October 27, 2006

Board of Directors West Linn-Wilsonville School District 3J PO Box 35 West Linn, OR 97068

In accordance with the provisions of Oregon Revised Statutes Sections 297.405 through 297.555, known as Municipal Audit Law, submitted herewith is the Comprehensive Annual Financial Report (CAFR) of West Linn-Wilsonville School District 3J, Clackamas and Washington counties, Oregon for the year ended June 30, 2006.

This report was prepared by the Business Office of West Linn-Wilsonville School District 3J. The responsibility for the completeness, fairness, and accuracy of the data presented and all accompanying disclosures rests with the District. To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather that absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Pauly, Rogers and Co., P.C. a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2006, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal control and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are presented in the Single Audit Section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the

basis financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

### REPORT CONTENTS

The Comprehensive Annual Financial Report is presented in five sections. These sections and their components are as follows:

The **Introductory Section** includes this Letter of Transmittal, the District's organizational chart, and the District's financial reporting awards.

The **Financial Section** includes the independent auditor's report, Management Discussion and Analysis, basic financial statements for the entity as a whole, notes to the basic financial statements, required supplemental information and supplemental information.

The **Statistical Section** includes government wide summary financial data, ten years of summary fund financial data, debt computations, and a variety of demographic, economic and general information.

The **Audit Comments and Disclosure Section** contains the disclosures required by the Minimum Standards or Audits for Oregon Municipal Corporations.

The **Single Audit Section** contains reports required by the Single Audit Act of 1984 and OMB Circular A-133, including the schedule of expenditures of federal awards.

### THE DISTRICT

The District is a municipal corporation governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present West Linn-Wilsonville School District No. 3J (the primary government) and any component units. Component units, as established by GASB statement 14, are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. Three Rivers Charter School is a component unit of the West Linn-Wilsonville School District.

Under Oregon State law the District is responsible for educating the children of the District. The District discharges this responsibility by building, operating, and maintaining school facilities; developing and maintaining approved educational programs and courses of study, including vocational programs and programs for handicapped students, in accordance with State standards; and carrying out programs for transportation and feeding of pupils in accordance with District, State, and Federal requirements.

The District is located seven miles south of the City of Portland, Oregon. Within the District's 42 square miles are the cities of West Linn and Wilsonville, as well as several unincorporated towns and areas of Clackamas and Washington Counties. The District was originally formed in 1933 through the consolidation of three smaller districts.

The District and surrounding communities have experienced steady constant growth over the past 2-1/2 decades. The estimated population of the District has grown from 16,876 in 1980 to 40,570 in 2006. Enrollment as of September 30, 2006 was 8,315, which compares to 3,277 in fiscal year 1980. The real market

value of property located in the district has grown from just under \$285 million to over \$6.46 billion in the same period.

The early economy of this area grew as a result of fertile agricultural and timberlands and its access to the Willamette and Columbia rivers. The area then began developing as a suburb of Portland, but over the past two decades has developed its own economic base which includes high technology firms and retail trade and distribution. Despite its rapid development, however, the County still contains prime agricultural land and a strong agricultural economy.

Interstate Highway 5, which runs through southwestern Clackamas County, has proven to be a major economic stimulus. The area between Wilsonville and Lake Oswego has seen greatly increased commercial and retail activity.

To the south, in the Wilsonville area, the close proximity of I-5 has encouraged warehousing and distribution activities, which require area for expansion and easy transportation connections. Retail stores have become more prominent in the area.

Easy access to the freeway system has also benefited those areas along Interstate Highway 205, which bisects the County and the District. This bypass link of I-5 runs between Wilsonville in the south and Clark County, Washington to the north. I-205 also connects Clackamas County to Portland International Airport. Most of the segments through Clackamas County were completed during the mid-1970s. At that time major retail and commercial developments occurred in the areas bordering the freeway.

### **ECONOMIC CONDITION**

In November, 1996, the voters of the State of Oregon voted by referendum a property tax limitation measure known as "Measure 47." This measure as amended by Measure 50 along with Measure 5, which was approved in November 1990, provides two property tax limitations in the Oregon Constitution. Measure 5 limits the property tax rate to \$5 per \$1,000 in real market value for schools; Measure 50 is a limitation that is based on the assessed value of each parcel of property. Measure 50 was initiated in 1997 by "cutting" the tax on each property to the lesser of the 1996 total property tax reduced by 10% or the 1995 total property tax for schools. Measure 50 also "caps" total operating taxes on each property to a 3% annual increase. Neither of these constitutional measures limits taxes for capital construction bonds.

Legislation passed subsequent to Measure 50 allows school districts to refer to voters a "local option" tax. This tax can be levied for up to five years for operation purposes. The tax cannot collect more than the \$5.00 per thousand of real market value allowed under measure 5 from any property in the school district. On May 16, 2000, voters of the West Linn-Wilsonville School District passed a local option tax. This five-year taxing authority commenced during the 2000-01 fiscal year and ended June 30, 2005. On November 2, 2004 57% of district voters approved another Local Option Tax Levy at the same \$1.50 per thousand assessed value rate that passed May 16, 2000. This taxing authority begins with fiscal 2005-06 and runs through fiscal 2009-10. The average "Local Option" taxpayer burden during 2005-06 was \$1.21 per thousand assessed value.

In response to the rate limitation of Measure 5, the state legislature employs a funding formula which equalizes the annual revenues to each school district based on a per pupil allocation. Excluding local option taxes, individual school districts are only indirectly dependent upon local property taxes for operating purposes.

Oregon has experienced one of the highest unemployment rates in the nation. The most recent rate of 5.4% is coming in line with the national average.

The past economic downturn has challenged legislators to try and find new ways to fund schools. Unlike most other industries, the K-12 public education sector has a presence in every community in Oregon and effects local economies in many ways. K-12 spending supports significant economic activity for workers and

businesses throughout Oregon. Given Oregon's weak economy and related budget shortfalls, policymakers are beginning to understand the relationship between public sector spending and local economies, as well as the economic consequences of their fiscal decisions. It is believed that Oregon's economy will begin to experience steady growth in the 2007-09 biennium. Oregon's current personal income-reliant revenue base will continue to have the stability and adequacy shortcomings it has experienced. The taxation base is not broad enough to raise the revenues needed for public education and other needed services the state must provide. Many people believe that Oregon must look for a more diverse tax structure to meet the state's future needs.

### Major Programs

The mission of the West Linn-Wilsonville School District is constantly to improve the learning environment in order to develop and nurture each student's potential for life-long intellectual and cultural growth. The district measures its success almost exclusively by the level of student learning and achievement.

Launching a new superintendency, and in response to local, state and national mandates for school improvement, including the Oregon Educational Act for the 21st Century, the school district held two Futures Conferences in the spring of 1994. These major events, preceded by a year of planning, were a part of our strategic planning to move West Linn-Wilsonville Schools into the 21st century. The Futures Conferences sought common ground through dialogue using the Marvin Weisborg conference model. Participants painted broad strokes of consensus about the qualities this community would like its school district to exemplify in the future. One hundred fifty students, teachers, administrators, parents, and members from all sectors of the community spent two-and-a-half rigorous days at each conference.

The six vision themes from these Futures Conferences presented the community and schools with an inviting picture of possibility and launched the district on a challenging and rewarding journey. These themes arch over and create lines through every dimension of the work of this school district. These vision themes guide the work of school board members, teachers, site councils, administrators, children, school support staff and, to an increasing degree, community members in ways that are both global and specific.

The work of this school district is to enliven and make real these vision themes:

Personal and Academic Excellence, Personalized Education, Circle of Support, Community Partnerships,

Educating the Whole Child, Integrating Technologies in Daily Learning.

Staff development and in-service training continue to be a major focus and emphasis in the district. We are committed to the strategy of improving the skills and training of our staff in order to deliver more effective services to students and parents. The district continues to make major investments in staff training and development.

November 5, 2002 voters authorized the sale of \$75 million in general obligation debt. This bond issue was sold June 17, 2003. Most of the bond proceeds were reserved for construction projects while \$3.1 million was used to retire the 2000 Full Faith issue. Construction projects included major upgrades to both Wilsonville and West Linn High Schools, as well as smaller projects at the primary and middle schools in the district. Only a small percentage of construction dollars remained at June 30, 2006 as most projects were 100% complete.

### **FINANCIAL INFORMATION**

#### Cash Management

The Business Office maintains an aggressive cash management program with a philosophy of maximizing the yield while safeguarding the investment principal. All cash temporarily idle during the year is invested in direct obligations of the Treasury of The United States, commercial bank certificates of deposit, bankers' acceptances and the Oregon State Treasurer's Short-Term Investment Fund. This state operated short-term investment fund maintains an average maturity of 90 days.

Interest earnings for the year ended June 30, 2006 were \$924,818 down \$143,249 from the previous year. The decline in interest income reflected the reduced cash balance as capital construction projects were completed.

While there is no formally adopted investment policy, the Board of Directors does adopt a resolution at the beginning of each year designating the approved Depositories. Allowable investment instruments include only those allowed governmental units under Oregon Statute. Additional discussion of the District's cash management and investments is contained in the Notes To The Financial Statements, and in the section titled "Audit Comments and Disclosures Required by State Regulations".

The District has complied with the disclosure requirements of Governmental Accounting Standards Board Statement 3 regarding Deposits with Financial Institutions and Investments as set forth Note 2 to the Basic Financial Statements.

While there is no formally adopted investment policy, the Board of Directors does adopt a resolution at the beginning of each year designating the approved Depositories. Allowable investment instruments include only those allowed governmental units under Oregon Statute. Additional discussion of the District's cash management and investments is contained in the Notes To The Financial Statements, and in the section titled "Audit Comments and Disclosures Required by State Regulations".

### **Risk Management**

The District to date has elected to transfer risk other than that represented by minimal deductible amounts per loss by purchasing insurance. Worker's Compensation insurance is purchased on a fiscal year basis. The district currently enjoys a favorable workers comp modification rate. Property/Casualty insurance is currently in force at replacement value with a \$100,000 per loss deductible. Comprehensive General Liability insurance provides \$5,000,000 Basic coverage. Comprehensive Automotive liability insurance provides \$1,000,000 Basic coverage. Excess insurance over the Basic coverage is in force at \$5,000,000. The district is also covered against earthquake and flood damage with an amount currently in force of \$5,000,000 subject to a 5% deductible per loss.

**Pension and Other Post Employment Benefits.** The District contributes to the Oregon Public Employees Retirement Fund, a defined benefit pension plan administered by the Oregon Public Employees Retirement System (PERS). PERS provides retirement and disability benefits, post employment health care benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

In addition, the District provides early retirement and post employment health care benefits for certain retirees. As of the end of the current fiscal year, there were 70 retired employees receiving these benefits. The District fully funds each year's annual required contribution to the early retirement plan. The District finances the post employment health care benefits on a pay-as-you-go basis. GAAP do not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

Additional information on the District's pension arrangements and post employment benefits can be found in Note 7 and 8 on pages 28-29, in the notes to the basic financial statements.

### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Linn-Wilsonville School District for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the thirteenth consecutive year that the district has achieved this prestigious award. In order to be awarded a Certificate of

Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **ACKNOWLEDGMENTS**

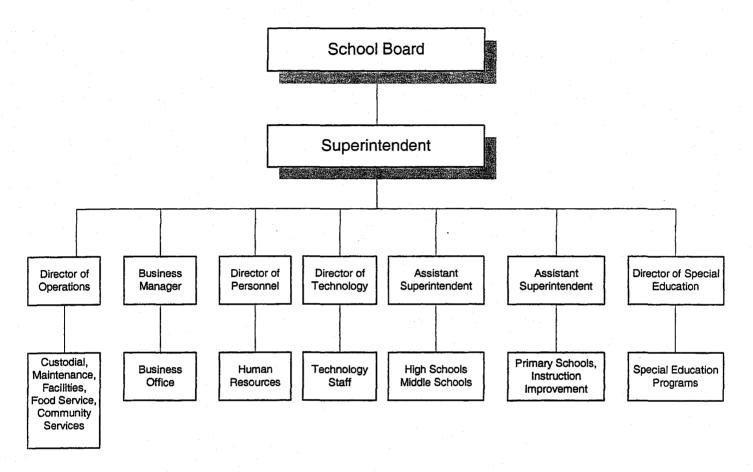

We wish to express our appreciation to the staff of the Business Office and members of other District departments who assisted in the preparation of this Comprehensive Annual Financial Report. We also wish to extend our appreciation to the members of the Board of Education, administrators, employees, and citizens of the district whose continued cooperation, support, and assistance have contributed greatly to the financial stability of the West Linn-Wilsonville School District.

Respectfully submitted,

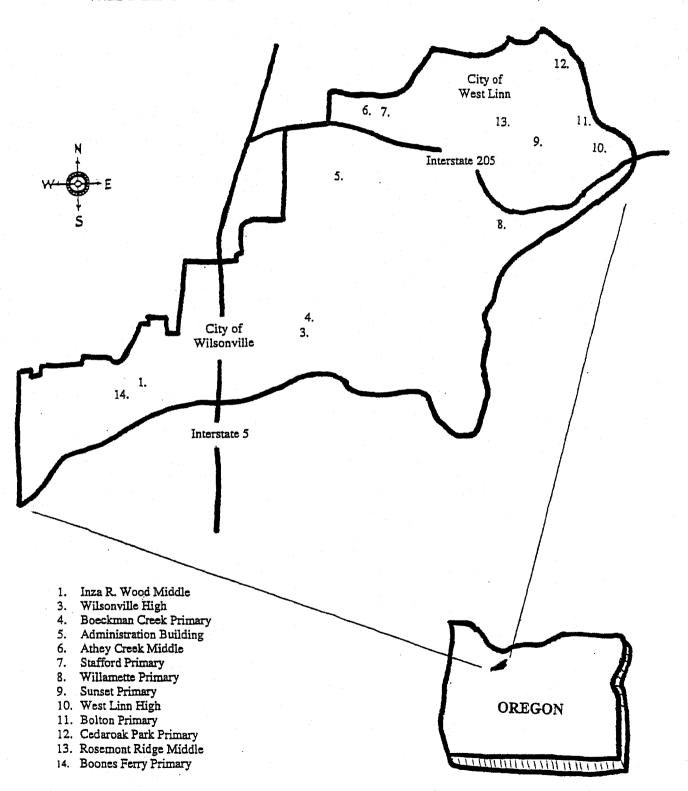

Nagu L. Waek Roger L. Woehl, Superintendent

R. William Knowles, Business Manager

To the Board of Directors West Linn-Wilsonville School District 3J Clackamas County, Oregon

### INDEPENDENT AUDITORS' REPORT

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the West Linn-Wilsonville School District 3J, Clackamas County, Oregon, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the West Linn-Wilsonville School District 3J, Clackamas County, Oregon, at June 30, 2005 and the respective changes in financial position and cash flows, where applicable, thereof for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our reports dated October 27, 2006, on our consideration of West Linn-Wilsonville School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. Those reports are an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The Managements' Discussion and Analysis, as listed on the table of contents, is not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Linn-Wilsonville School District's basic financial statements. The Supplementary Information, including budgetary comparison schedules as listed in the Table of Contents, is presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, as listed in the table of contents, is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. The Supplementary Information and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Schedule of Expenditures by Function/Object – General Fund and Supplemental Information on pages 43 through 45 are presented for purposes of additional analysis as required by Oregon Department of Education, however, we did not audit the information and express no opinion on it.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Valg Roges and Co., P.C. PAULY, ROGERS AND CO., P.C.

### WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2006

As management of West Linn-Wilsonville School District 3J (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2006.

### FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets of the District exceeded its liabilities at June 30, 2006 by \$34,461,348.
- The District's governmental funds report combined ending fund balance of \$5,096,042.
- The District's net assets increased by \$10,205,634, including a prior period adjustment

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains 'supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements**. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

The Statement of Net Assets. The statement of net assets presents information on all of the assets and liabilities of the District at year end. Net assets are what remain after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities. The statement of activities presents information showing how the net assets of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net assets. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

 Governmental activities. Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues. **Fund financial statements**. The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Linn-Wilsonville School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Assets and Activities.

The District maintains 31 individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Debt Service, and Capital Projects Funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided as Supplemental Information.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as the government-wide financial statements, only in more detail.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's progress in funding its obligation to provide pension benefits to its employees

### GOVERNMENT-WIDE FINANCIAL ANALYSIS

A comparative analysis discussing and analyzing significant differences is provided below.

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$34,461,348 at June 30, 2006.

Capital assets, which consist of the District's land, buildings, building improvements, construction in progress, vehicles, and equipment, represent about 48 percent of total assets. The remaining assets consist mainly of investments and cash, grants, and property taxes receivable.

The District's largest liability is for the repayment of general obligation bonds. Current liabilities, representing about 5 percent of the District's total liabilities, consist almost entirely of payables on accounts, payroll withholdings, and the current portion of long-term debt.

Net Assets of the District were comprised of the following:

	<u></u> J	une 30, 2006	 une 30, 2005	 Change	
Current and Other Assets Capital Assets	\$	49,996,892 171,507,759	\$ 75,063,440 147,835,489	\$ (25,066,548) 23,672,270	
Total Assets		221,504,651	 222,898,929	 (1,394,278)	
Current Liabilities Long-Term Liabilities		6,935,527 180,107,776	 9,740,146 188,903,069	(2,804,619) (8,795,293)	
Total Liabilities		187,043,303	 198,643,215	 (11,599,912)

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resource's available for spending at the end of a fiscal year.

At June 30, 2006, the District's governmental funds reported combined ending fund balances of \$5,096,042, a decrease of \$20,533,577 in comparison with the prior year. This decrease was due in large part to the continued spending out of construction bond proceeds.

General Fund. The General Fund is the chief operating fund of the District. As of June 30, 2006, unreserved fund balance was \$790,382. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents about 3 percent of total General Fund expenditures.

The fund balance decreased by \$207,932 during the current fiscal year. This decrease was attributable to the State of Oregon providing more funding in the first year than the second year of the biennium. The decrease in ending fund balance is budgeted in fiscal 2006-07.

Debt Service Fund. As of June 30, 2006 the ending fund balance is \$2,954,391, a decrease of \$186,900 as compared to prior year. This balance is consistent with what is required to service general obligation debt between July 1, 2006 and late November 2006 when taxes are received from the treasurers of both Clackamas and Washington Counties.

Capital Projects Fund. The Capital Projects Fund has a total fund balance of \$1,155,172, all of which is designated for ongoing capital projects, as authorized by District voters in the November 2002 election. The fund balance decreased by \$20,246,929 during the current fiscal year. This decrease was attributable to expenditures for ongoing capital projects. The decrease in ending fund balance is budgeted in fiscal 2006-07.

### GENERAL FUND BUDGETARY HIGHLIGHTS

The Board approved a supplemental budget June 13, 2006, that increased appropriations in the support services function of the General fund by \$350,000. This supplemental budget also increased the Enterprise and Community Services function in the Special Revenue fund by \$200,000.

### CAPITAL ASSET AND DEBT ADMINISTRATION

**Capital assets.** The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. As of June 30, 2006, the District had invested \$171,507,759 in capital assets, net of depreciation.

The major capital asset events for the year include:

- Completion of a major addition at West Linn High School
- Completion of a major addition at Wilsonville High School

Additional information of the District's capital assets can be found in the notes to the financial statements.

**Long-term debt**. At the end of the current fiscal year, the District had total debt outstanding of \$180,107,776. Please refer to the notes to the financial statements for more information.

Additional information on the District's long-term debt can be found in notes to the financial statements on pages 26-27.

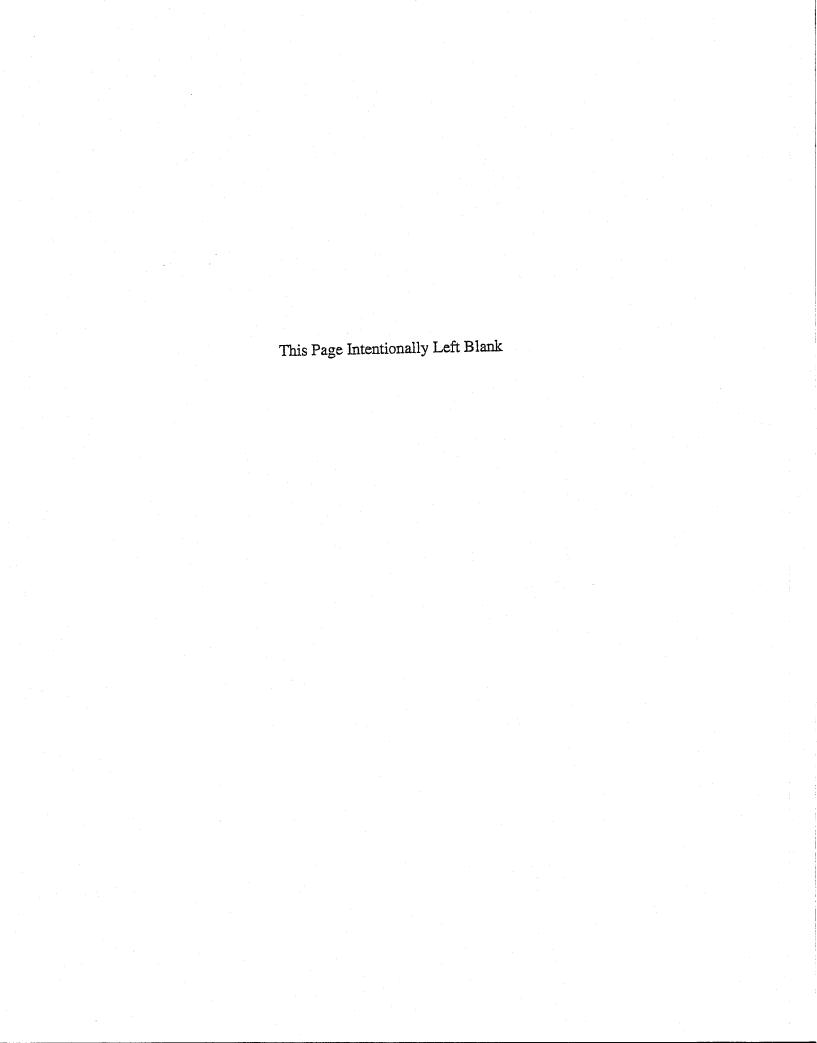

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The 2006-07 budget was built on state revenue assumptions that appear to be holding steady for this the second year of the legislative biennium.

### REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Finance Officer at 22210 SW Stafford Road, West Linn, Oregon 97068.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2006

NET CHANGE IN FUND BALANCE		\$	(20,533,577)
Amounts reported for governmental activities in the Statement of Activities are different because:			
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.  Expenditures for capital assets (net)  Less current year depreciation	24,656,805 (3,522,643)		21,134,162
Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Assets, however, issuing long-term debt increases liabilities.  Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.  Prepaid Pension asset amortization  Bond premium amortization  Bond issue cost amortization  Debt principal repaid	(1,617,310) 149,639 (114,194) 8,500,000		6,918,135
Investments are recorded at amortized cost in the governmental funds. On the statement of net assets investments are recorded at fair market value. This amount represents the adjustment to fair market value for investments in securities.			77,454
The statement of revenues, expenses and changes in fund balance contains an adjustment for inventory, which is allocated to the functions on the statement of activities.			151
In the Statement of Activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as an interest expense when due.			35,958
Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.			(115,373)
Compensated absences and early retirement obligations are recognized as an expenditure in the governmental funds when they are paid. In the Statement of Activities compensated absences and early retirement obligations are recognized as an expenditure when earned.			
Compensated absences Early retirement obligations	4,962 145,654		150,616

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# Reporting Entity

West Linn-Wilsonville School District No. 3J is a municipal corporation governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present West Linn-Wilsonville School District No. 3J (the primary government) and any component units. Component units, as established by the Government Accounting Standards Board (GASB) Statement 39, are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the basic financial statements. West Linn-Wilsonville School District No. 3J has two component units, the Three Rivers Charter School and the Art Tech Charter School are included in the School District's reporting entity because the Board of Directors of the District has consent over the charter of the Three Rivers Charter School and the Art Tech Charter School, and their exclusion from the District's financial statements would cause the District's financial statements to be misleading or incomplete. Detailed information about the Charter School's budgetary compliance and compliance with laws and regulations is contained in the Component Unit Financial Reports of Three Rivers Charter School and the Art Tech Charter School which are issued separately.

### **Basis of Presentation**

### **Government-wide Financial Statements**

The Statement of Net Assets and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District, except fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities, however interfund services provided and used are not eliminated in the process of consolidation. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Net assets are reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# **Basis of Presentation (Continued)**

#### **Fund Financial Statements**

The fund financial statements provide information about the District's funds including those of a fiduciary nature. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

Debt Service Fund – This fund accounts for the payment of principal and interest on the District's General Obligation Bond and PERS Bond issues. The principal sources of revenue are property taxes and charges to other funds.

Capital Projects Fund - This fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds and interest earnings.

Special Revenue Fund — This fund accounts for revenues and expenditures designated for specific programs. The principal revenue sources are grants and contributions.

Additionally, the District reports the following other fund types:

### Fiduciary Funds

The Agency fund accounts for the transactions of the District's student body activity accounts. The private-purpose trust fund accounts for private contributions used for scholarships.

### Measurement Focus and Basis of Accounting

Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# Measurement Focus and Basis of Accounting (Continued)

have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Agency fund financial statements report only assets and liabilities and therefore, have no measurement focus. However the accrual basis of accounting is used to recognize receivables and payables.

### Cash, Cash Equivalents and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, saving deposits, money market deposits, investments in the State of Oregon Treasurer's Local Government Investment Pool (LGIP) and cash with county treasurers.

The District's investments consist of time certificates of deposit, banker's acceptances, commercial paper and U.S. Government Agency securities. Time certificates of deposits are stated at cost which approximates fair value. Investments, other than time certificates of deposit, that have a remaining maturity at the time of purchase of one year or less are state at amortized cost. All other investments are state at fair value, or estimated fair value. The LGIP is stated at cost which approximates fair value. Fair value of the LGIP is the same as the District's value in pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

### Accounts and Other Receivables

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# **Property Taxes Receivable**

Property taxes are levied and become a lien on July 1. Collection dates are November 15, February 15, and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Uncollected property taxes are recorded on the statement of net assets. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

### Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

### Supply Inventories and Prepaid Items

Supply inventories are stated at cost using first-in, first-out (FIFO) method. Any donated inventories are stated at their estimated fair market value. The cost of inventory items are recognized as an expenditure when purchased (purchase method) for budgetary purposes. A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when consumed and are stated at their fair market value based on guidelines provided by the USDA. Commodities on hand at year end are recorded as deferred revenue. As a result, fund balance on the balance sheet has not been reserved for inventories of donated commodities. All other inventories in the governmental funds have been equally offset by an adjustment for inventory recorded under the consumption method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items both in the government-wide and fund financial statements.

### **Capital Assets**

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of three years. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements

10 to 50 years

Equipment

5 to 20 years

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# **Retirement Plans**

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged as expenditures.

The District has a deferred compensation plan available to its employees wherein they may execute an individual agreement with the District for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation, or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one, which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets and liabilities of the District.

# **Compensated Absences**

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignation and retirements.

### Long-term Debt

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements bond premiums and discounts, as well as bond issuance costs, are recognized when incurred and not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# <u>Budget</u>

A budget is prepared and legally adopted for each governmental fund type and pension trust fund on the modified accrual basis of accounting. The agency fund is not required to be budgeted. A budget is prepared for two areas of the District's Captial Project Fund because the individual funds are associated with specific bond proceeds, however, the legal level of budgetary control is at the combined level. The budgetary basis of accounting is substantially the same as accounting principles generally accepted in the United States of America basis, except capital outlay expenditures, including items below the District's capitalization level, are budgeted by major function in governmental fund types, inventories are budgeted as expenditures when purchased. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. During the year, four appropriation transfers were made. Appropriations lapse at the end of each fiscal year. Expenditures of the various funds were within authorized appropriations, except for the General fund, which overspent Support Services by \$761,818; the Debt Srevice Fund which overspent Debt Service by \$2,272,946, the Special Revenue fund which overspent Support Services by \$18,710 and Other Objects by \$17,745, and the Earl Anderson Scholarshp Fund, which overspent Supporty Services by \$500.

### Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

### 2. CASH AND INVESTMENTS

# **Deposits**

Deposits with financial institutions are comprised of bank demand deposits and certificates of deposit. The total bank balance per the bank statements was \$6,091,163. Of these deposits, \$352,219 were covered by federal depository insurance, \$1,434,736 by certificates of participation backed by securities held by financial institutions acting as agents for the District in the District's name. For deposits in excess of federal depository insurance, Oregon Revised Statutes require the depositor institution to maintain on deposit with the collateral pool manager securities having a value not less than 25% of the outstanding certificates of participation issued by the pool manager. This collateral is held in the name of the bank(s). The remaining \$4,304,208 was not collateralized. State statutes govern the District's cash management policies, because the District does not have an official investment policy. Statutes authorize the District to invest in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

# **Investments**

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2006.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. There is no material difference between the fair value of the District's position in the State Treasurer's Local Government Investment Pool and the value of the pool shares at June 30, 2006. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year, except as noted above regarding collateralization.

# 2. Cash and Investments (Continued)

Cash and Investments at June 30, 2006, (recorded at fair value) consisted of:

Deposits With Financial Institutions:	2006 Reported in:		. 2006		
Demand Deposits:			<b>Governmental Activities</b>	\$	9,470,099
Checking	\$	3,600,754	Component Unit		7,414
Cash with Fiscal Agents		227,672	Fiduciary Funds		1,162,701
Investments		6,811,788			
			Total	\$	10,640,214
Total	\$	10,640,214			

The Component Unit's cash reported above is included because the operations of Art Tech Charter School are run through the District's operating account, however are reported in the separately issued financial statements of that School, and on the District's government-wide financials statements.

The District had the following investments and maturities:

Investment Type		Fair Value	 Less than 3	3-18	18-59	
State Treasurer's Investment Pool	\$	4,572,108	\$ 4,572,108 \$	· .	67%	
OSBA Capitalized Interest Bonds & Notes		244,680	244,680	· . •	4%	
Municipal Issues	-	1,995,000	 -	1,995,000	29%	
Total	_\$_	6,811,788	\$ 4,572,108 \$	1,995,000 \$	1	

### Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. The District does not have any investments that have a maturity date.

### Credit Risk

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

### **Concentration of Credit Risk**

At June 30, 2006, the District had 67% of total investments in the State Treasurer's Investment Pool, 4% in OSBA Capitalized Interest Bonds and Notes, and 29% in Municipal Issues. State statutes do not limit the percentage of investments in either of these instruments. Oregon Revised Statutes require no more than 25 percent of the moneys of local government to be invested in bankers' acceptances of any qualified financial institution. At June 30, 2006, the District was in compliance with all percentage restrictions.

# WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J Notes to Basic Financial Statements June 30, 2006

# 3. RECEIVABLES

Receivables are comprised of the following as of June 30, 2006:

Property taxes Other Receivables	\$ 1,484,412 1,781,619
Total	\$ 3,266,031

# 4. CAPITAL ASSETS

Capital assets activity for the year was as follows:

			Reclassification						
		Balance				and		Balance	
Governmental Activities:	J	une 30, 2005		Additions		Deletions	June 30, 2006		
Capital Assets Not Being Depreciated:									
Land	\$	9,817,704	\$	402,023	\$	1,974,010	\$	8,245,717

Governmental Activities:	
Instruction	\$ 2,641,982
Support Services	704,529
Community Services	 176,132
Total Depreciation Expense-	
Governmental Activities	\$ 3,522,643

# 5. LONG-TERM DEBT

# **Bonds Payable**

The following changes occurred in bonds payable during the fiscal year ending June 30, 2006:

Issue Date	Interest Rates	Original Issue		Outstanding July 1, 2005	 Issued	 Matured And Redeemed		Outstanding June 30, 2006	Due Within One Year
September 1997	4.45-5.75%	\$ 76,440,000	\$	32,415,000	\$ <u>.</u> .	\$ 6,055,000	\$	26,360,000	\$ 6,910,000
July 2002	2.5-4.5%	12,995,000		9,290,000	. •	1,810,000		7,480,000	1,855,000
May 2003	2.0-4.78%	74,997,238		74,352,238	-	635,000		73,717,238	795,000
March 2004	2.0-4.78%	42,180,000		42,180,000		-		42,180,000	-
November 2004	2.0-4.78%	27,815,000		27,415,000	 •	 		27,415,000	 -
				185,652,238	•	8,500,000		177,152,238	9,560,000
Early Retirement Oblig	ation			920,379	466,357	612,011		774,725	305,267
Unamortized Premium	(Discount)		_	2,330,452	-	 149,639	_	2,180,813	 
Total Bonds Paya	able		\$	188,903,069	\$ 466,357	\$ 9,261,650	\$	180,107,776	\$ 9,865,267

Future maturities of bonds payable are as follows:

Fiscal Year Ending June 30,	Principal	Interest
2007	9,560,000	6,200,212
2008	10,560,000	5,799,703
2009	11,735,000	5,262,960
2010	8,720,000	4,654,141
2011	7,785,000	4,341,444
2012-2016	46,456,785	23,296,393
2017-2021	43,904,630	39,059,917
2022-2026	30,655,823	22,508,483
2027-2029	7,775,000	566,067
Total	\$ 177,152,238	\$ 111,689,320

All long-term debt obligations are payable from the general and debt service funds.

# 5. LONG-TERM DEBT (CONTINUED)

# **General Obligation Bonds**

General obligation bonds are direct obligations and pledge the full faith and credit of the District. The District issues general obligation bonds to provide funds for the acquisition and construction of District school facilities. The original amount of general obligation bonds issued in prior years was \$164,432,238.

# **Advance Refunding Bonds**

In July of 2002 the District issued general obligation refunding bonds. The proceeds of the new bonds were placed in an irrevocable trust to provide for future debt service payments on the 1992 bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the District's basic financial statements.

In November of 2004, the District issued general obligation refunding bonds. The proceeds of the new bonds were placed in an irrevocable trust to provide for future debt service payments on the 1997 bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the District's basic financial statements. The advance refunding was undertaken to reduce total debt service payments over the next 13 years by \$1,509,930.

On June 30, 2006, \$37,245,000 of bonds outstanding are considered defeased.

# Pension Obligation Bonds

On March 1, 2004, limited tax pension obligation bonds totaling \$42,180,000, were issued to finance the District's unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the District's UAL. The actual savings realized by the District over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the District's future required contribution rate.

# 6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Due to/from other funds at June 30, 2006 are as follows:

	Due From			Due to	
	Ot	her Funds	Other Funds		
General Fund	\$ 774,692		\$	-	
Debt Service Fund		52,805		-	
Capital Projects Fund		1,225		122,735	
Special Revenue Funds		55,233		761,220	
	\$	883,955	\$	883,955	

interfund balances represent amounts owed to or from the general fund for pooled cash and investments.

### 7. OTHER POST EMPLOYMENT BENEFITS

### **Early Retirement**

The District provides an early retirement plan for certified and administrative employees. The plan is a single employer defined benefit pension plan available to a teacher or administrator who has completed fifteen or more years of service with the District and is at least 55 years of age or has 30 years in PERS. The plan provides two options: 1) a monthly stipend of \$500; or 2) a monthly stipend of \$350 plus additional dollars toward insurance benefits. All stipends terminate after forty-eight months or the end of the month in which the teacher reaches the age of 62, whichever is first.

The District's total obligation to 70 employees currently on early retirement is \$774,725. The District plans to cover this obligation through annual appropriations on a pay as you go basis. The charge to expenditures for employees retired under the plan for the fiscal years 2006 and 2005 was \$574,862 and \$339,336 respectively, and were equal to required contributions for each year. The actuarial present value of vested and non-vested accumulated benefits is not available.

# Post Employment Health Care Benefits

As a result of collective bargaining agreements, the Board has authorized, in addition to the pension benefits described above, the District to provide postretirement health care benefits to all employees who retire under the aforementioned early retirement plan. Currently, 48 retirees meet those eligibility requirements.

The plan provides teachers with full family medical, dental and vision insurance which continues until the retiree reaches age 62. Under option 2) in note 7, from age 62 to 65, the teacher receives \$900 annually toward medical insurance premiums, with any balance paid by the retiree. Insurance through age 65, and a \$50,000 life insurance policy is provided for administrators. Such costs are recorded as expenditures and funded on a pay as you go basis. For fiscal years 2006 and 2005, these costs totaled \$324,463 and \$421,943 respectively.

### 8. PENSION PLAN

The District contributes to the Oregon Public Employees Retirement Fund (OPERF), a cost-sharing multiple-employer defined benefit pension plan administered by the Oregon Public Employees Retirement System (PERS). PERS provides retirement and disability benefits, post employment health care benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

PERS is administered under Oregon Revised Statute (ORS) Chapter 238. ORS 238.620 establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information.

That report can be obtained by writing to PERS, P.O. Box 23700, Tigard, OR 97281-3700 or by calling 1-503-598-7377.

# 8. PENSION PLAN (CONTINUED)

Members of PERS are required to contribute 6% of their salary covered under the plan. The District is required by ORS 238.225 to contribute at an actuarially determined rate. The rate effective July 1, 2005 is 2.78% of salary covered under the plan for Tier 1 and Tier 2 employees and 8.04% for employees covered under the Oregon Public Services Retirement Plan (OPSRP). On March 1, 2004 the District participated in the Oregon School Boards Association limited tax pension obligation bond issues to finance a portion of the estimated unfunded PERS actuarial liability (the "UAL"). The District borrowed \$42,180,000, reducing the rate paid to PERS to 2.78%, on Tier 1 and Tier 2 employees, effective March 1, 2004. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature. The District's contribution to the plan for the years ending June 30, 2006, 2005, and 2004 were \$4,126,975, \$3,919,675, and \$3,803,431, respectively, and were equal to the required contributions for each year. The District pays the employee's 6% required contribution in accordance with bargaining agreements.

### 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft or damage to and destruction of assets; errors and omissions; and natural disasters. The District purchases commercial insurance to minimize its exposure to these risks. The amount of settlements did not exceed insurance coverage limits in any of the past three years.

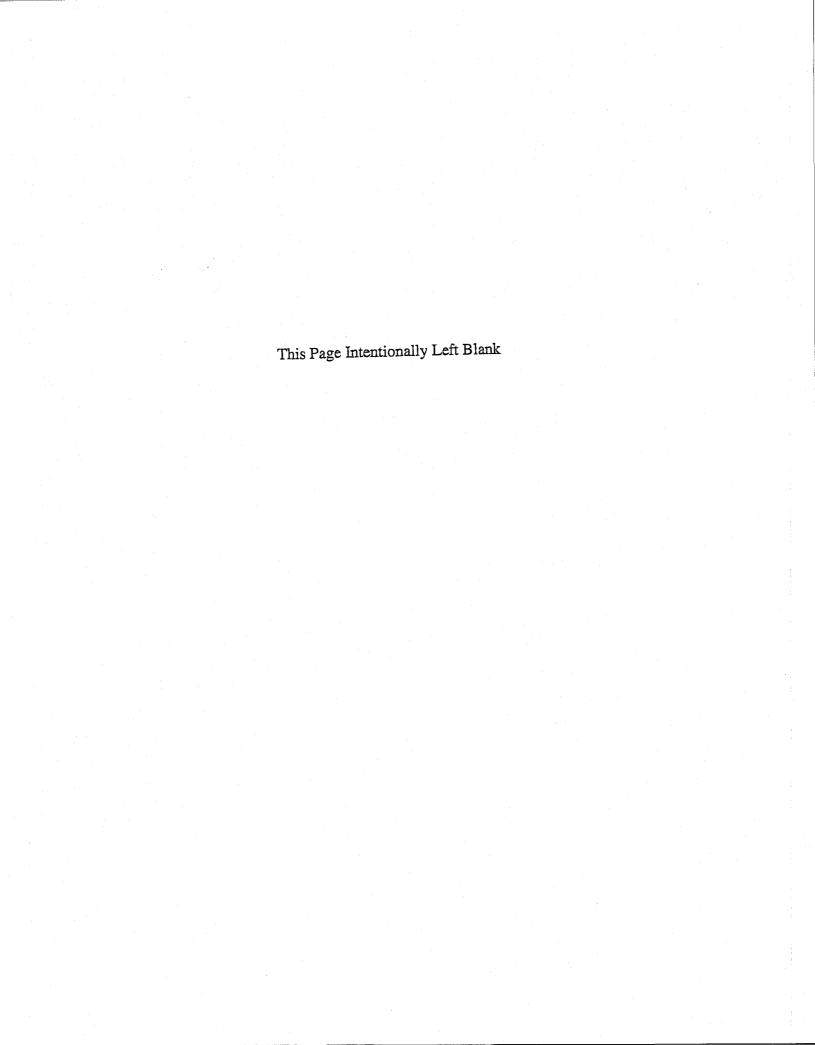

### 10. RESTATEMENTS

A prior period adjustment was made to beginning net assets in the amount of \$2,538,108, for capital assets acquired in a prior year that were expended in the governmental funds but not capitalized in the government-wide financial statements.

### 10. Subsequent Events

The District issued \$4.25 million in Tax and Revenue Anticipation Notes in July 2006. This financing was done to provide necessary cash to be used for cash flow purposes in October 2006 and June 2007. The repayment date of this TRAN issue is July 31, 2007.

The District received non-refundable escrow deposits on the sale of two properties totaling \$300,000 in September 2006. Additional proceeds will come to the District if a closing of the contracts on these two properties occurs, which has yet to be determined.

# Statistical Section

#### **Statistical Section**

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Cont	<u>ents</u>	Page
	Financial Trends	
	These schedules contain trend information to help the reader understand how the District's financial performace and well-being have changed over time.	47
	Revenue Capacity	
	These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	50
	Debt Capacity	
	These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	55
	Demographic and Economic Information	
	These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	58
	Operating Information	
	These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	59

#### Sources:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 in 2002-03; schedules presenting government-wide information include information beginning in that year.

#### **Condensed Statement of Net Assets**

Permanent tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanet rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the November general election in even numbered years. Rates for debt service are set based on each year's requirements.

Local Option taxes are assessed at \$1.50 per thousand AV. The district-wide average rate for 2005-06 is \$1.21. Local option taxes are assessed on a property by property basis. Not all properties pay at the highest \$1.50 rate.

#### Note:

The net taxes levied are combined for Clackamas and Washington counties. Responsibility for the collection of all property taxes rests within the County's Department of Assessment and Taxation. Current taxes are assessed as of July, become due as of November 15 and become delinquent as of May 15. Assessed taxes become a lien upon real property in the fourth year of delinquency. Proceeds of tax sales are applied to delinquent taxes, interest and other costs attributable to the property sold.

CLACKAMAS COUNTY, OREGON

2005-2006 AUDITORS' COMMENTS AND DISCLOSURES

Oregon Administrative Rules 162-10-000 through 162-16-000 (the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy) enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required statements and schedules are set forth in preceding pages of this report. Required comments and disclosures related to our audit of such statements and schedules are set forth as follows.

#### REPORT ON INTERNAL ACCOUNTING CONTROL

We have audited the basic financial statements of West Linn-Wilsonville School District 3J, Clackamas County, Oregon, as of and for the year ended June 30, 2006, and have issued our report thereon dated October 27, 2006.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

The management of West Linn-Wilsonville School District 3J, Clackamas County, Oregon, is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the basic financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the basic financial statements of West Linn-Wilsonville School District 3J, Clackamas County, Oregon, for the year ended June 30, 2006, we obtained an understanding of the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants.

#### WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J CLACKAMAS COUNTY, OREGON 2005-2006 AUDITORS' COMMENTS AND DISCLOSURES

#### REPORT ON INTERNAL ACCOUNTING CONTROL (CONTINUED)

A material weakness is a reportable condition in which the design or operation of one or more of the specific internal control structure elements does not reduce to a relatively low level the risk that errors and irregularities in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operations that we consider to be material weaknesses as defined above.

This report is intended solely for the information and use of the board, audit committee, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

#### ACCOUNTING RECORDS

The District uses an in-house data processing system. The system is adequate to meet the audit requirements.

#### 2005-2006 AND 2006-2007 BUDGETS

The budgets adopted by the District for the current and ensuing fiscal year were examined during the audit. Based on our testing it was determined that budget preparation and adoption procedures followed by the District were in compliance with the Oregon Local Budget Law.

#### **BUDGET TRANSACTIONS**

Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2006, except as noted on page 22.

#### COLLATERAL SECURING BANK DEPOSITS

The District's deposits appeared to be adequately covered by federal depository insurance or certificates of participation at all times during 2005-2006, based upon our testing. At no time throughout the year were the District's deposits not fully collateralized. Deposits in the State Local Government Investment Pool are not required to be collateralized.

#### INVESTMENTS

The District's investments for the year ending June 30, 2006, were reviewed and appeared to comply with the legal requirements pertaining to the investment of public funds contained in ORS 294.035.

#### PUBLIC CONTRACTS AND PURCHASING

The District's procedures for awarding public contracts were reviewed and based upon our testing we found no instances of non-compliance with ORS Chapter 279 during 2004-2005.

#### WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J CLACKAMAS COUNTY, OREGON 2005-2006 AUDITORS' COMMENTS AND DISCLOSURES

#### INSURANCE AND FIDELITY BONDS

Details concerning insurance and fidelity bond coverage were reviewed during the audit. The coverage provided appears to meet legal requirements. We do not have the professional expertise to state whether the insurance coverage is adequate.

#### STATUTORY BONDED DEBT LIMITATION

The District's bonded debt outstanding was within the provisions of ORS 552.645.

#### **OUTSTANDING WARRANTS**

The District had no outstanding endorsed warrants at June 30, 2006.

#### PROGRAMS FUNDED FROM OUTSIDE SOURCES

We reviewed and tested, to the extent we considered necessary in the circumstances, transactions and reports relative to federal and state grant programs. Our reports concerning grant compliance and a schedule of federal assistance are contained in this report in the single audit section.

#### STATE SCHOOL FUND DISTRIBUTION INFORMATION

We have performed the procedures recommended by the Oregon Secretary of State, Audits Division, regarding the District's compliance with the requirements of ORS 327.013 as further defined by the Oregon State Department of Education pertaining to the District's calculations and reporting of the factors used to compute the State School Fund distribution for the year ended June 30, 2006.

Based on the work described above, we have found no instances where the District did not comply with the rules and regulations pertaining to the District's calculation and reporting of the factors used to compute the State School Fund distribution for the year ended June 30, 2006.

#### STATE HIGHWAY

The District had no programs funded from state highway funds during the year ended June 30, 2006.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the basic financial statements of West Linn-Wilsonville School District 3J, Clackamas County, Oregon, as of and for the year ended June 30, 2006, and have issued our report thereon dated October 27, 2006. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

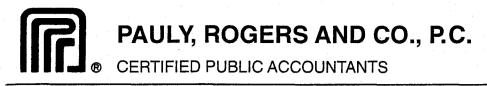

As part of obtaining reasonable assurance about whether West Linn-Wilsonville School District 3J's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

In planning and performing our audit, we considered West Linn-Wilsonville School District 3J's Clackamas County, Oregon, internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J
CLACKAMAS COUNTY, OREGON

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE WITH OMB CIRCULAR A-133

We have audited the compliance of West Linn-Wilsonville School District 3J Clackamas County, Oregon with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. West Linn-Wilsonville School District 3J Clackamas County, Oregon major federal programs are identified in the accompanying schedule of expenditures of federal awards. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of West Linn-Wilsonville School District 3J Clackamas County, Oregon management. Our responsibility is to express an opinion on West Linn-Wilsonville School District 3J Clackamas County, Oregon compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133 Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about West Linn-Wilsonville School District 3J Clackamas County, Oregon compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on West Linn-Wilsonville School District 3J Clackamas County, Oregon compliance with those requirements.

In our opinion, West Linn-Wilsonville School District 3J Clackamas County, Oregon complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

# WEST LINN-WILSONVILLE SCHOOL DISTRICT 3J October 27, 2006

The management of West Linn-Wilsonville School District 3J Clackamas County, Oregon is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered West Linn-Wilsonville School District 3J Clackamas County, Oregon internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
