u>	<u>(288,462,760)</u>
<b>TOTAL NET POSITION</b>		<u><u>\$ 34,097,511</u></u>

See notes to basic financial statements.

WEST LINN-WILSONVILLE SCHOOL DISTRICT NO. 3JT  
 CLACKAMAS COUNTY, OREGON

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 YEAR ENDED JUNE 30, 2015

**NET CHANGE IN FUND BALANCE** \$ 91,073,561

*Amounts reported for governmental activities in the Statement of Activities are different because:*

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Expenditures for capital assets	\$ 5,322,836	
Gain/Loss on sale of assets	(16,606)	
Less current year depreciation	<u>(5,859,331)</u>	(553,101)

Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Bond refunding loss amortization	(331,404)	
Bond premium Amortization	218,643	
Bond Proceeds	(189,333,774)	
Debt principal repaid	<u>97,502,904</u>	(91,943,631)

In the Statement of Activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as an interest expense when due. (519,887)

Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied. 77,187

Adjustment for Inventory 25,722

Compensated absences and early retirement obligations are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences and early retirement obligations are recognized as an expenditure when earned.

Compensated absences	40,319	
Other Post-Employment Benefits	<u>(236,047)</u>	(195,728)

The Pension Expense represents the changes in Net Pension Asset (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position available to pay pension benefits. 15,829,418

**CHANGE IN NET POSITION** \$ 13,793,541

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

West Linn-Wilsonville School District No. 3JT is a municipal corporation governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present West Linn-Wilsonville School District No. 3JT (the primary government) and any component units. Component units, as established by the Government Accounting Standards Board (GASB) Statements 14, 39, and 61 are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. West Linn-Wilsonville School District No. 3JT has no component units. The Three Rivers Charter School is the District's only charter school, however it does not qualify for reporting as a component unit. Detailed information about the Charter School's budgetary compliance and compliance with laws and regulations is contained in the Component Unit Financial Report of Three Rivers Charter School which is issued separately.

Basis of Presentation

**Government-wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District, except fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities, however interfund services provided and used are not eliminated in the process of consolidation. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Net Position is reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

**Fund Financial Statements**

The fund financial statements provide information about the funds including those of a fiduciary nature. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

There are the following major governmental funds:

General Fund - This is the primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

Special Revenue Fund – This fund accounts for revenues and expenditures designated for specific programs. The principal revenue sources are grants and contributions.

Debt Service Fund – This fund accounts for the payment of principal and interest on the General Obligation Bond and PERS Bond issues. The principal sources of revenue are property taxes and charges to other funds.

Capital Projects Fund - This fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds and interest earnings.

Additionally, the following other fund types are reported:

Fiduciary Funds

The Agency fund accounts for the transactions of the student body activity accounts. The private-purpose trust scholarship fund accounts for private contributions used for scholarships.

Measurement Focus and Basis of Accounting

Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, certain programs are funded by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted Net Position available to finance the program. It is the policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. All revenues reported in the governmental funds are considered to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Agency fund financial statements report only assets and liabilities and therefore, have no measurement focus. However the accrual basis of accounting is used to recognize receivables and payables.

Cash, Cash Equivalents and Investments

The cash and cash equivalents consist of cash on hand, demand deposits, saving deposits, money market deposits, investments in the State of Oregon Treasurer's Local Government Investment Pool (LGIP) and cash with county treasurers.

The investments consist of time certificates of deposit, banker's acceptances, commercial paper and U.S. Government Agency securities. Time certificates of deposits are stated at cost which approximates fair value. Investments, other than time certificates of deposit, that have a remaining maturity at the time of purchase of one year or less are state at amortized cost. All other investments are state at fair value, or estimated fair value. As of June 30, 2015 the fair position in the LGIP approximates the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

Accounts and Other Receivables

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants. All accounts receivable are current and no allowance for uncollectible accounts is made as management believes them to be collectible.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes Receivable

Property taxes are levied and become a lien on July 1. Collection dates are November 15, February 15, and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Uncollected property taxes are recorded on the statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

Supply Inventories and Prepaid Items

Supply inventories are stated at cost using first-in, first-out (FIFO) method. Any donated inventories are stated at their estimated fair market value. The cost of inventory items are recognized as an expenditure when purchased (purchase method) for budgetary purposes. A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when consumed and are stated at their fair market value based on guidelines provided by the USDA. Commodities on hand at year end are recorded as deferred revenue. As a result, fund balance on the balance sheet has not been reserved for inventories of donated commodities. All other inventories in the governmental funds have been equally offset by an adjustment for inventory recorded under the consumption method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items both in the government-wide and fund financial statements.

Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets with an initial cost of more than \$5,000 and an estimated life in excess of three years are capitalized. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	10 to 50 years
Equipment	5 to 20 years

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Retirement Plans

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. GASB Statements 68 and 71 have been implemented as of July 1, 2014.

There is a deferred compensation plan available to its employees wherein they may execute an individual agreement with the District for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation, or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one, which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets and liabilities of the District.

Compensated Absences

It is the policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service. All unused vacation pay is accrued when earned in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignation and retirements. The entire amount of accrued compensated absences is considered current because all absences are usable within the current year, and it is not possible to determine accurately which amounts will be used within the year versus which amounts will be held over and used later.

Long-term Debt

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements bond premiums and discounts, as well as bond issuance costs, are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

basic financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Budget

A budget is prepared and legally adopted for each governmental fund type and pension trust fund on the modified accrual basis of accounting. The agency fund is not required to be budgeted. The budgetary basis of accounting is substantially the same as accounting principles generally accepted in the United States of America basis, except capital outlay expenditures, including items below the capitalization level, are budgeted by major function in governmental fund types and inventories are budgeted as expenditures when purchased, property taxes not received within 60 days of year end are deferred, depreciation and amortization are not recorded in the funds, principal payments on debt and OPEB obligations are expended as they are paid rather than when they are incurred, and prepaid items are expended when paid rather than when used. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. During the year, no appropriation transfers were made. Appropriations lapse at the end of each fiscal year. Expenditures of the various funds were within authorized appropriations, except for an overexpenditure in the Support Services expenditures of \$224,814, an overexpenditure in the General Fund Instruction expenditures of \$885,672, an overexpenditure in the Special Revenue Fund Instruction expenditures of \$4,328 and an overexpenditure of \$150,258 in Enterprise and Community Services, an overexpenditure in the Debt Service Fund debt service expense of \$827,582, and an overexpenditure in the Capital Projects fund in Support Services of \$21, an overexpenditure in Facilities Acquisition and Construction expense of \$701,829.

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has one item that qualifies for reporting in this category. The loss on a refunding of a bond will be deferred.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)  
Deferred outflows/inflows of resources (Continued)

position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item, which arises only under the modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Additionally, Deferred Inflows of resources related to the pension plan include differences between expected and actual experience, changes of assumptions, differences between projects and actual earning, and contributions subsequent to the measurement date.

Fund Equity

In March 2009, the GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaid items.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution. To modify or rescind a fund balance commitment, the governing body would approve a resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. The Board of Directors has granted the Superintendent and the Deputy Clerk/Business Manager the authority to classify portions of ending fund balances as assigned.
- Unassigned fund balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There are no assigned fund balances as of June 30, 2015.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Equity (Continued)

unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

To preserve a sound financial system and to provide a stable financial base, the governing body has adopted a minimum fund balance policy.

2. CASH AND INVESTMENTS

Deposits

Deposits with financial institutions are comprised of bank demand deposits and certificates of deposit. The total bank balance per the bank statements was \$2,691,079, of which \$583,911 was covered by federal depository insurance and the remainder is collateralized by the Oregon Public Funds Collateralization Program (PFCP). Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The District has an investment policy in accordance with state law, it is policy DFA on the District's website at [www.wlww.k12.or.us](http://www.wlww.k12.or.us).

Investments

Statutes authorize investing in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2015.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year, except one instance where the District exceeded the LGIP limitation. ORS 294.810 restricts the amount of surplus funds that may be placed in the LGIP.

**2. Cash and Investments (Continued)**

Cash and Investments at June 30, 2015, (recorded at fair value) consisted of:

Deposits with Financial Institutions:	2015	Reported In:	2015
Demand Deposits:			
Checking	796,202	Governmental Activities	\$ 112,238,620
Investments	\$ 112,631,779	Fiduciary Funds	1,189,361
Total	\$ 113,427,981	Total	\$ 113,427,981

There were the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in months)		
		Less than 3	3-18	18-59
State Treasurer's Investment Pool	\$ 27,631,779	\$ 8,285,670	\$ 19,346,109	\$ -
Total	\$ 27,631,779	\$ 8,285,670	\$ 19,346,109	\$ -

**Interest Rate Risk**

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date greater than eighteen months.

**Custodial Credit Risk - Deposits**

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2015, all bank balances were deposited at an approved depository as identified by the treasury and therefore insured.

**Credit Risk - Investments**

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated. The US Government investments held by the District were invested in a cash account with Davidson Fixed Income Management and Citigroup Funding, Inc.

**Concentration of Credit Risk**

At June 30, 2015, 100% of total investments were in the State Treasurer's Investment Pool and 0% in Government Securities (Bonds). State statutes do not limit the percentage of investments in either of these instruments. Oregon Revised Statutes require no more than 25 percent of the moneys of local government to be invested in bankers' acceptances of any qualified financial institution. At June 30, 2015, there was compliance with all percentage restrictions.

WEST LINN-WILSONVILLE SCHOOL DISTRICT 3JT  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 JUNE 30, 2015

5. LONG-TERM DEBT

The following changes occurred in Long-Term debt during the fiscal year ending June 30, 2015:

Issue Date	Interest Rates	Original Issue	Outstanding July 1, 2014	Issued	Matured And Redeemed	Outstanding June 30, 2015	Due Within One Year
May 2003	2.0-4.78%	\$ 74,997,238	\$ 47,544,645	\$ -	3,982,904	\$ 43,561,741	3,911,288
March 2004	2.0-4.78%	42,180,000	39,675,000	-	1,035,000	38,640,000	1,250,000
February 1, 2009	2.25%	98,000,000	84,595,000	-	84,595,000	-	-
July 10, 2013	.394-1.449%	98,000,000	14,775,000	-	7,890,000	6,885,000	3,380,000
March 15, 2015	2-5%	161,390,000	0	161,390,000	0	161,390,000	2,680,000
Total			186,589,645	161,390,000	97,502,904	250,476,741	11,221,288
Unamortized Premium/(Discount)			2,969,192	27,943,774	218,643	30,694,323	-
Total Long-Term Debt			\$ 189,558,837	\$ 189,333,774	\$ 97,721,547	\$ 281,171,064	\$ 11,221,288

Bonds Payable

Future maturities of bonds payable at June 30, 2015 are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>
2016	11,426,288	10,363,020
2017	11,877,387	10,590,750
2018	9,476,204	13,127,096
2019	9,876,753	13,688,572
2020	11,583,221	14,279,305
2021-2025	60,961,888	59,257,837
2026-2030	96,645,000	21,438,634
2031-2034	38,630,000	2,162,000
Total	<u>250,476,741</u>	<u>144,907,214</u>

All long-term debt obligations are payable from the general and debt service funds.

General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds are issued to provide funds for the acquisition and construction of school facilities. The original amount of general obligation bonds issued in current and prior years was \$439,007,238.

Advance Refunding Bonds

In July of 2002 general obligation refunding bonds were issued. The proceeds of the new bonds were placed in an irrevocable trust to provide for future debt service payments on the 1992 bonds. Accordingly,

5. LONG-TERM DEBT(CONTINUED)  
Advance Refunding Bonds (Continued)

the trust account assets and liability for the defeased bonds are not included in the basic financial statements.

In November of 2004, general obligation refunding bonds were issued. The proceeds of the new bonds were placed in an irrevocable trust to provide for future debt service payments on the 1997 bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the basic financial statements. The advance refunding was undertaken to reduce total debt service payments over the next 12 years by \$1,509,930.

On June 30, 2015, \$21,985,000 of bonds outstanding are considered defeased.

Pension Obligation Bonds

On March 1, 2004, limited tax pension obligation bonds totaling \$42,180,000, were issued to finance the unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the District's UAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the future required contribution rate.

6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Due to/from other funds at June 30, 2015 and transfers in and out for the year then ended are as follows:

	Due From Other Funds	Due to Other Funds	Transfers In	Transfers Out
General Fund	\$ 122,757	\$ -	\$ -	\$ 100,000
Debt Service Fund	506,425	-	-	-
Capital Projects Fund	178,105	-	-	-
Special Revenue Fund	-	807,528	100,000	-
Scholarship Fund	-	-	-	-
	<u>\$ 807,287</u>	<u>\$ 807,528</u>	<u>\$ 100,000</u>	<u>\$ 100,000</u>

Interfund balances represent amounts owed to or from the general fund for pooled cash and investments. The interfund transfers represent a subsidy from the General to the Food Service fund for operations.

7. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft or damage to and destruction of assets; errors and omissions; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. The amount of settlements did not exceed insurance coverage limits in any of the past three years.

**8. OTHER POST EMPLOYMENT BENEFITS**

**Early Retirement Stipends**

Plan Description - A single employer defined benefit supplemental early retirement program is maintained for qualifying employees. An early retirement stipend plan is provided for Teachers pursuant to a collective bargaining agreement. An early retirement stipend has also been established by administrative policy for Administrative, Confidential, and Supervisors employees (CSA Group). Qualifying teachers must have 15 years of full-time service with the District, eligible for PERS retirement (age 55 or 30 years of PERS service), and be hired before July 1, 2007. Eligible CSA employees must have 10 years of full-time service and be eligible for PERS retirement (age 55 or 30 years of PERS Service). No separate audited GAAP basis postemployment benefit plan report is available for the defined benefit plan. The optional early retirement program provides eligible employees with the following:

- For Teachers, \$500 per month for the earlier of 48 months, aged 62, or death.
- For CSA employees, \$500 per month for 48 months, or to the date of death, whichever occurs first.

There is no explicit assumption regarding the inflation rate, the plan has an investment return of 3% which is actually the discount rate since the plans are unfunded by GASB standards, and there are no projected salary increases or post-retirement benefit increases for the plan. This plan uses the level dollar amortization method.

Contributions and Funding Policy - The benefits from this program are fully paid and, consequently, no contributions by employees are required. There is no obligation to fund these benefits in advance. The only obligation is to make current benefit payments due each fiscal year. It has not been found necessary to establish a pension trust fund. Benefit payments are paid on a pay-as-you-go basis each year out of the General Fund.

An estimate of this liability for current retirees is done annually. There is no separately issued financial report for the plan. The annual expenditures recognized on a budgetary basis were approximately \$423,000.

Annual Pension Cost and Net Pension Obligation - The annual pension cost and net pension obligation (NPO) to the Early Retirement Stipend for the current year were as follows:

	2015	2014	2013
Annual Required Contribution	\$ 402,822	\$ 376,233	\$ 376,233
Interest on Net Pension Obligation	(11,387)	(7,171)	(5,984)
Adjustment to Annual Required Contribution	48,750	25,081	20,930
Annual Pension Cost	440,185	394,143	391,179
Contributions Made/Expected	(478,700)	(534,687)	(430,740)
Increase in Net Pension Obligation	(38,515)	(140,544)	(39,561)
NPO (Asset) at beginning of year	(379,569)	(239,025)	(199,464)
NPO (Asset) at end of year	\$ (418,084)	\$ (379,569)	\$ (239,025)
Percentage of Annual Pension Cost Contributed	108.7%	135.7%	110.1%

## 8. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

Actuarial methods and assumptions – The annual required contribution (ARC) for the current year was determined as part of the June 30, 2015 actuarial valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, investment rate of return of 3.5%, retiree trend rates which range from 50 to 64 as a percentage of otherwise eligible employees. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial accrued liabilities for benefits.

For the initial valuation, the Projected Unit Credit Method was the valuation method used to determine the Actuarial Accrued Liability.

Under this method, the Plan's benefit obligations for participants for past service are computed on a present value basis using projected benefits (including future accruals). The accrued liability is equal to a pro-rata portion of the total present value of benefits based on the ratio of services as of the valuation date to the projected service at assumed retirement (or other decrement).

The excess of the Actuarial Accrued Liability over Plan Assets is the Unfunded Actuarial Accrued Liability. The Unfunded Actuarial Accrued Liability for the Stipend Plan is amortized over a closed 15 year period.

Funding Status and Funding Progress - As of June 30, 2015, the actuarial accrued liability for stipend benefits was \$2,509,114, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,509,114. The covered payroll is \$26,244,046. Using a 15-year closed amortization period, the Annual Required Contribution (ARC) for 2015 has been actuarially determined to be \$402,822 for contributions.

### Post Employment Health Care Benefits

Plan Description - As a result of collective bargaining agreements and administrative policies, Teachers and CSA employees, are offered explicit post-employment medical benefits under a single-employer, defined benefit plan. Eligible teachers must have 15 years of full-time service, eligible for PERS retirement (age 55 or 30 years of PERS service), and be hired before July 1, 2007. Eligible CSA employees must have 10 years of full-time service and be eligible for PERS retirement (age 55 or 30 years of PERS Service). The optional post employment health care benefits provide eligible employees with the following:

- For Teachers, full family medical, dental, vision insurance benefits are provided (benefits pro-rated for employees working on a less than full-time equivalent basis). Benefits are payable to the earlier of age 62, or the retiree's date of death.
- For CSA employees, full family medical, dental, vision insurance benefits are provided (benefits pro-rated for employees working on less than a full-time equivalent basis). Benefits are payable until the retiree is medicare eligible or retiree's date of death. Administrative employees also receive life insurance coverage of \$200,000 until age 60 and coverage of \$50,000 until age 65.

**10. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)**  
**POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)**

Implicit medical benefits are offered to employee's enrolled in a health plan for 24 consecutive months immediately prior to retirement and eligible for retirement under PERS, or the surviving spouse of an employee

who would have been eligible. The younger spouse of a retiree who is Medicare-eligible is also eligible for implicit medical benefits through the District until the spouse is Medicare-eligible. No implicit benefits will be provided if an employee terminates employment prior to eligibility, regardless of death, disability, or any other reason. Implicit medical benefits include:

- Health Insurance coverage for retirees and their dependents on a self-pay basis.
- Coverage for the retiree ends the first day of the month that the retiree is eligible for Medicare.
- Coverage for the spouse ends the first day of the month that the spouse is eligible for Medicare.
- Unmarried children are covered until such time as they are no longer eligible.

The post-retirement healthcare plan is established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the implicit employer contribution.

An irrevocable trust (or equivalent arrangement) has not been established to account for the plan.

There is no explicit assumption regarding the inflation rate, the plan has an investment return of 3% which is actually the discount rate since the plans are unfunded by GASB standards, there are no projected salary increases or post-retirement benefit increases, and the healthcare cost trend rate for 2015 is 5% for Kaiser medical and 10% for non-Kaiser medical. This plan uses the level dollar amortization method.

Funding Policy - The benefits from the explicit program are fully paid for full time employees. Contributions are required on a pro-rated basis for employees working on less than a full-time equivalent basis. There is no obligation to fund these benefits in advance. Implicit benefits are paid by the participants on a self pay basis.

Annual Pension Cost and Net OPEB Obligation - The annual other postemployment benefit cost is calculated based on the annual required contribution of the employer (ARC), and amount actuarially determined in accordance within the parameter of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the OPEB obligation at the end of the year:

	2015	2014	2013
Annual Required Contribution (Explicit Benefits)	\$ 1,179,510	\$ 1,404,959	\$ 1,404,959
Annual Required Contribution (Implicit Benefits)	675,418	793,737	793,737
Interest on Net OPEB Obligation	144,398	126,826	100,684
Adjustment to Annual Required Contribution	<u>(245,568)</u>	<u>(209,403)</u>	<u>(166,240)</u>
Annual OPEB Cost	1,753,758	2,116,119	2,133,140
Contributions Made / Expected (Explicit Benefits)	(1,047,565)	(1,046,443)	(825,117)
Contributions Made / Expected (Implicit Benefits)	<u>(470,146)</u>	<u>(483,949)</u>	<u>(523,570)</u>
Increase in Net Pension Obligation	236,047	585,727	871,388
Net OPEB Obligation (Asset) at beginning of year	<u>4,195,927</u>	<u>3,610,200</u>	<u>2,738,812</u>
Net OPEB Obligation (Asset) at end of year	<u>\$ 4,431,974</u>	<u>\$ 4,195,927</u>	<u>\$ 3,610,200</u>
Percentage of APC contributed	86.54%	72.32%	63.23%

**10. Other Post Employment Benefits (CONTINUED)**  
**POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)**

Actuarial Methods and Assumptions - The annual required contribution (ARC) for the current year was determined as part of the June 30, 2015 actuarial valuation using the projected unit credit method. The objective of this method is to fund each participant's benefits under the plans as they accrue. The unfunded accrued liability is amortized over an open period of 30 years as a percentage of payroll. The actuarial assumptions included (a) a rate of return on investment of present and future assets of 3.5% compounded annually; (b) 60% of future retirees are assumed to cover a spouse under the health plan, and 10% of future retirees will elect to cover a child or children; (c) Medical claims for future retirees are blended rates, which range from 15-20% for paid participants and range from 20-80% for self paid participants, while dental claims are expected to be 15% greater for all dental premiums for all participants; (d) Medical premiums are expected to increase annually between 5-10% over the next ten years, while dental premiums are expected to increase between 3-5% annually over the next ten years; (e) retirement rates range from 0-30% between the ages of 50 and 65.

Funding Status and Funding Progress – As of June 30, 2013, the time of the last actuarial report, the plan was 0% funded. The actuarial accrued liability for benefits was \$21,675,468, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$21,675,468. The covered payroll was \$39,107,456, and the unfunded actuarial accrued liability as a percentage of active covered payroll was not applicable. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits. The annual expenditures recognized on a budgetary basis were approximately \$1,196,000.

**11. Pension Plan**

Plan Description – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employee defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at: [http://www.oregon.gov/pers/Pages/section/financial\\_reports/financials.aspx](http://www.oregon.gov/pers/Pages/section/financial_reports/financials.aspx).

- a. PERS Pension (Chapter 238). The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
  - i) Pension Benefits. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.
  - ii) Death Benefits. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:

**11. Pension Plan(Continued)**

- Member was employed by PERS at the time of death,
- Member died within 120 days after termination of PERS covered employment,
- Member died as a result of injury sustained while employed in a PERS-covered job, or
- Member was on an official leave of absence from a PERS-covered job at the time of death

iii)

Disability Benefits. A member with 10 or more years of creditable service who becomes disable from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

iv)

Benefit Changes After Retirement. Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

b)

OPSRP Pension Program (OPSRP DB). The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

i)

Pension Benefits. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

ii) Death Benefits. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

iii) Disability Benefits. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

**11. Pension Plan(Continued)**

- iv. Benefit Changes After Retirement. Under ORS 238A.210 monthly benefits are adjusted annually through cost of-living changes. The cap on the COLA will vary based on the amount of the annual benefits.

Contributions – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2011 actuarial valuation, which became effective July 1, 2013.

At June 30, 2015, the District reported a net pension asset of \$11,505,742 for its proportionate share of the net pension asset. The pension asset was measured as of December 31, 2012, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2012, the District's proportion was .51 percent.

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ -	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	22,201,422
Changes in proportion and differences between District contributions and proportionate share of contributions	130,909	-
	<hr/>	<hr/>
Subtotal - Amortized Deferrals (below)	-	22,201,422
	<hr/>	<hr/>
District contributions subsequent to measurement date	8,158,233	-

Amounts reported as deferred outflows or inflow of resources related to pension will be recognized in pension expense as follows:

<u>Year ending June 30,</u>	<u>Amount</u>
2016	\$ (5,521,897)
2017	\$ (5,521,897)
2018	\$ (5,521,897)
2019	\$ (5,521,897)
2020	\$ 17,077
Thereafter	-
Total	<u>\$ (22,070,513)</u>

**11. Pension Plan(Continued)**

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS system-wide GASB 68 reporting summary dated July 29, 2015. Oregon PERS produces an independently audited CAFR which can be found at:

[http://www.oregon.gov/pers/Pages/section/financial\\_reports/financial.aspx](http://www.oregon.gov/pers/Pages/section/financial_reports/financial.aspx).

Actuarial Valuations – The employer contribution rates effective July 1, 2013 through June 30, 2015, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

## Actuarial Methods and Assumptions:

Valuation date	December 31, 2012 rolled forward to June 30, 2014
Experience Study Report	2012, Published September 18, 2013
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of payroll as layered amortization bases over a closed period; Tier One/Tier Two UAL is amortized over 20 years and OPSRP pension UAL is amortized over 16 years
Asset valuation method	Market value of assets
Inflation rate	2.75 percent
Investment rate of return	7.75 percent
Projected salary increase	3.75 percent overall payroll growth; salaries for individuals are assumed to grow at 3.75 percent plus assumed rates of merit/longevity increases based on service
Mortality	Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation. Active members: Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation. Disabled retirees: Mortality rates are a percentage (65% for males and 90% for females) of the RP-2000 static combined disabled mortality sex-distinct table.

**11. Pension Plan(Continued)**

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2012 Experience Study which is reviewed for the four-year period ending December 31, 2012.

Discount Rate – The discount rate used to measure the total pension liability was 7.75 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s proportionate share of the net pension liability to changes in the discount rate – The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent than the current rate.

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share of the net pension liability	\$ 24,365,006	\$ (11,505,742)	\$ (41,843,981)

Changes in Plan Provisions Subsequent to Measurement Date: The Oregon Supreme Court on April 30, 2015, ruled in the Moro decision, that the provisions of Senate Bill 861, signed into law in October 2013, that limited the post-retirement COLA on benefits accrued prior to the signing of the law were unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before the bills were passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a 2% increase annually. PERS will make restoration payments to those benefit recipients. PERS members who have accrued benefits before and after the effective dates of the 2013 legislation will have a blended COLA rate when they retire. Oregon Public Employees Retirement System Notes to the Schedules of Employer Allocations and Pension Amounts by Employer As of and for the Fiscal Year Ended June 30, 2014. This is a change in benefit terms subsequent to the measurement date of June 30, 2014, which will be reflected in the next year’s actuarial valuations. The impact of the Moro decision on the total pension liability and employer’s net pension liability (asset) has not been fully determined. However, PERS’ third-party actuaries have estimated the impact of the Moro decision under one possible methodology, which is summarized below (dollars in millions). Estimates have been rounded to the nearest \$10 million.

**11. Pension Plan(Continued)**

June 30, 2014 Measurement Date for all PERS Employers (in millions)		
	Pre- Moro	Post- Moro
Net pension liability		
Total pension liability	\$ 63,135	\$ 68,050
Fiduciary net position	65,402	65,400
Net pension liability (asset)	<u>-2,267</u>	<u>2,650</u>

Additional disclosures related to Oregon PERS not applicable to specific employers are available online at the below website, or by contacting PERS at the following address: PO BOX 23700 Tigard, OR 97281-3700,

[http://www.oregon.gov/pers/EMP/docs/er\\_general\\_information/opers\\_gasb\\_68\\_disclosure\\_information\\_revised.pdf](http://www.oregon.gov/pers/EMP/docs/er_general_information/opers_gasb_68_disclosure_information_revised.pdf)

**12. RESTATEMENT OF PRIOR YEAR NET POSITION**

Due to the implementation of GASB Statements 68 and 71, a restatement of the prior year net position was required to record the net pension liability at the prior measurement date and reclassify prior year pension contributions from expenses to deferred outflows:

Net position-Beginning as previously reported	\$ 61,182,272
Pension asset for prepaid as of 6/30/14	(22,642,346)
Proportionate share of net pension liability at prior measurement date	(25,903,343)
Net outflow/(inflows) of resources (prior year employer contributions)	7,667,387
Net position-Beginning as restated	<u>\$ 20,303,970</u>

**13. FUND BALANCE CONSTRAINTS**

The specific purposes for each of the categories of fund balance as of June 30, 2015 are as follows:

Fund Balances:	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	<u>Special Revenue Fund</u>	<u>Total</u>
<b><u>Nonspendable:</u></b>					
Prepaid & Inventory	\$ 149,028	\$ -	\$ -	\$ 60,678	\$ 209,706
<b><u>Restricted:</u></b>					
Grants and other purposes	-	-	-	322,844	322,844
Debt service	-	1,668,258	-	-	1,668,258
Future capital projects	-	-	98,010,357	-	98,010,357
	-	1,668,258	98,010,357	322,844	100,001,459
<b><u>Committed to:</u></b>					
Future Operations	-	-	-	-	-
	-	-	-	-	-
<b>Unassigned:</b>	5,161,253	-	-	-	5,161,253
<b>Total Fund Balances</b>	<b>\$ 5,310,281</b>	<b>\$ 1,668,258</b>	<b>\$ 98,010,357</b>	<b>\$ 383,522</b>	<b>\$ 105,372,418</b>

**14. COMMITMENTS AND CONTINGENCIES**

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

There is participation in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2015 have not been conducted. Accordingly, compliance with grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although such amounts are expected by management to be immaterial.

**15. PROPERTY TAX LIMITATIONS**

The State of Oregon imposes a constitutional limit on property taxes for schools and nonschool government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property

15. PROPERTY TAX LIMITATIONS(CONTINUED)

market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

WEST LINN-WILSONVILLE SCHOOL DISTRICT 3JT  
CLACKAMAS COUNTY, OREGON

STATISTICAL SECTION

## Statistical Section

---

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<b><u>Contents</u></b>	<b><u>Page</u></b>
<b><i>Financial Trends</i></b> These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	58
<b><i>Revenue Capacity</i></b> These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	62
<b><i>Debt Capacity</i></b> These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	64
<b><i>Demographic and Economic Information</i></b> These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	68
<b><i>Operating Information</i></b> These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	72

Sources:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 in 2002-03; schedules presenting government-wide information include information beginning in that year.

1. Permanent tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanent rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the November and May election every year. Rates for debt service are based on each year's requirements.

2. Local Option taxes are assessed at \$1.50 per thousand AV. The district-wide average rate for 2014-15 is \$.58. Local option taxes are assessed on a property by property basis. Not all properties pay at the highest \$1.50 rate.

**Note:**

Net taxes levied are combined for Clackamas and Washington counties. Responsibility for the collection of all property taxes rests within the County's Department of Assessment and Taxation. Current taxes are assessed as of July, become due as of November 15 and become delinquent as of May 15. Assessed taxes become a lien upon real property in the fourth year of delinquency. Proceeds of tax sales are applied to delinquent taxes, interest and other costs attributable to the property sold.

**Outstanding Debt by Type**  
**Last Ten Fiscal Years**  
*(dollars in thousands, except per capita)*

Fiscal Year	Governmental Activities			Outstanding Debt Per Capita	Outstanding Debt as a Percentage of Personal Income (1)

<sup>1</sup> ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market values of all taxable properties within the District based on the following:

<sup>A</sup> For each grade from kindergarten to eighth for which the District operates schools, fifty-five one-hundredths of one percent (.0055) of the real market value.

<sup>B</sup> For each grade from ninth to twelfth for which the District operates schools, seventy-five one-hundredths of one percent (.0075) of the real market value.

Allowable Percentage of Real Market Value:

<sup>A</sup> Kindergarten through eighth grade, 9 x .0055	4.95%
<sup>B</sup> Ninth through twelfth, 4 x .0075	<u>3.00%</u>
Allowable Percentage	<u><u>7.95%</u></u>

December 22, 2015

### Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of West Linn-Wilsonville School District 3JT as of and for the year ended June 30, 2015, and have issued our report thereon dated December 22, 2015. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### Compliance

As part of obtaining reasonable assurance about whether the West Linn-Wilsonville School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe the West Linn-Wilsonville School District 3JT was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except as noted on page 24 of this report.

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

We noted matters involving the internal control structure and its operation that we consider to be significant deficiencies under standards established by the American Institute of Certified Public Accountants, which are noted in the schedule of findings and questioned costs on page 80.

This report is intended solely for the information and use of the Board of Directors, Management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

**Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards***

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Linn-Wilsonville School District 3JT as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 22, 2015.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133**

### **Report on Compliance for Each Major Federal Program**

We have audited West Linn-Wilsonville School District 3JT's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2015. The major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

### **Opinion on Each Major Federal Program**

In our opinion, West Linn-Wilsonville School District 3JT, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

### **Report on Internal Control Over Compliance**

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink that reads "Matthew Graves". The signature is written in a cursive, flowing style.
