

West Linn – Wilsonville School District

Student Google Apps for Education Agreement

This year, West Linn – Wilsonville Schools will begin using Google Apps for Education in the classroom. Google Apps for Education is a suite of free, web-based programs that may include email, document creation, shared calendars, and collaboration tools. This service is available through an agreement between Google and the State of Oregon.

If you have any questions, please don't hesitate to contact the school administration, teacher-librarian, or your child's teacher(s).

Student Name: _____ Student ID: _____

Parent/Guardian Name: _____

_____ I give permission for my child to use Oregon K-12 Apps for Education. By doing so, I agree to routinely monitor my child's use when away from district property.

Parent Signature

Date

Google Apps for Education runs on Internet domains purchased and owned by the school district and is intended for educational use. Some of your child's teachers may use Google Apps for lessons, assignments, and communication.

Google Apps for Education is available anywhere with Internet access. School staff will monitor student use of Apps while at school. Parents should monitor their child's use of Apps away from school. Students are responsible for their own behavior at all times.

Acceptable Use (Privacy and Safety)

The school district provides an ongoing, comprehensive digital citizenship education. We expect students to use this knowledge as they engage in online activities within the GoogleApps for Education system and all technology/online systems.

Apps for Education is primarily for educational use. Students may use Apps for personal use subject to the restrictions below and additional school rules and policies that may apply.

- **Privacy** - School staff, administrators, and parents all have access to student Apps accounts for monitoring purposes. Students should have no expectation of privacy on the Apps system.
- **Limited personal use** - Students may use Apps tools for personal projects but may not use them for:
 - Unlawful activities
 - Commercial purposes (for example, running a business or trying to make money)
 - Personal financial gain (for example, running a web site to sell things)
 - Inappropriate sexual or other offensive content
 - Threatening another person
 - Misrepresentation of Oregon Public Schools, staff or students. Apps, sites, email, and groups are not public forums. They are extensions of classroom spaces where student free speech rights may be limited.
- **Safety**
 - Students should not post personal contact information about themselves or other people. That includes addresses and phone numbers.
 - Students will tell their teacher or other school employee about any message they receive that is inappropriate or makes them feel uncomfortable.
 - Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their account.
- **Access Restriction - Due Process**
 - Access to Google Apps for Education is considered a privilege accorded at the discretion of the District. The District maintains the right to immediately withdraw the access and use of Apps when there is reason to believe that violations of law or District policies have occurred. In such cases, the alleged violation will be referred to the Principal for further investigation and account restoration, suspension, or termination. As a party of the Agreement with Google, the State of Oregon also reserves the right to immediately suspend any user account suspected of inappropriate use. Pending review, a user account may be terminated as part of such action.

These are the laws and policies that help to protect our students online:

Child Internet Protection Act (CIPA)

The school is required by CIPA to have technology measures and policies in place that protect students from harmful materials including those that are obscene and pornographic. This means that student email is filtered. Mail containing harmful content from inappropriate sites will be blocked.

-- CIPA - <http://fcc.gov/cgb/consumerfacts/cipa.html>

Children's Online Privacy Protection Act (COPPA)

COPPA applies to commercial companies and limits their ability to collect personal information from children under 13. By default, Google advertising is turned off for Apps for Education users. No personal student information is collected for commercial purposes. This permission form allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes.

-- COPPA - <http://www.ftc.gov/privacy/coppafaqs.shtm>

Family Educational Rights and Privacy Act (FERPA)

FERPA protects the privacy of student education records and gives parents rights to review student records. Under FERPA, schools may disclose directory information (name, phone, address, grade level, etc...) but parents may request that the school not disclose this information.

- The school will not publish un-protected confidential education records for public viewing on the Internet.
- Parents may request that photos, names and general directory information about their children not be published.
- Parents have the right at any time to investigate the contents of their child's email and Apps for Education files.
