Orig. Code(s): IFCA

21st Century Schools Councils

The purpose of 21st Century Schools Councils (aka Site Councils) is to increase student achievement. In compliance with provisions of the Oregon Educational Act for the 21st Century, it is the policy of the Board to establish 21st Century Schools Councils in each of the district's schools. It is the Board's belief that when a group of people who represent different parts of an educational community come together to work in a collaborative manner to improve education, student achievement will increase.

The Board believes that all students can learn and should have the opportunity to achieve their maximum learning potential. Achieving this goal will best be accomplished through school-based decision making with equitable family-school-community partnerships.

All positions and recommendations of the councils shall be in compliance and consistent with state law, Board policy, the district's vision, goals and operating procedures.

END OF POLICY
